Cars & Parts 1994

Guidance for Controlling Asbestos-Containing Materials in Buildings Dale Keyes 1995-05-01 Provides guidance on controlling asbestos-containing materials (ACM) found in buildings. Provides a current summary of data on exposure to airborne asbestos; gives survey procedures for determining if ACM is present in buildings; explains how to establish a special operations and maintenance program in a building found to contain asbestos; reviews technical issues confronted when assessing the potential for exposure to airborne asbestos, in particular indoor settings, suggests a structured process for selecting a particular course of action, and much more. Commonly referred to as the Blue Book.

The Modern Caravan Kate Oliver 2022 THE MODERN CARAVAN is a warm invitation into rolling homes designed for life on the open road. Brimming with evocative storytelling and hundreds of photographs showcasing handsome interiors and stunning landscapes, this book features 25 stories from solo travelers, couples, and families who traded the comforts of a rooted life for ever-changing vistas and eye-opening experiences. You’ll meet a family exploring Australia in a cozy vintage camper filled with plants and natural wood finishes; a young couple designing a modern trailer inspired by the colors and textures of the high desert; a husband and wife living in a chic Airstream with green velvet seating, floral wallpaper, and herringbone wood floors. Balancing style with function, each carefully crafted tiny home is the result of long-held dreams, ingenuity, and imagination.

GAS Turbine Combustion, Second Edition Arthur H. Lefebvre 1998-09-01 This revised edition provides understanding of the basic physical, chemical, and aerodynamic processes associated with gas turbine combustion and their relevance and application to combustor performance and design. It also introduces the many new concepts for ultra-low emissions combustors, and new advances in fuel preparation and liner wall-cooling techniques for their success. It details advanced and practical approaches to combustor design for the clean burning of alternative liquid-fuels derived from oil shades, tar sands, and coal. Additional topics include diffusers, combustion performance fuel injection, combustion noise, heat transfer, and emissions.

Vintage Camper Trailers Paul Lacitinola 2016-07-21 Vintage camper trailers are a unique symbol of midcentury America that resonates with many people. This book introduces many of those people, along with the trailers they've lovingly maintained or restored. It includes hundreds of photographs of everything from fancy and comfortable trailers designed for glamping (glamorous camping), to trailers handed down through families across generations, and even entrepreneurs who have transformed their trailers into vending booths. Paul Lacitinola enjoys everything about vintage camper trailers, including rescuing, restoring, and rallying. In 2011, he began publishing the first U.S.-based magazine for collectors, restorers, and admirers of American-made camper trailers, Vintage Camper Trailers, which now has thousands of subscribers in more than a dozen different countries. He lives in Elverta, California.

Airstream Patrick Foster 2016-05-02 Iconic, aluminum-bodied Airstream trailers have been around for 85 years--get the full story in this photo-rich book. Airstream is America's best and oldest manufacturer of travel trailers, and those retro silver coaches are iconic on America's highways. Representative of the age-old desire to explore, these trailers are unmistakable in design with distinctive aerodynamic rounded lines and an aluminum outer skin. Airstream: America's World Traveler celebrates the eight decades since the first Airstream graced America's highways. Airstream chronicles the fascinating history of Airstream trailers.
through a detailed history, stories, and beautiful photography. Although its roots
stretch back to 1926, the first Airstream-brand trailers were introduced in 1936,
just as America was emerging from the dark days of the Great Depression. Of the
400 travel-trailer manufacturers of that era, only Airstream survived. Dubbed the
"Airstream Clipper" after the first trans-Atlantic seaplane, the 1936 Airstream
featured a unique lightweight aluminum body that cut down on wind resistance,
improved fuel efficiency, and made for easier towing. It slept four, carried its
own water supply, was fitted with electric lights, and cost $1,200. The Airstream
provided travelers with a way to see the world at their leisure and in solid
comfort. It was the perfect vehicle for a country emerging from a long struggle.
In the eight decades since that first Airstream, the company has produced some of
the finest trailers in the world and gained a worldwide reputation as the Rolls-
Royce of travel trailers. The Airstream story is one of travel, adventure, and
memories that last a lifetime.

An Introduction to Language and Linguistics Ralph Fasold 2006-03-06 This
accessible textbook is the only introduction to linguistics in which each chapter
is written by an expert who teaches courses on that topic, ensuring balanced and
uniformly excellent coverage of the full range of modern linguistics. Assuming no
prior knowledge the text offers a clear introduction to the traditional topics of
structural linguistics (theories of sound, form, meaning, and language change),
and in addition provides full coverage of contextual linguistics, including
separate chapters on discourse, dialect variation, language and culture, and the
politics of language. There are also up-to-date separate chapters on language and
the brain, computational linguistics, writing, child language acquisition, and
second-language learning. The breadth of the textbook makes it ideal for
introductory courses on language and linguistics offered by departments of
English, sociology, anthropology, and communications, as well as by linguistics
departments.

Parentology Dalton Conley 2014-03-18 An award-winning scientist offers his
unorthodox approach to childrearing: "Parentology is brilliant, jaw-droppingly
funny, and bound to change your opinions about parenting and its
consequences" (Amy Chua, author of Battle Hymn of the Tiger Mother). If you’re like
many parents, you might ask family and friends for advice when faced with
important choices about how to raise your kids. You might turn to parenting books
or simply rely on timeworn religious or cultural traditions. But when Dalton
Conley, a dual-doctorate scientist and full-blown nerd, needed childrearing
advice, he turned to scientific research to make the big decisions. In
Parentology, Conley hilariously reports the results of those experiments, from
bribing his kids to do math (since studies show conditional cash transfers
improved educational and health outcomes for kids) to teaching them impulse
control by giving them weird names (because evidence shows kids with unique names
learn not to react when their peers tease them) to getting a vasectomy (because
fewer kids in a family mean smarter kids). Conley encourages parents to draw on
the latest data to rear children, if only because that level of engagement with kids
will produce solid and happy ones. Ultimately these experiments are very
loving, and the outcomes are redemptive—even when Conley’s sassy kids show him the
limits of his profession. Parentology teaches you everything you need to know
about the latest literature on parenting—with lessons that go down easy. You’ll be
laughing and learning at the same time.

Cotton Ginners Handbook W. S. Anthony 1995-11-01 Addresses the key cotton ginning
issues concerned with facilities, machinery, cleaning, ginning, drying, packaging,
and waste collection and disposal as well as ancillary issues concerned with
pollution, management, economics, energy, insurance, safety, cotton
classification, and textile machinery. Appendices: duties of gin personnel,
portable moisture meters and pink ballworm control in gins. Glossary and index.
Books, charts, tables and graphs.

Popular Science 1977-06 Popular Science gives our readers the information and
tools to improve their technology and their world. The core belief that Popular
Science and our readers share: The future is going to be better, and science and
technology are the driving forces that will help make it better.
New Serial Titles, Classed Subject Arrangement 1978
Streamline Aluminum Trailers Daniel Hall 2017-09-15 The iconic shape and
appearance of a streamline aluminum trailer sitting at a campsite or being pulled
down the highway has captivated collectors and vacationing hobbyists for nearly 90
years. During this time, the exterior appearance of the trailer has changed very
little, so recollections can range from seeing a 1937 Dodge Pickup to a 1969
Impala hauling one of these beauties. Today, restored rarities from Airstream,
Silver Streak, Boles Aero, Clipper, and Spartan can command as much as $100,000 in
the marketplace. These trailers have become symbols of American pop culture for
several generations. Until now, very little information has been available to help
you when it comes to restoring and updating one of these trailers. Daniel Hall, of
the vintage restoration company Camper Reparadise, addresses all items of
streamline trailer restoration thoroughly in this one-stop-shopping book. Details
on your trailer and how to restore it are covered from trailer tongue to trailing
bumper. Key restoration components including chassis, floor, exterior/interior
skin, electrical elements, insulation, doorjamb refabrication, LP, plumbing,
and polishing are all covered comprehensively in a visual, step-by-step format.
Whether you’re a collector car enthusiast, resident of a trailer campground, or a
vacationing addict, owning this restoration guide will be an essential tool in keeping your trailer active, updated, and in immaculate condition.
