Marginalised Communities in Higher Education Neil Harrison 2021 “Drawing on examples from nine countries across five continents, this book offers anyone interested in the future of higher education the opportunity to understand how communities become marginalised and how this impacts on their access to learning and their ability to thrive as students. Focusing on groups that suffer directly through discriminatory practices or indirectly through distinct forms of sociocultural disadvantage, this book brings to light communities about which little has been written and where research efforts are in their relative infancy. Each chapter documents the experiences of a group and provides insights that have a wider reach and gives voice to those that are often unheard. The book concludes with a new conceptualisation of the social forces that lead to marginalisation in higher education. This cutting-edge book is a must read for higher education researchers, policy makers, and students interested in access to education, sociology of education, development studies, and cultural studies”--

Ocean City, New Jersey
Mark McLaughlin 1999-03-01
From the early 1900s through the 1950s, the postcard was an extraordinarily popular means of communication, and many of the postcards produced during this "golden age" can today be considered works of art. Postcard photographers traveled the length and breadth of the nation snapping photographs of busy street scenes, documenting local landmarks, and assembling crowds of local children only too happy to pose for a picture. These images, printed as postcards and sold in general stores across the country, survive as telling reminders of an important era in America's history. This fascinating new history of Ocean City, New Jersey, showcases more than two hundred of the best vintage postcards available. Images in this collection date between 1879 and 1950.

Affective Health and Masculinities in South Africa Hans Reihling 2020-04-24 Affective Health and Masculinities in South Africa explores how different masculinities modulate substance use, interpersonal violence, suicidality, and AIDS as well as recovery cross-culturally. With a focus on three male protagonists living in very distinct urban areas of Cape Town, this comparative ethnography shows that men's struggles to become invulnerable increase vulnerability. Through an analysis of masculinities as social assemblages, the study shows how affective health problems are tied to modern individualism rather than African 'tradition' that has become a cliche in Eurocentric gender studies. Affective health is conceptualized as a balancing act. 
between autonomy and connectivity that after colonialism and apartheid has become compromised through the imperative of self-reliance. This book provides a rare perspective on young men’s vulnerability in everyday life that may affect the reader and spark discussion about how masculinities in relationships shape physical and psychological health. Moreover, it shows how men change in the face of distress in ways that may look different than global health and gender-transformative approaches envision. Thick descriptions of actual events over the life course make the study accessible to both graduate and undergraduate students in the social sciences. Contributing to current debates on mental health and masculinity, this volume will be of interest to scholars from various disciplines including anthropology, gender studies, African studies, psychology, and global health.

*Center Center* James Whiteside 2021-08-17 “James Whiteside is an electrifying performer, an incredible athlete, and an artist, through and through. To know James is to love him; with Center Center, you are about to fall in love.” —Jennifer Garner “A frank examination and celebration of queerness.” —Good Morning America A daring, joyous, and inspiring memoir-in-essays from the American Ballet Theatre principal dancer-slash-drag queen-slash-pop star who's redefining what it means to be a man in ballet There's a mark on every stage around the world that signifies the center of its depth and width, called "center center." James Whiteside has dreamed of standing on that very mark as a principal dancer with the prestigious American Ballet Theatre ever since he was a twelve-year-old blown away by watching the company's spring gala. The GLAMOUR. The VIRTUOSITY. The RIPPED MEN IN TIGHTS! In this absurd and absurdist collection of essays, Whiteside tells us the story of how he got to be a primo ballerino—stopping along the way to muse about the tragically fated childhood pets who taught him how to feel, reminisce on ill-advised partying at summer dance camps, and imagine fantastical run-ins with Jesus on Grindr. Also in these pages are tales of the two alter egos he created to subvert the strict classical rigor of ballet: JbDubs, an out-and-proud pop musician, and Ühu Betch, an over-the-top drag queen named after Yoohoo chocolate milk. Center Center is an exuberant behind-the-scenes tour of Whiteside’s triple life, both on- and offstage—a raunchy, curious, and unapologetic celebration of queerness, self-expression, friendship, sex,
creativity, and pushing boundaries that will entertain you, shock you*, inspire you, embolden you . . . and maybe even make you cry. *THIS IS NOT A BOOK FOR CHILDREN.

Some days can be wonderful and rich with blue skies with rays of yellow, and in a single moment, dark clouds and stormy winds push you to the brink of despair! In those moments, we often find ourselves discouraged and in need of words that speak to the heart of the matter; and it is there that we get a glimpse of the smallest rays of hope, waiting to be put together like pieces of a fragmented puzzle. The question for us then becomes, wherein does this source of enlightenment stem? In this big little book, these simply penned words, steeped in hidden pathways, can have the ability to meet you where you are and change life's trajectory. **The Evolution of American Urban Society** Howard P. Chudacoff 1981 In over three centuries of growth and change, American cities have exerted forces that have been both centrifugal -- pulling people, resources, and interest toward them - - and centripetal -- sending out goods, services, and ideas. The story of how these forces evolved over time encompasses almost every aspect of American history. Always cognizant of change over time, this book explores the ways that urban development influenced people's lives and on the ways people shaped the urban environment. A city is simultaneously a social, economic, and political entity, and Howard P. Chudacoff and Judith E. Smith have taken care to examine each of these dimensions of urban life. Their focus is on urban society: its institutions, its activities, and, especially, its people. In this, the Sixth Edition,
Chudacoff and Smith pay particular attention to issues of race, ethnicity, gender, the built environment, regional differentials, and emerging cultural forms such as rock and rap music. New material has been added on the environmental impact of cities and suburbs and on the new racial and ethnic mix produced by the most recent immigration trends. In addition, the final chapter has been expanded to take into account issues relating to the presidential administration of George W. Bush and to the consequences of the terrorist attacks of September 11, 2001.

**Parentology**
Dalton Conley 2014-03-18
An award-winning scientist offers his unorthodox approach to childrearing: “Parentology is brilliant, jaw-droppingly funny, and full of wisdom...bound to change your thinking about parenting and its conventions” (Amy Chua, author of Battle Hymn of the Tiger Mother). If you’re like many parents, you might ask family and friends for advice when faced with important choices about how to raise your kids. You might turn to parenting books or simply rely on timeworn religious or cultural traditions. But when Dalton Conley, a dual-doctorate scientist and full-blown nerd, needed childrearing advice, he turned to scientific research to make the big decisions. In Parentology, Conley hilariously reports the results of those experiments, from bribing his kids to do math (since studies show conditional cash transfers improved educational and health outcomes for kids) to teaching them impulse control by giving them weird names (because evidence shows kids with unique names learn not to react when their peers tease them) to getting a vasectomy (because fewer kids in a family mean smarter kids). Conley encourages parents to draw on the latest data to rear children, if only because that level of engagement with kids will produce solid and happy ones. Ultimately these experiments are very loving, and the outcomes are redemptive—even when Conley’s sassy kids show him the limits of his profession. Parentology teaches you everything you need to know about the latest literature on parenting—with lessons that go down easy. You’ll be laughing and learning at the same time.

**Access Chinese**
Jun Liu 2012-01-27
Access Chinese gives a new perspective to teaching and learning Chinese by harmonizing 3 key elements of learning a second language creatively: Intertwining language with culture Balancing focus on forms and meaning Developing literacy skills through both oral and written Chinese. This book treats culture as the glue that connects the units by following the story lines of a twin brother and sister learning Chinese in two contexts (China vs. US). Access Chinese provides essential tools for communication throughout the story development while at the same time engaging learners in acquiring additional vocabulary and grammar by contextualizing these elements in further communicative tasks. Also, Access Chinese uses colloquial Chinese as a starting point for engaging the learner while also introducing the nuance of Chinese philosophy and deeply imbedded Chinese etiquettes and rituals in communication to bring about the curiosity and appreciation of the language and culture.
