A Single Roll Of The Dice: Obamas Diplomacy With Iran

Trita Parsi

2017-01-01

The definitive book on Obama's historic nuclear deal with Iran from the author of the Foreign Affairs Best Book on the Middle East in 2012. This timely book focuses on President Obama's deeply considered strategy toward Iran's nuclear program and reveals how the historic agreement of 2015 broke the persistent stalemate in negotiations that had blocked earlier efforts. The deal accomplished two major feats in one stroke: it averted the threat of war with Iran and prevented the possibility of an Iranian nuclear bomb. Trita Parsi, a Middle East foreign policy expert who advised the Obama White House throughout the talks and had access to decision-makers and diplomats on the U.S. and Iranian sides alike, examines every facet of a triumph that could become as important and consequential as Nixon's rapprochement with China. Drawing from more than seventy-five in-depth interviews with key decision-makers, including Iran's Foreign Minister Javad Zarif and U.S. Secretary of State John Kerry, this is the first authoritative account of President Obama's signature foreign policy achievement.

In the Studio

Todd Hignite

2007-09-21

Nine critically acclaimed cartoonists and graphic novelists invite us into their studios to discuss their art and inspirations. These studio visits with some of today's most popular and innovative comic artists present an unparalleled look at the cutting edge of the comic medium. The artists, some of whom rarely grant interviews, offer insights into the creative process, their influences and personal sources of inspiration, and the history of comics. The interviews amount to private gallery tours, with the artists commenting, now thoughtfully, now passionately, on their own work as well as the works of others. The book is generously illustrated with full-color reproductions of the artists' works, including some that have been published and others not originally intended for publication, such as sketchbooks and personal projects. Additional illustrations show behind-the-scenes working processes of the cartoonists and particular works by others that have influenced or inspired them. Through the eyes of these artists, we see with a new clarity the achievement of contemporary cartoonists and the extraordinary possibilities of comic art.

Exploring Happiness

Sissela Bok

2010-01-01

Examines the nature of happiness, discussing how it has been treated in philosophy and religion and by the modern disciplines of psychology, economics, and neuroscience, and considers the place of individual happiness within the context of modern life.

Proust

Benjamin Taylor

2015-01-01

An arresting new study of the author's life while exploring how Proust's personal correspondence and published works were greatly informed by his mother's Judaism, his homosexuality, and such dramatic events as the Dreyfus Affair and, above all, World War I. As Taylor writes in his prologue, "Proust's Search is the most encyclopedic of novels, encompassing the essentials of human nature. . . . His account, running from the early years of the Third Republic to the aftermath of World War I, becomes the inclusive story of all lives, a colossal mimesis. To read the entire Search is to find oneself transfigured and victorious at journey's end, at home in time and in eternity too."

The Stars

Tom VanDamm

2012-07-04

The second book of a series on Astronomy created by Falling Apple Science. Stargazing has never been more fun. Learn about the four constellations that will help you understand the entire night sky, any time of the year. Step out any evening and see your favorites--at Christmastime you'll find Orion, along with his entourage. Discover why Orion is on the run (and who he happens to be chasing) in the summer watch a beautiful swan fly across the evening sky. Read this book and you'll always have an old friend you can find in the sky. To learn about Moon phases and planetary motion, see the first book of the Astronomy series, "Sun, Moon and Planets" by the same authors.

Mexico

Jo Tuckman

2012-07-03

In 2000, Mexico's long invincible Institutional Revolutionary Party (PRI) lost the presidential election to Vicente Fox of the National Action Party (PAN). The ensuing changeover--after 71 years of PRI dominance--was hailed as the beginning of a new era of hope for Mexico. Yet the promises of the PAN victory were not consolidated. In this vivid account of Mexico's recent history, a journalist with extensive reporting experience investigates the nation's young democracy, its shortcomings and achievements, and why the PRI is favored to retake the presidency in 2012. Jo Tuckman reports on the murky, terrifying world of Mexico's drug wars, the counterproductive government strategy, and the impact of U.S. policies. She describes the reluctance and inability of politicians to seriously tackle rampant corruption, environmental degradation, pervasive poverty, and acute inequality. To make matters worse, the influence of non-elected interest groups has grown and public trust in almost all institutions--including the Catholic Church--is fading. The pressure valve once presented by emigration is also closing. Even so, there are positive signs: the critical media cannot be easily controlled, and small but determined citizen groups notch up significant, if partial, victories for accountability. While Mexico faces complex challenges that can often seem insurmountable, Tuckman concludes, the unfailing vitality and imagination of many in Mexico inspire hope for a better future.

I'll Never Tell

Harry G. Schmitt

2016-08-20

A humorous, yet poignant social historic narrative of a priest grappling with the changing mores of both the Catholic Church and contemporary life. Father Harry Schmitt encountered movie stars as well as cardinals and popes. But his real ministry centered around common people he met through his radio and television shows over the span of 50 years.

The Neighborhoods of Brooklyn

Kenneth T. Jackson

2004

Brooklyn--famed for its bridge, its long-departed Dodgers, its Botanic Garden, and its accent—is the most populous borough in New York City and arguably the most colorful. Its many neighborhoods boast diverse and shifting ethnic enclaves, an abundance of architectural styles, and an amazing number of churches and festivals. Generously illustrated with both historical and contemporary photographs, The Neighborhoods of Brooklyn is
an indispensable and entertaining guide. Begun as an offshoot of The Encyclopedia of New York City, which provides much of the historical background, the book takes its character from the neighborhoods themselves, as detailed by the Citizens Committee for New York City, and Brooklyn Borough Historian John Manbeck. Taking us on a tour of some 90 neighborhoods (including ghost neighborhoods that no longer exist), the book identifies the boundaries of each one through a neighborhood profile and a street map. There is also an essay on each neighborhood as well as an insert with practical tips on subways, buses, libraries, police precincts, fire departments, and hospitals. In addition, each entry includes eclectic neighborhood facts: Erasmus Hall Academy, in Flatbush, boasts such famous graduates as Barbra Streisand and Bobby Fischer; during Poland’s 1990 elections, more than 5,000 absentee ballots were postmarked Greenpoint. The introduction by Kenneth T. Jackson draws our attention to an overview, while an index allows readers to locate key sites within the borough. In 1898, when it was the third largest city in the United States, the City of Brooklyn merged with New York City to become one of its five boroughs. A century later it is time to salute this unique community in a book that will be an essential resource for past, present, and future residents. The Neighborhoods of Brooklyn is the first in a series on New York’s five boroughs.

Electoral Realignments David R. Mayhew 2008-10-01 The study of electoral realignments is one of the most influential and intellectually captivating ideas of the early 1950s, when it was independently conceived by American political scientists. Realignment theory has been seen as a science able to predict changes, and generations of students, journalists, pundits, and political scientists have been trained to be on the lookout for “signs” of new electoral realignments. Now a major political scientist argues that the essential claims of realignment theory are wrong—that American elections, parties, and policymaking are not (and never were) reconfigured according to the realignment calendar. David Mayhew examines fifteen key empirical claims of realignment theory in detail and shows us why each in turn does not hold up under scrutiny. It is time, he insists, to open the field to new ideas. We might, for example, adopt a more nominalistic, skeptical way of thinking about American elections that highlights contingency, short-term election strategies, and valence issues. Or we might examine such broad topics as bellicosity in early American history, or racial questions in much of our electoral history. But we must move on from an old orthodoxy and failed model of illumination.

A Single Roll of the Dice Tricia Parsi 2012-01-24 Have the diplomatic efforts of the Obama administration toward Iran failed? Was the Bush administration’s emphasis on military intervention, refusal to negotiate, and pursuit of regime change a better approach? How can the United States best address the ongoing turmoil in Tehran? This book provides a definitive and comprehensive analysis of the Obama administration’s early diplomatic outreach to Iran and discusses the best way to move toward more positive relations between the two discordant states. Tricia Parsi, a Middle East foreign policy expert with extensive Capitol Hill and United Nations experience, interviewed 70 high-ranking officials from the U.S., Iran, Europe, Israel, Saudi Arabia, Turkey, and Brazil—including the top American and Iranian negotiators—for this book. Parsi uncovers the previously unknown story of American and Iranian negotiations during Obama’s early years as president, and how the West was enterprise by enterprise, negotiation by negotiation, and the real reasons for their current stalemate. Contrary to prevailing opinion, Parsi contends that diplomacy has not been fully tried. For various reasons, Obama’s diplomacy ended up being a single roll of the dice. It had to work either immediately—or not at all. Persistence and perseverance are keys to any negotiation. Neither Iran nor the U.S. had them in 2009.

Hank Greenberg Mark Kurlansky 2011-03-29 Profiles the Jewish-American baseball player who, in 1934, risked his chance to beat Babe Ruth’s home run record by sitting out a game on Yom Kippur, and describes his impact on Jewish-American baseball history. The Fourth Descendant of Kupaish 1993-01-01 Discusses the relationship between humans and machines, pondering the implications of humans becoming more mechanical and of computer robots being programmed to think. He describes early Greek and Chinese automaton and discusses ideas of previous centuries and of individuals on this subject.

Aesthetics Ivan Brunetti 2013-05-28 Presents a collection of the author’s works, including concept art and finished products.

According to Our Hearts Angela Onwuachi-Willig 2013-06-18 DIV This landmark book looks at what it means to be a multiracial couple in the United States today. According to Our Hearts begins with a look back at a 1925 case in which a two-month marriage ends with a man suing his wife for misrepresentation of her race, and shows how our society has yet to come to terms with interracial marriage. Angela Onwuachi-Willig examines the issue by drawing from a variety of sources, including her own experiences. She argues that housing law, family law, and employment law fail, in important ways, to protect multiracial couples. In a society in which marriage is used to give, withhold, and take away status—in the workplace and elsewhere—she says interracial couples are at a disadvantage, which is only exacerbated by current employment law. Slavery and the Commerce Power David L. Lightner 2006-01-01 Born in Warsaw, raised in a Hasidic community, and reaching maturity in secular Jewish Vilna and cosmopolitan Berlin, Abraham Joshua Heschel (1907-1972) escaped Nazism and immigrated to the United States in 1940. This lively and readable book tells the comprehensive story of his life and work in America, his politics and personality, and how he came to influence not only Jewish debate but also wider religious and cultural debates in the postwar decades. A worthy sequel to his widely-praised biography of Rabbi Judah L. Magnes, Kaplan’s study is based on previously unseen archives, FBI files, interviews with people who knew Heschel, and analyses of his extensive writings. Kaplan explores Heschel’s shy and private side, his spiritual radicalism, and his vehement defence of the Hebrew prophets’ ideal of absolute integrity and truth in ethical and political life. Of special interest are Heschel’s interfaith activities, including a secret meeting with Pope Paul VI during Vatican II, his commitment to civil rights with Martin Luther King, Jr., his views on the state of Israel, and his opposition to the Vietnam War. A tireless challenger to spiritual and religious complacency, Heschel stands as a dramatically important witness.

Gauguin, Cézanne, Matisse Joseph J. Rishel 2012 A trio of masterpieces by Gauguin, Cézanne, and Matisse are joined by works by other major artists in this exploration of the enduring vitality of the theme of Arcadia.

Iran’s Nuclear Program and International Law Daniel H. Joyner 2016-09-01 This book provides an international legal analysis of the most important questions regarding Iran’s nuclear program since 2002. Setting these legal questions in their historical and diplomatic context, this book aims to clarify how the relevant sources of international law — including primarily the 1968 Nuclear Non-Proliferation Treaty and IAEA treaty law — should be properly applied in the context of the Iran case. It provides an instructional case study of the application of these sources of international law, the lessons which can be applied to inform both the on-going legal and diplomatic dynamics surrounding the Iran nuclear dispute itself, as well as similar future cases. Some questions raised regard the watershed diplomatic accord reached between Iran and Western states in July, 2015, known as the Joint Comprehensive Program of Action. The answers will be of interests to diplomats and academics, as well as to anyone who is interested in understanding international law’s application to this sensitive dispute in calculative relations.

Iran, Israel, and the United States Ofira Seliktar 2018-06-20 This book analyzes the process of evaluating Iran’s nuclear project and efforts to roll it back, resulting in the 2015 nuclear agreement. To highlight the technological problems and the politicization involved in the process, this study uses real-time comparison of developments in Iran and the perception of Israel in the United States.

Iran and Turkey Marianna Charountaki 2018-03-30 The foreign policies of Turkey and Iran seem increasingly to dictate the course of events in the Middle East. More recently, and especially following the Syrian crisis, the spotlight has turned to these states’ dynamic re-entry onto the political stage, revealing them as key players with an international role in efforts towards the balance of power across the region. This book traces the major determinants of Turkish and Iranian foreign policies and their influence on events in the Middle East. Based on an examination of these...
states' politics and policies since 1979, and using material gathered from interviews with leading political figures from Turkey, Iran and the Kurdistan Region of Iraq, Marianna Charountaki offers fresh insights into how we understand the contemporary global order. Of particular importance, this book shows, is the effect of both external and internal factors on foreign policy and how the interaction between state and non-state actors informs political decisions. In placing these issues in a theoretical framework, Marianna Charountaki pioneers a new conceptual map within International Relations. An interdisciplinary study that provides a fresh new perspective, this book will be of particular interest to scholars of International Relations, Politics, Foreign Policy, Kurdish and Middle East Studies, The New 3Rs: Relating, Representing, and Reasoning Robert R. Carkhuff Ph. D. 2016-02-12 In the 20th century, if you could read, write, and speak the Old 3Rs of Reading, ‘Riting, and ‘Rithmetic, you had the basic skills you needed. You had the skills for "learning." In the 21st Century, you need more. You need skills for "thinking." Learning what other people have done is still important but it is not enough. You need to be able to "innovate" and "generate" new ways of doing things. It is new ideas that are the basis of competitive advantage in the 21st century marketplace. It is new ideas that give birth to new businesses and new opportunities. We call these innovative thinking skills-The New 3Rs: Relating, Representing, and Reasoning. These tools can empower you to generate your own changeable destinies. Treacherous Alliance Trita Parsi 2007-10-01 This award-winning study traces the shifting relations between Israel, Iran, and the U.S. since 1948—including secret alliances and treacherous acts. Vitriolic exchanges between the leaders of Iran and Israel are a disturbingly common feature of the news cycle. But the real roots of their enmity mystify Washington policymakers, leaving no promising pathways to stability. In Treacherous Alliance, U.S. foreign policy expert Trita Parsi untangles to complex and often duplicitous relationship among Israel, Iran, and the United States from 1948 to the present. In the process, he reveals shocking details of unsavory political manoeuvres that have undermined Middle Eastern peace and disrupted U.S. foreign policy initiatives in the region. Parsi draws on his unique access to senior American, Iranian, and Israeli decision makers to present behind-the-scenes revelations that will surprise even the most knowledgeable readers: Iran’s prime minister asks Israel to assassinat Khomeini; Israel reaches out to Saddam Hussein after the Gulf War; the United States foils Iran’s plan to withdraw support from Hamas and Hezbollah; and more. Treacherous Alliance not only revises our understanding of the recent past, it also spells out a course for the future. An Arthur Ross Book Award Silver Medal Winner A Choice Magazine Outstanding Academic Title Late Bloomer Carol Tyler 2005-01-01 Carol Tyler has been a professional (and highly acclaimed) cartoonist for over 20 years, appearing in such venues as Weirdo, Wimmen’s Comix, and Drawn & Quarterly magazine. But over the years her status as a working mother has drastically curtailed her ability to set aside time for her cartooning. Thus each rare new story from her pen has been greeted with hurrahs as she should be, because she’s one of the most skillful, caustic, and emphatic cartoon storytellers of her generation. This new book presents the biggest, richest and most delightful collection of Tyler’s work ever seen. Late Bloomer contains a single roll of the dice-obamas-diplomacy-with-iran-trita-parsi story of American and Iranian negotiations during Obama’s early years as president, the calculations behind the two nations’ dealings, and the real reasons for their current stalemate. Contrary to prevailing opinion, Parsi contends that diplomacy has not been fully tried. For various reasons, Obama’s diplomacy ended up being a single roll of the dice. It had to work either immediately—or not at all. Persistence and perseverance are keys to any negotiation. Neither Iran nor the U.S. had them in 2009. Chinese Silks Juanjuan Chen 2012 “Chinese Edition Edited by Huang Nengfu and Zhao Feng.” The Working Woman’s Pregnancy Book Marjorie Greenfield 2008 This guide deals with the pregnancy issues especially the concerns of women who are employed outside the home during their pregnancies. The Wealth of Networks Yochai Benkler 2006-01-01 Describes how patterns of information, knowledge, and cultural production are changing. The author shows that the way information and knowledge are made available can either limit or enlarge the ways people create and express themselves. He describes the range of legal and policy choices that confront. Losing an Enemy Trita Parsi 2017-08-01 The definitive book on President Obama’s historic nuclear deal with Iran from the U.S. foreign policy expert and acclaimed author of Treacherous Alliance. In Losing an Enemy, Middle East policy expert Trita Parsi examines President Obama’s strategy toward Iran’s nuclear program and reveals how the agreement of 2015 broke the persistent stalemate in negotiations that had blocked earlier efforts. The Joint Comprehensive Plan of Action, commonly known as the Iran nuclear deal, accomplished two major feats in one stroke: it averted the threat of war with Iran and prevented the possibility of an Iranian nuclear bomb. Parsi advised the Obama White House throughout the talks and had access to decision-makers and diplomats on the U.S. and Iranian sides alike. With his unique insight, he examines every facet of a triumph that could become as important and consequential as Nixon’s rapprochement with China. Drawing from more than seventy-five in-depth interviews with key decision-makers, including Iran’s Foreign Minister Javad Zarif and U.S. Secretary of State John Kerry, this is the first authoritative account of President Obama’s signature foreign policy achievement. “A detailed and gripping account of the 22 months of negotiations over Iran’s nuclear program that resulted in the 2015 deal.”—John Waterbury, Foreign Affairs The Obama Doctrine Colin Dueck 2015-04-01 By mid-2015, the Obama presidency will be entering its final stages, and the race among the successors in both parties will be well underway. And while experts have already formed a provisional understanding of the Obama administration’s foreign policy goals, the shape of the “Obama Doctrine” is finally coming into full view. It has been consistently visible since Obama was inaugurated in 2009, but recent events in the Middle East, Eastern Europe, and the Far East have led an increasingly large number of foreign policy experts to conclude that caution has transformed into weakness. In The Obama Doctrine, Colin Dueck analyzes and explains what the Obama Doctrine in foreign policy actually is, and maps out the competing visions on offer from the Republican Party. Dueck, a leading scholar of US foreign policy, contends it is now becoming clear that Obama’s policy of international retreatment is in large part a function of his presidency’s domestic policy goals. There have been some successes in the approach, but there have also been costs. For instance, much of the word no longer trusts the US to exert its will in international politics, and America’s adversaries overseas have asserted themselves with increasing frequency. The Republican Party will target these perceived weaknesses in the 2016 presidential campaign and develop competing counter-doctrines in the process. Dueck explains that while within the Republican Party, there are two basic impulses vying with each other: neo-isolationism and forceful internationalism. Dueck subdivides each impulse into the specific agenda of the various factions within the party: Tea Party nationalism, neoconservatism, conservative internationalism, and neo-isolationism. He favors a realistic but forceful US internationalism, and sees the willingness to disengage from the world by some elements of the party as dangerous. After dissecting the various strands, he articulates an agenda of forward-leaning American
realism—that is, a policy in which the US engages with the world and is willing to use threats of force for realist ends. The Obama Doctrine not only provides a sharp appraisal of foreign policy in the Obama era; it lays out an alternative approach to marshaling American power that will help shape the foreign policy debate in the run-up to the 2016 elections.

5/5 No Compromise Jeff Weaver 2015-01-29 5/5 No Compromise is an African centered perspective on solving the x factor in the human equation: 3/5 slave + x = 5/5 whole human beings, for Black Americans, specifically, and Black people world wide in general. The book written by Jeff Weaver, is inspired and driven by the divine wisdom of Almighty God, the African Forces (Lwa, Orisa, Oshoosum) / Holy Spirit and the ancestors. The premise of 5/5 No Compromise is to establish the fact that: 1) The United States Constitution codified the value of Black lives, in Article I. Section 2, Clause 3 (more commonly known as the “3/5 of a person.” A codification which has never been, expressly, amended or eradicated; and 2) in order for Black victims of the trans Atlantic slave trade, white supremacy and colonialism to establish their genuine human status they must embrace their own traditions, customs and culture, in an autonomous mutual respect based co-existence with their former slave masters and governors. Furthermore, in order to connect the various “splinters” of Black sub-cultures that exist in the US and globally, there must be an establishment of the one cultural thread that exist in common with the genetic heritage people in question. For Black Americans and Black people, worldwide, that common cultural thread is the drum pulse which originated in Africa. It is the one cultural element that is powerful and consistent, wherever Black people are heavily populated in the world. The author, Jeff Weaver calls that thread, "drum centered culture" and has identified it as the key element in sowing together the global cultural fabric that will restore Black people to a 5/5 autonomous culture of thriving human beings, with lives that matter.

Redesigning the American Lawn F. Herbert Bormann 2001-01-01 This new edition, which is being reissued in a more artistic format and with many additional illustrations, updates the original text and adds a chapter showing what progress has been made in the ecological management of landscapes over the past decade.---BOOK JACKET.

Women's Rights and Transatlantic Antislavery in the Era of Emancipation Kathryn Kish Sklar 2007-01-01 Approaching a wide range of transnational topics, the editors ask how conceptions of slavery & gendered society differed in the United States, France, Germany, & Britain.

What are Journalists For? Jay Rosen 1999-01-01 He traces the intellectual roots of the movement and shows how journalism can be made vital again by rethinking exactly what journalists are for.---Jacket.

Mark Rothko Christopher Rothko 2015-01-01 “Mark Rothko (1903-1970), world-renowned icon of Abstract Expressionism, is rediscovered in this wholly original examination of his art and life written by his son. Synthesizing rigorous critique with personal anecdotes, Christopher, the younger of the artist’s two children, offers a unique perspective on this modern master. Christopher Rothko draws on an intimate knowledge of the artworks to present a single-roll-of-the-dice-obamas-diplomacy-with-iran-trita-parsi
permeated all aspects of his politics and his life, there are more examples of his disingenuousness than might be expected (15 chapters). This review will probably be regarded as the most comprehensive (almost 400 footnotes) and accurate analysis of Obama’s presidency. This compendium will be enjoyed by all parties who are interested in politics and are seeking a thorough examination of Obama, his speeches and his policies, while reliving Obama’s most memorable moments. James McCormack is a veteran political science writer, who has accurately predicted Russia’s invasion of Ukraine, Obama’s pro-Islamist leanings during his presidency, the surprise presidential electoral victory of Donald Trump (predicted in early 2016), the increasing tensions between Saudi Arabia and Qatar, Iran’s increasing influence and deployment along Israel’s northern border, and the use of economic countermeasures directed at China which will be necessary to rein in North Korea’s nuclear program. McCormack’s political insights are unmatched, and his writings have guided presidential decision making on multiple occasions. The book ends with a new set of predictions, and includes a chapter that reveals the unsettling and shocking truth about what really happened during the Benghazi fiasco, and what Obama did that evening when he became unreachable during the eight hour al-Qaeda attack on the U.S. consulate. McCormack has solidified his reputation as one of America’s leading political prophets and analysts with the publication of Obama’s Books of Lies.

Flicking Boogers in the Wind

Jonathan Bricklin 2014-07-14

Jonathan Bricklin’s debut novel is astounding for its intellectual playfulness and verbal ingenuity, and for the exuberant voice of Willy Nilly, the young hero of this unexpected adventure. Telepathy, Tetherball, Turtles, Politics, Pirates, Lemonade, Cryogenics, Waterslides and Holograms are some of the ingredients in this madcap frenzy of metaphorical escapism. If Raymond Chandler and Tom Robbins adopted a baby it might grow up to write a book like this.

Hitler at Home

Despina Stratigakos 2015-09-29

A look at Adolf Hitler’s residences and their role in constructing and promoting the dictator’s private persona both within Germany and abroad. Adolf Hitler’s makeover from rabble-rouser to statesman coincided with a series of dramatic home renovations he undertook during the mid-1930s. This provocative book exposes the dictator’s preoccupation with his private persona, which was shaped by the aesthetic and ideological management of his domestic architecture. Hitler’s bachelor life stirred rumors, and the Nazi regime relied on the dictator’s three dwellings—the Old Chancellery in Berlin, his apartment in Munich, and the Berghof, his mountain home on the Obersalzberg—to foster the myth of the Führer as a morally upstanding and refined man. Author Despina Stratigakos also reveals the previously untold story of Hitler’s interior designer, Gerdy Troost, through newly discovered archival sources. At the height of the Third Reich, media outlets around the world showcased Hitler’s homes to audiences eager for behind-the-scenes stories. After the war, fascination with Hitler’s domestic life continued as soldiers and journalists searched his dwellings for insights into his psychology. The book’s rich illustrations, many previously unpublished, offer readers a rare glimpse into the decisions involved in the making of Hitler’s homes and into the sheer power of the propaganda that influenced how the world saw him. “Inarguably the powder-keg title of the year.”—Mitchell Owen, Architectural Digest “A fascinating read, which reminds us that in Nazi Germany the architectural and the political can never be disentangled. Like his own confessed image, Hitler’s buildings cannot be divorced from their odious political hinterland.”—Roger Moorhouse, Times
