Marginalised Communities in Higher Education Neil Harrison 2021 "Drawing on examples from nine countries across five continents, this book offers anyone interested in the future of higher education the opportunity to understand how communities become marginalised and how this impacts on their access to learning and their ability to thrive as students. Focusing on groups that suffer directly through discriminatory practices or indirectly through distinct forms of sociocultural disadvantage, this book brings to light communities about which little has been written and where research efforts are in their relative infancy. Each chapter documents the experiences of a group and provides insights that have a wider reach and gives voice to those that are often unheard. The book concludes with a new conceptualisation of the social forces that lead to marginalisation in higher education. This cutting-edge book is a must read for higher education researchers, policy makers, and students interested in access to education, sociology of education, development studies, and cultural studies"--

Slow Blind Drive Gwen O'Toole 2006-06 Slow Blind Drive is a conversation with the dead. A letter to an unlikely muse and a testament to the resilience of unconditional love. All at once haunting and horrific, erotic and endearing, this is the story of what it means to grow up a girl, to find solace in addiction, to have everything and give it away. It's a raw and sentimental account that follows a childhood friendship as it thrives and suffers through an intimate love, drug addiction, mental illness and betrayal. This is a story whose characters stay with you long after you've turned the last pages. From Birdland to Broadway Bill Crow 1993-09-24 In the 1950s, New York City's Birdland was the center of the world of modern jazz--and a revelation to Bill Crow, a wet-behind-the-ears twenty-two-year-old from Washington State. Located on Broadway between 52nd and 53rd streets, the club named for the incomparable Charlie "Bird" Parker boasted lifesize photo murals of modern jazzmen like Dizzy Gillespie, Lennie Tristano, and, of course, Bird himself, looming large against jet black walls. Exotic live birds perched in cages behind the bar. The midget master of ceremonies, 3'9" Pee Wee Marquette, dressed in a zoot suit and loud tie, smoked huge cigars and screeched mispronounced introductions into the microphone. And the jazz-struck young Crow would park in the bleachers till 4 am, blissfully enveloped by the heady music of Bird, Bud Powell, Max Roach, and a host of other jazz giants. From Birdland to Broadway is an enthralling insider's account of four decades of a life in jazz. Bill Crow, journeyman bass player, superb storyteller, and author of the successful Jazz Anecdotes, here narrates many moving and delightful tales of the pioneers of modern jazz he played with and was befriended by. We find Dizzy Gillespie, with whom Crow, because of prior commitments, regretfully declined steady work, dancing at the Royal Roost, Stan Getz sadly teetering on the brink of losing himself to drugs, and Harry Belafonte (known then as "the Cinderella Gentleman") running a lunch counter in New York's Sheridan Square between music dates. And we also witness many of the highlights of Crow's career, such as in 1955 when the Marian McPartland Trio (with Crow on bass) was
named “Small Group of the Year” by Metronome; Crow playing with the Gerry Mulligan Quartet at venues like Storyville in Boston and Harlem’s Apollo Theater (where they appeared with Dannah Washington); and the tour of the Soviet Union with Benny Goodman, a journey that might have been a high point of Crow’s travels abroad but was marred by Goodman’s legendary mistreatment of his band. Moving beyond jazz clubs to the Broadway concert pit and a variety of studio gigs in the ’60s, Crow encounters actors such as Yul Brynner and pop-rock acts like Simon and Garfunkel. From the great to the near-great, from Billie Holiday to Judy Holiday, Bill Crow’s wealth of personal anecdotes takes the reader from Birdland, to the Half Note, to the Playboy Club, to the footlights of Broadway. This revealing book is a must for music lovers of the jazz world, told by someone who’s been there.

Monstrous Opera

Charles Dill 2014-07-14

One of the foremost composers of the French Baroque operatic tradition, Rameau is often cited for his struggle to steer lyric tragedy away from its strict Lullian form, inspired by spoken tragedy, and toward a more expressive musical style. In this fresh exploration of Rameau’s compositional aesthetic, Charles Dill depicts a much more complicated figure: one obsessed with tradition, musical theater, the public’s expectations of his music. Dill examines the ways Rameau mediated among these often competing values and how he interacted with his critics and with the public. The result is a sophisticated rethinking of Rameau as a musical innovator. In his compositions, Rameau tried to highlight music’s potential for dramatic meanings. But his listeners, who understood lyric tragedy to be a poetic rather than musical genre, were generally frustrated by these attempts. In fact, some described Rameau’s music as monstrous—using an image of deformity to present the failure of reason and communication. Dill shows how Rameau answered his critics with rational, theoretical arguments about the role of music in lyric tragedy. At the same time, however, the composer sought to placate his audiences by substantially revising his musical texts in later performances, sometimes abandoning his most creative ideas. Monstrous Opera illuminates the complexity of Rameau’s vision, revealing not only the tensions within the music but also the conflicting desires that drove the man—himself caricatured by his contemporaries as a monster. Originally published in 1998, The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. The Evolution of American Urban Society Howard P. Chudacoff 1981 In over three centuries of growth and change, American cities have exerted forces that have been both centrifugal -- pulling people, resources, and interest toward them -- and centripetal -- sending out goods, services, and ideas. The story of how these forces evolved over time encompasses almost every aspect of American history. Always cognizant of change over time, this book explores the ways that urban development influenced people's lives and on the ways people shaped the urban environment. A city is simultaneously a social, economic, and political entity, and Howard P. Chudacoff and Judith E. Smith have taken care to examine each of these dimensions of urban life. Their focus is on the urban society of elites and, and, especially, its people. In this, the Sixth Edition, Chudacoff and Smith pay particular attention to issues of race, ethnicity, gender, the built environment, regional differentials, and emerging cultural forms such as rock and rap music. New material has been added on the environmental impact of cities and suburbs and on the new racial and ethnic mix produced by the most recent immigration trends.
