The Notebook Girls Julia Baskin 2008-11-15 Everyone likes to think they started the notebook. Sophie claims she stole the idea from two girls in her math class. Courtney still has a death grip on the theory that the notebook was her invention. Lindsey doesn't really care; she's just along for the ride. And Julia never knows what's going on anyway.What we do know is that we started the notebook in freshman year at Stuyvesant High School as a way to keep in contact when our conflicting schedules denied us one another's company. It allowed us to express ourselves and our views of the world in a tone of complete sarcasm, obscenity, and blind honesty. We've spent a significant portion of our adolescence trying to figure out who we are. The notebook is the closest we've come.We're just a group of normal girls with normal lives. Our notebook is meant to make you laugh and make you remember.

Memoirs of a Hack Mechanic Rob Siegel 2013 For over 25 years Rob Siegel has written a monthly column called "The Hack Mechanic" for the BMW Car Club of America's magazine Roundel. In Memoirs of a Hack Mechanic, Rob Siegel shares his secrets to buying, fixing, and driving cool cars without risking the kids' tuition money or destroying his marriage. And that's something to brag about considering the dozens of cars, including twenty-five BMW 2002s, that have passed through his garage over the past three decades. With a steady dose of irreverent humor, Memoirs of a Hack Mechanic blends car stories, DIY advice, and cautionary tales in a way that will resonate with the car-obsessed (and the people who love them).

The Hole in the Universe K. C. Cole 2012-07-18 "A compelling, enjoyable, and widely accessible exploration of one of the most fundamental scientific issues of our age" (Brian Greene, author of The Elegant Universe). In The Hole in the Universe, an award-winning science writer "provides an illuminating slant on physics and mathematics by exploring the concept of nothing" (Scientific American). Welcome to the world of cutting-edge math, physics, and neuroscience, where the search for the ultimate vacuum, the point of nothingness, the ground zero of theory, has rendered the universe deep, rich, and juicy. Every time scientists and mathematicians think they have reached the ultimate void, something new appears: a black hole, an undulating string, an additional dimension of space or time, repulsive anti-gravity, universes that breed like bunnies. Cole's exploration at the edge of everything is "as playfully entertaining as it is informative" (San Jose Mercury News). "A strong and sometimes mind-blowing introduction to the edges of modern physics." —Salon.com "Comprising an expansive set of topics from the history of numbers to string theory, the big bang, even Zen, the book's chapters are broken into bite-sized portions that allow the author to revel in the puns and awkwardness that comes with trying to describe a concept that no one has fully grasped. It is an amorphous, flowing, mind-bending discussion, written in rich, graceful prose. As clear and accessible as Hawking's A Brief History of Time, this work deserves wide circulation, not just among science buffs." —Publishers Weekly, starred review "Here we have the definitive book about nothing, and who would think that nothing could be so interesting. . . . not only accessible but compelling reading." —St. Louis Post-Dispatch

Lone Star Politics Ken Collier 2016-12-01 In Texas, myth often clashes with the reality of everyday governance. The Nacogdoches author team (Ken Collier, Steven Galatas, & Julie Harrelson-Stephens) of Lone Star Politics explores the state's rich political tradition and explains who gets what, and how by setting Texas in context with other states' constitutions, policymaking, electoral practices, and institutions. Critical thinking questions and unvarnished "Winners and Losers" discussions guide students toward understanding Texas government. This Fifth Edition expands its coverage of civil rights in the state, and includes the contemporary issues that highlight the push and pull between federal, state, and local governments.

Christiansburg M. Anna Fariello 2005-05-04 Images of America: Christiansburg is a finely tuned compilation of photographs depicting the growth and character of a rural, southwestern Virginia community. Christiansburg proper is situated along the edge of a verdant plateau that rises between the Allegheny and Blue Ridge Mountains and is incorporated into the New River watershed. Early settlers were attracted to the region's rich alluvial soil and tempered climates. By the mid-18th century, permanent homesteads began to dot the gentle landscape and the town was officially incorporated in 1792. These photographs follow Christiansburg from its beginnings as a popular stagecoach stop to the 20th century, documenting progress in education, industry, and commerce.

The Best of the Hack Mechanic Rob Siegel 2021-05-21 In 1986, after owning eleven BMWs in three years, Rob Siegel sent an unsolicited article to Roundel, the magazine of the BMW Car Club of America. Little did he know that it would kick off 35 years of do-it-yourself automotive writing, and that his monthly column The Hack Mechanic? would attract a community of like-minded enthusiasts who, like Rob, try to come up with creative workarounds to keep their cars running without taking them to the dealer every time they hiccup. More than just "use 10mm wrench on bolt B" instructions, though, the columns have always been small journeys into passion and problem solving, philosophy lessons disguised as a repair articles, and short stories about getting into and hopefully out of automotive trouble. The Best Of The Hack Mechanic? is a selection of these pieces, including ones on how to buy a vintage BMW and not get burned, the most creative way possible to lock your keys in a running car, why car folks will do just about anything to avoid buying a family minivan when the money obviously would be so much better spent on "something fun," why a car nut really does need seven cars, why the odds of having a car start is often inversely proportion to the number of cars in the driveway, why finding one of his father's tools is enough to make Rob cry, and why working on your car feels so damned good, all written in Rob's Hack Mechanic voice that hovers somewhere between J.D. Salinger, Bill Bryson, and David Sedaris. Informative, irreverent, and poignant, The Best Of The Hack Mechanic? will have you hoping Rob has another 35 years of columns in him.

Deadlock Sara Paretsky 2011-02-09 When Chicago Black Hawks hockey legend Boom Boom Warshawski slips off a wharf and drowns in Lake Michigan, his private-eye cousin questions the accidental death report and rumors of suicide. Armed with a bottle of Black Label and a Smith & Weson, V.I. follows a trail of violence and corruption to the center of the Windy City's powerful shipping industry. Dodging elaborate attempts on her life with characteristic grit and humor, the one-of-a-kind detective wends her way through a maze of grain elevators and thousand-ton freighters, ruthless businessmen and gorgeous ballerinas, to ferret out Boom Boom's killers before they phase her out of the picture—permanently. Praise for Deadlock "V.I. Warshawski is one of the best . . . smart, tough, sexy."—Daily News (New York) "Sara Paretsky makes excellent use of local backgrounds in a carefully plotted tale of murder and great misdeeds in the world of Great Lakes cargo shipping."—Chicago Tribune "Hard-boiled detective fiction . . . a swift-paced and engrossing read."—The Philadelphia Inquirer "Slithers with suspense!"—Chicago Sun-Times

Post-Hindu India Kancha Ilaiah 2009-11-17 Kancha Ilaiah, the author of the best selling book Why I am Not a Hindu, pens a thought-provoking critique of Brahmanism and the caste system in India, while anticipating the death of Hinduism as a direct consequence of, what he says is, its anti-scientific and anti-nationalistic stand. This work challenges Hinduism's interpretation of history, with a virulent attack on caste politics, and also takes a refreshing look at the necessity of encouraging indigenous scientific thought for the sake of national progress. It establishes Hinduism as a `backward` religion that suppresses the latent scientific and productive potential of the Dalit-Bahujan communities. The author says this oppressive system of spiritual fascism is detrimental to both the future of religion and the nation-state. He thus criticizes the idea of spiritual justice or varnadharma, used to justify the caste system, as rooted in spiritual inequality. On a micro-analytical level, it is based on a thorough study of the productive knowledge systems of the Dalit-Bahujan communities of Andhra Pradesh, and provides a detailed day-to-day analysis of the scientific technological processes and events at work in the life of a member of these communities. On a macro level, it shows how Hinduism fails to negotiate between faith and reason, unlike other major religions of the world. Kancha Ilaiah critiques the intellectual imagination of the dominant communities and inspires the marginalized. In the process of doing so he crafts a work of immense socio-political interest which appeals to academics, and also to all those who are concerned about contemporary India's polity and social fabric.

Where Truth Lies Christiane Heggan 2012-09-17 Museum curator Grace McKenzie is shocked when she receives word that her ex-fiancé, Steven Hatfield, has been murdered. In his will, Steven has left her his art gallery in New Hope, Pennsylvania. Anticipating that she would turn down the bequest, he asked that she spend a week at the gallery before making her final decision. Motivated by a sense of duty to a man she once loved, Grace agrees to go to New Hope for one week. She isn't the only person drawn to the small town. FBI agent Matt Baxter has returned to his hometown for one reason only—to clear his father of a bogus murder charge. While he and Grace seek answers, they discover that beneath the surface of this charming, peaceful town lies an old secret a few of its citizens would rather keep buried. And when their search takes an unexpected turn, they have only hours to find out where the truth lies—or be buried with it.

Fatwa Jacky Trevane 2013-09-12 Jacky was twenty-three when she arrived in Egypt for a holiday with her boyfriend, Dave. Little did she know that an innocent holiday would result in a horror beyond her imagination. Separated from Dave in a bustling street, Jacky fell and twisted her ankle, only to be swept up by a handsome, chivalrous Egyptian called Omar. It was love at first sight. Jacky spent those ten days living with the family - sharing a bed with Omar's sister - irresistibly attracted to Omar. Swept away by her infatuation she married him and converted to Islam before returning to England to her parents. Returning to Cairo against her parents' advice but full of hopes and plans, Jacky's dream turned into a nightmare. As a blue-eyed blonde she was never going to fit in with life in a poor suburb where the women walked at all times with their heads bowed. During the next eight years she suffered non-stop physical and emotional abuse. She had to escape with her two little girls but how? This tense story never quite ends. Even now, Jacky is living in the shadow of a death threat. A fatwa is issued legitimately under Islamic law to a Muslim woman who leaves her husband. Jacky to protect herself and her daughters minute by minute, day by day, never quite sure what may be around the corner...

Faulkner's Sexualities Annette Trefzer 2010-11-12 William Faulkner grew up and began his writing career during a time of great cultural upheaval, especially in the realm of sexuality, where every normative notion of identity and relationship was being re-examined. Not only does Faulkner explore multiple versions of sexuality throughout his work, but he also studies the sexual dimension of various social, economic, and aesthetic concerns. In Faulkner's Sexualities, contributors query Faulkner's life and fiction in terms of sexual identity, sexual politics, and the ways in which such concerns affect his aesthetics. Given the frequent play with sexual norms and practices, how does Faulkner's fiction constitute the sexual subject in relation to the dynamics of the body, language, and culture? In what ways does Faulkner participate in discourses of masculinity and femininity, desire and reproduction, heterosexuality and homosexuality? In what ways are these discourses bound up with representations of race and ethnicity, modernity and ideology, region and nation? In what ways do his texts touch on questions concerning the racialization of categories of gender within colonial and dominant metropolitan discourses and power relations? Is there a Southern sexuality? This volume wrestles with these questions and relates them to theories of race, gender, and sexuality.
