Book of Blues Jack Kerouac 1995-09-01 Best known for his "Legend of Duluoz" novels, including *On the Road* and *The Dharma Bums*, Jack Kerouac is also an important poet. In these eight extended poems, Kerouac writes from the heart of experience in the music of language, employing the same instrumental blues form that he used to fullest effect in *Mexico City Blues*, his largely unheralded classic of postmodern literature. Edited by Kerouac himself, *Book of Blues* is an exuberant foray into language and consciousness, rich with imagery, propelled by rhythm, and based in a reverent attentiveness to the moment. "In my system, the form of blues choruses is limited by the small page of the breastpocket notebook in which they are written, like the form of a set number of bars in a jazz blues chorus, and so sometimes the word-meaning can carry from one chorus into another, or not, just like the phrase-meaning can carry harmonically from one chorus to the other, or not, in jazz, so that, in these blues as in jazz, the form is determined by time, and by the musicians' spontaneous phrasing & harmonizing with the beat of time as it waves & waves on by in measured choruses." --Jack Kerouac

Southern Edwardseans Obbie Tyler Todd 2022-01-17 The founders and forerunners of the Southern Baptist Convention were fundamentally shaped by the thought of Puritan theologian Jonathan Edwards and his theological successors. While Baptists in the antebellum South boasted a different theological pedigree than Presbyterians or Congregationalists, and while they inhabited a Southern landscape unfamiliar to the bustling cities and tall forests of New England, they believed their similarities with Edwards far outweighed their differences. Like Edwards, these Baptists were revivalistic, Calvinistic, loosely confessional, and committed to practical divinity. In these four things, Southern Edwardseanism lived, moved, and had its being. In the nineteenth-century, when so many Presbyterians scoffed at Edwards's "innovation" and Methodists scorned his Calvinism, Baptists found in Edwards a man after their own heart. By 1845, at the first Southern Baptist Convention, Southern Edwardseans had laid the groundwork for a convention marked by the theology of Jonathan Edwards.

Chaos in Systems with Noise Tomasz Kapitaniak 1990 As in the first edition, the influence of random noise on the chaotic behavior of dissipative dynamical systems is investigated. Problems are illustrated by mechanical examples. This revised and updated edition contains new sections on the summary of probability theory, homoclinic chaos, Melnikov method, routes to chaos, stabilization of period-doubling, and Hopf bifurcation by noise. Some chapters have been rewritten and new examples have been added.

Monks and Merchants Annette L. Juliano 2001-10 Stunning works in precious metals, glass, and stone -- many recently excavated and virtually unknown outside China -- shed new light on a pivotal epoch in Chinese history. From the 4th through 7th century, monks and merchants freely traveled along the fabled Silk Road, linking China with the west, propagating Buddhism, and purveying exotic goods and artifacts that fundamentally transformed Chinese culture and society. This sumptuous volume, the first to explore the magnificent treasures and sites of China's northwest section of the Silk Road, accompanies an exhibition at the Asia Society in New York. The text by an international team of scholars illuminates the importance of the region in this period of fertile cross-cultural exchanges between Eastern and Western Asia.

SOBA II Derek A. Welsby 1998 The Christian Kingdom of Alwa in medieval Nubia dominated the region around the confluence of the White and Blue Niles for at least 700 years. The most southerly of the three Nile Basin Nubian kingdoms, Alwa has shown much of the cultural sophistication of its time. The British Institute in Eastern Africa conducted its second campaign of excavations in the capital city, Soba East. The project produced details of artefacts both imported and

locally made, and threw further light on buildings of the era. The campaign focused on a number of widely-spaced areas around the periphery, including a rescue excavation of a vaulted tomb containing multiple burials. Of special interest are the reports on human remains and animal bone; these represent the first studies of large assemblages of this date from Central Sudan. This volume contributes greatly to our knowledge of the inhabitants' material culture, and our understanding of Soba as a major religious and commercial centre.

US Airborne Divisions in the ETO 1944-45 Steven J. Zaloga 2013-01-20 The delivery of entire divisions to battlefields behind enemy lines by parachute and glider was a unique feature of World War II, and by the end of the war the US Army deployed the largest airborne force in the world, created in only three years, and boasting such impressive units as the 82nd "All American" and 101st "Screaming Eagles." This book details the organization and operation history of these units throughout the war in Northwest Europe from 1944 to 1945, covering the desperate night drops over Normandy in support of the D-Day invasions, through the capture of Nijmegen during Operation Market-Garden to Operation Varsity, the last great airborne operation of the war to secure the crossing of the Rhine.

Some Ether Nick Flynn 2015-06-02 Winner of a "Discovery"/The Nation Award Winner of the 1999 PEN/Joyce Osterweil Award for Poetry Some Ether is one of the more remarkable debut collections of poetry to appear in America in recent memory.

As Mark Doty has noted, "these poems are more than testimony; in lyrics of ringing clarity and strange precision, Flynn conjures a will to survive, the buoyant motion toward love which is sometimes all that saves us. Some Ether resonates in the imagination long after the final poem; this is a startling, moving debut."

Organizational and Cultural Causes of Army First-Term Attrition James V. Marrone 2021-10-05 The U.S. Army invests significant resources in recruiting, training, and preparing new soldiers. When a soldier does not complete a full contract term, the Army views this as a net loss. The goal of the research summarized in this report is to determine whether organizational factors matter for producing attrition and to generate hypotheses regarding the mechanisms by which organizational factors generate attrition. The authors made use of the random assignment of soldiers to their first battalion to determine whether the "luck of the draw"--The battalion to which the soldier is assigned and the senior noncommissioned officer (NCO) at that battalion -- is directly linked to the observed variation across assignments in eventual first-term outcomes. The authors complemented that analysis with interviews exploring the factors that could be driving differences across units, such as leadership and command culture, availability of soldier supports, management of deployment and training cycles, and installation amenities
