Writers are Readers Lester L. Laminack 2015 In Writers Are Readers, the mutually supportive roles of reading and writing are made visible through the idea of "flipsides:" how a reader's insights can be turned around to provide insights into his own writing, and vice versa. Lester and Reba's trademark engaging style is woven throughout chapters full of sample lessons, student writing samples, and recommended texts for maximizing the flipped concept across the year. "Leading the student to understand what he did as a reader can become a lens that brings into focus what the writer had to do before a reader ever saw the page," they write. Discover fresh new ways to turn reading strategies into writing opportunities that your students will be excited about and deeply understand.

**Written in Bone** Sally M. Walker 2013-11-01 Bright white teeth. Straight leg bones. Awkwardly contorted arm bones. On a hot summer day in 2005, Dr. Douglas Owsley of the Smithsonian Institution peered into an excavated grave, carefully examining the fragile skeleton that had been buried there for four hundred years. "He was about fifteen years old when he died. And he was European," Owsley concluded. But how did he know? Just as forensic scientists use their knowledge of human remains to help solve crimes, they use similar skills to solve the mysteries of the long-ago past. Join author Sally M. Walker as she works alongside the scientists investigating colonial-era graves near Jamestown, Virginia, as well as other sites in Maryland. As you follow their investigations, she'll introduce you to what scientists believe are the lives of a teenage boy, a ship's captain, an indentured servant, a colonial official and his family, and an enslaved African girl. All are reaching beyond the grave to tell us their stories, which are written in bone.

**365 Days of Wonder: Mr. Browne's Precepts** R. J. Palacio 2014-08-26 Over 13 million people have read the #1 New York Times bestseller Wonder—now, the wonder returns with a companion book of life lessons and inspiration from Auggie's favorite teacher—perfect for back to school! Based on the book that inspired the Choose Kind movement and a major motion picture, readers will fall in love all over again with Auggie Pullman, an ordinary boy with an extraordinary face. And don't miss R.J. Palacio's highly anticipated new novel, Pony, available now! In Wonder, readers were introduced to memorable English teacher Mr. Browne and his love of precepts. This companion book features conversations between Mr. Browne and Auggie, Julian, Summer, Jack Will, and others, giving readers a special peek at their lives after Wonder ends. Mr. Browne's essays and correspondence are rounded out by a precept for each day of the year—drawn from popular songs to children’s books to inscriptions on Egyptian tombstones to fortune cookies. His selections celebrate the goodness of human beings, the strength of people's hearts, and the power of people's wills. There's something for everyone here, with words of wisdom from such noteworthy people as Anne Frank, Martin Luther King Jr., Confucius, Goethe, Sappho—and over 100 readers of Wonder who sent R. J. Palacio their own precepts.

**Parentology** Dalton Conley 2014-03-18 An award-winning scientist offers his unorthodox approach to childrearing: “Parentology is brilliant, jaw-droppingly funny, and full of wisdom...bound to change your thinking about parenting and its conventions” (Amy Chua, author of Battle Hymn of the Tiger Mother). If you're like many parents, you might ask family and friends for advice when faced with important choices about how to raise your kids. You might turn to parenting books or simply rely on timeworn religious or cultural traditions. But when Dalton Conley, a dual-doctorate scientist and full-blown nerd, needed childrearing advice, he turned to scientific research to make the big decisions. In Parentology, Conley hilariously reports the results of those experiments, from bribing his kids to do math (since studies show conditional cash transfers improved educational and health outcomes for kids) to teaching them impulse control by giving them weird names (because evidence shows kids with unique names learn not to react when their peers tease them) to getting a
vasectomy (because fewer kids in a family mean smarter kids). Conley encourages parents to draw on the latest data to rear children, if only because that level of engagement with kids will produce solid and happy ones. Ultimately these experiments are very loving, and the outcomes are redemptive—even when Conley’s sassy kids show him the limits of his profession. Parentology teaches you everything you need to know about the latest literature on parenting—with lessons that go down easy. You’ll be laughing and learning at the same time.

**The Highwayman** Alfred Noyes 2013-12-12 The road was a ribbon of moonlight over the purple moor, And the highwayman came riding- Riding-riding- The highwayman came riding, up to the old inn-door. In Alfred Noyes's thrilling poem, charged with drama and tension, we ride with the highwayman and recoil from the terrible fate that befalls him and his sweetheart Bess, the landlord's daughter. The vivid imagery of the writing is matched by Charles Keeping's haunting illustrations which won him the Kate Greenaway Medal. This new edition features rescanned artwork to capture the breath-taking detail of Keeping's illustrations and a striking new cover.

So what Do They Really Know?  
Cris Tovani 2011  
In So What Do They Really Know? Cris Tovani explores the complex issue of monitoring, assessing, and grading students' thinking and performance with fairness and fidelity. Like all teachers, Cris struggles to balance her student-centered instruction with school system mandates. Her recommendations are realistic and practical; she understands that what isn't manageable isn't sustainable. Cris describes the systems and structure she uses in her own classroom and shows teachers how to use assessments to monitor student growth and provide targeted feedback that enables students to master content goals. She also shares ways to bring students into the assessment cycle so they can monitor their own learning, maximizing motivation and engagement. So What Do They Really Know? includes a wealth of information: Lessons from Cris's classroom Templates showing how teachers can use the workshop model to assess and differentiate instruction  
Student work, including samples from linguistically diverse learners, struggling readers, and college-bound seniors Anchor charts of student thinking Ideas on how to give feedback  
Guidelines that explain how conferring is different from monitoring  
Suggestions for assessing learning and differentiating instruction during conferences Advice for managing ongoing assessment  
Cris's willingness to share her own struggles continues to be a hallmark of her work. Teachers will recognize their own students and the challenges they face as they join Cris on the journey to figure out how to raise student achievement.
