control by giving them weird names (because evidence shows kids with unique names learn not to react when their peers tease them) to getting a vasectomy so they can't control who they have kids with. selfie addiction is the new addiction. The social media obsessed generation has become self-obsessed through engagement with kids will produce solid and happy ones. Ultimately these experiences are very living, and the outcomes are redeemable—even when Conley’s sassy kids show him the limits of his profession. Parentology teaches you everything you need to know about the latest literature on parenting—with lessons that even the most seasoned parent will find surprising. Action Research for Improving Educational Practice Valsa Kshoy 2009-10-29 Which topics are right for Action research in an education context? How do you go about planning a project, collecting and analysing your data? What’s the best way to present your research findings to parents, colleagues or funding bodies? Whether you are new to Action Research or a veteran practitioner, this new edition offers clear guidance and support. The book can be used as a companion book for a doctoral student writing up your dissertation, this step-by-step guide takes you through every stage involved in carrying out Action Research. In this brand new revised edition, you will be guided through five stages: planning, conducting, analysing and reporting, and integrating literature from the literature—children’s participation and children’s rights in action research projects in educational settings—validity and action research—a new chapter on writing for publication—an action research planning sheet. This book draws on Valsa Kshoy’s extensive experience of conducting action research projects in a range of educational settings and is packed with examples and exercises. Case studies include UK and international examples, allowing you to reflect on multiple perspectives of Action Research in education. Those who Approach Action Research, and those looking for a straightforward explanation of the methods involved, will find this book invaluable. Valsa Kshoy is Professor of Education at the University of Central Lancashire and has over 20 years’ experience of Action Research.
