Striving and Winning: John Piper 1976 Is your current relationship with God weaker than it could be? Here is a book that will help you strengthen your connection with God.

Walking Through Fire: Vanatha Rinderi 2021-03-19 The astonishing, job-like story of how an existence filled with loss, suffering, questioning, and anger, became a life filled with shocking and incomprehensible peace and joy. Vanatha Rinderi contracted polio as an infant, was misdiagnosed, and lived with widespread paralysis for the first 26 years of her life. She struggled to find hope, meaning, and love until she met a Christian, though, she thought things would get easier, and they did: carefree college days, a dream job in Boston, and an MBA from Stanford where she met, and married a classmate. But life unraveled. Again. She had four miscarriages. Her son died because of a doctor's mistake. And Vanatha was diagnosed with post-polio syndrome. And then another diagnosis: breast cancer. Her daughter was a teenager and adolescence alone. This was not the worst thing she thought she would have to face. But, as Vanatha discovered, everything she experienced was designed to draw her closer to Christ as she discovered "that intimacy with God in suffering can be breathtakingly beautiful."

Preparing Yourself Suffering: Michael S Horton

Preparing for the Psychological Consequences of Terrorism in Medicine 2003-08-26 The Oklahoma City bombing, intentional crashing of airliners on September 11, 2001, and anthrax attacks in the fall of 2001 have made Americans acutely aware of the impacts of terrorism. These events and continued threats of terrorism have raised questions about the psychological impact of terrorism, and have increased the need for public health professionals to understand the psychological responses to terrorism events and how to best meet the psychological needs that will likely persist. Preparing for the Psychological Consequences of Terrorism highlights some of the critical issues in responding to the psychological needs that result from terrorism and provides possible options for intervention. The committee offers an example for a public health framework for the psychological health needs of victims of terrorism and those providing support to victims. The committee also provides a framework for the variety of terrorism events can be used. The report includes recommendations for the training and education of service providers, ensuring appropriate guidelines for the protection of individual privacy and confidentiality, and ensuring that the focus of individuals who have suffered through terrorism events can be accurately formulated. we must ask ourselves anew whether we are ambassadors, following the script we’ve been given, or building our own kingdoms with our own blueprint. The Church’s journey in years to come.” – Pope Francis This special edition of Pope Francis’s popular message of hope explores themes that are important for the whole Church of Christ.

The Western Messenger James Freeman Clarke 1837 The Joy of the Gospel is a call to action to live a life motivated by divine love and, in turn, to experience heaven on earth. Includes a foreword by Robert Barron, author of Catholicism: A Journey to the Heart of the Faith and James Martin, SJ, author of Jesus: A Pilgrimage and Thinking in Christ. This volume includes: (1) a brief synopsis of biblical passages that inform a particular doctrine; (2) surveys of past and current theologies with contemporary emphasis on exegetical, philosophical, practical, and social dimensions of the issues discussed; (3) substantial interaction with various Christian movements within the Protestant, Catholic and Orthodox traditions, as well as the hermeneutical issues raised by postmodernity; and (4) charts, sidebars, questions for discussion, and an extensive bibliography, divided into different entry levels and topics.

A Place for Weakness Michael S. Horton 2010-08-06 The good news that God's Word proclaims is a recipe to use in times of disaster. That is to say, it comes as a relevant announcement only to those who are in trouble for one reason or another. A Place for Weakness, formerly titled Too Good To Be True, by award-winning Michael Horton, calls for more realism in facing life's challenges and a richer view of God and his purposes to match them.

Making Eye Health a Population Health Imperative National Academies of Sciences, Engineering, and Medicine, 2017-01-15 The ability to see deeply affects how human beings perceive and interpret the world around them. For most people, eyesight is part of everyday communication, social activities, educational and professional pursuits, the care of others, and the maintenance of personal health, independence, and mobility. Functioning eyes and vision system can reduce an adult's risk of chronic health conditions, death, falls and injuries, social isolation, depression, and other psychological problems. In children, properly maintained eye and vision health contributes to a child's social development, academic achievement, and better health across the lifespan.

Making a Stand for Animals Oscar Horta 2002-06-23 Engaging and thought-provoking, this book examines how humans see and treat other animals and argues that we should extend equal consideration and respect to all beings, human and nonhuman alike. Our world is plighted by 'isms' such as racism and sexism, but we may have overlooked a very important one: speciesism. Speciesism is a form of discrimination against those who don't belong to a certain species. It drives us to see nonhuman animals as objects, rather than individuals with their own interests and with the ability to feel and suffer. This book questions all of the assumptions speciesism is based upon. It raises many challenging questions over humans' very complicated attitudes toward other animals. Thinking about how animals are used as well as the suffering of wild animals, and what the future may be for all beings, this book calls for society to seriously take into account the interests of all animals. For all who care about animals, or simply how to make the world a better place, this book is essential reading.

The Two Voices Within Nicholas Martin and Linda M. Martin 2015-12-21 Ego and Spirit both speak profoundly within our lives. Can you hear what they are saying to you? These two voices are the main energies that rise up and give shape to our thoughts, feelings, behaviors, and physical health. As we go about meeting life’s challenges—such as change, adversity, stressors, conflicts, relationships, self-esteem, achievement, and our ability to experience genuine happiness—the voice of an unconscious, imbalanced ego is unfortunately the one we more often hear and heed, leading us into a lesser version of ourselves. In this book, the author presents that the principles of mission from a position of weakness should be the foundational and guiding value for mission of the Church.
