**Mark Rothko**

Christopher Rothko 2015-01-01

"Mark Rothko (1903-1970), world-renowned icon of Abstract Expressionism, is rediscovered in this wholly original examination of his art and life written by his son. Synthesizing rigorous critique with personal anecdotes, Christopher, the younger of the artist's two children, offers a unique perspective on this modern master. Christopher Rothko draws on an intimate knowledge of the artworks to present eighteen essays that look closely at the paintings and explore the ways in which they foster a profound connection between viewer and artist through form, color, and scale. The prominent commissions for the Rothko Chapel in Houston and the Seagram Building murals in New York receive extended treatment, as do many of the lesser-known and underappreciated aspects of Rothko's oeuvre, including reassessments of his late dark canvases and his formidable body of works on paper. The author also discusses the artist's writings of the 1930s and 1940s, the significance of music to the artist, and our enduring struggles with visual abstraction in the contemporary era. Finally, Christopher Rothko writes movingly about his role as the artist's son, his commonalities with his father, and the terms of the relationship they forged during the writer's childhood."

Profiles the Jewish-American baseball player who, in 1934, risked his chance to beat Babe Ruth's home run record by sitting out a game on Yom Kippur, and describes his impact on Jewish-American history.

**Gaugin, Cézanne, Matisse**

Joseph J. Rishel 2012

A trio of masterpieces by Gauguin, Cézanne, and Matisse are joined by works by other major artists in this exploration of the enduring vitality of the theme of Arcadia. Proust, Benjamin Taylor 2015-01-01

An arresting new study of the life, times, and achievement of one of the most influential writers of the twentieth century "Taylor's endeavor is not to explain the life by the novel or the novel by the life but to show how different events, different emotional upheavals, fired Proust's imagination and, albeit sometimes completely transformed, appeared in his work. The result is a very subtle, thought-provoking book."--Anka Muhlstein, author of Balzac's Omelette and Monsieur Proust's Library

Marcel Proust came into his own as a novelist comparatively late in life, yet only Shakespeare, Balzac, Dickens, Tolstoy, and Dostoyevsky were his equals when it came to creating characters as memorably human. As biographer Benjamin Taylor suggests, Proust was a literary lightweight before writing his multivolume masterpiece In Search of Lost Time, but following a series of momentous historical and personal events, he became--against all expectations--one of the greatest writers of his, and indeed any, era. This insightful, beautifully written biography examines Proust's artistic struggles--the "search" of the subtitle--and stunning metamorphosis in the context of his times. Taylor provides an in-depth study of the author's life while exploring how Proust's personal correspondence and published works were greatly informed by his mother's Judaism, his homosexuality, and such dramatic events as the Dreyfus Affair and, above all, World War I. As Taylor writes in his prologue, "Proust's Search is the most encyclopedic of novels, encompassing the essentials of human nature. . . . His account, running from the early years of the Third Republic to the aftermath of World War I, becomes the inclusive story of all lives, a colossal mimesis. To read the entire Search is to find oneself transfixed and victorious at journey's end, at home in time and in eternity too."

A Single Roll of the Dice

Trita Parsi 2012-01-24

Have the diplomatic efforts of the Obama administration toward Iran failed? Was the Bush administration's emphasis on military intervention, refusal to negotiate, and pursuit of regime change a better approach? How can the United States best address the ongoing turmoil in Tehran? This book provides a definitive and comprehensive analysis of the Obama administration's early diplomatic outreach to Iran and discusses the best way to move toward more positive relations between the two discordant states. Trita Parsi, a Middle East foreign policy expert with extensive Capitol Hill and United Nations experience, interviewed 70 high-ranking officials from the U.S., Iran, Europe, Israel, Saudi Arabia, Turkey, and Brazil—including the top American and Iranian negotiators—for this book. Parsi uncovers the previously unknown story of American and Iranian negotiations during Obama's early years as president, the calculations behind the two nations' dealings, and the real reasons for their current stalemate. Contrary to prevailing opinion, Parsi contends that diplomacy has not been fully tried. For various reasons, Obama's diplomacy ended up being a single roll of the dice. It had to work either immediately—or not at all. Persistence and perseverance are keys to any negotiation. Neither Iran nor the U.S. had them in 2009.

The New 3rs: Relating, Representing, and Reasoning

Robert R. Carkhuff Ph. D. 2016-02-12

In the 21st Century, if you could read, write, and perform basic computations (The Old 3rs of Reading, 'Riting, and 'Rithmetic), you had the basic skills you needed. You had the skills for "learning." In the 21st Century, you need more. You need skills for "thinking." Learning what other people have done is still important but it is not enough. You need to be able to "innovate" and "generate" new ways of doing things. It is new ideas that are the basis of competitive advantage in the 21st century marketplace. It is new ideas that give birth to new businesses and new opportunities. We call these innovative thinking skills-The New 3rs: Relating, Representing, and Reasoning.

They will empower you to generate your own changeable destinies.

According to Our Hearts

Angela Onwuachi-Willig 2013-06-18

DIV This landmark book looks at what it means to be a multiracial couple in the United States today. According to Our Hearts begins with a look back at a 1925 case in which a two-month marriage ends with a man suing his wife for misrepresentation of her race, and shows how our society has yet to come to terms with interracial marriage. Angela Onwuachi-Willig examines the issue by drawing from a variety of sources, including her own experiences. She argues that housing law, family law, and employment law fail, in important ways, to protect multiracial couples. In a society in which marriage is used to give, withhold, and take away status—in the workplace and elsewhere—she says interracial couples are at a disadvantage, which is only exacerbated by current law.  

Obama's Book of Lies

James McCormack 2017-09-13

As Obama fades into the history books, and other political forces and agendas move forward in support or in opposition to Obama's far-left and pro-Islamic political agenda, the collective memory of the American public and his supporters around the world will tend to remember the positive highlights of Obama's speeches and policies. Obama's Book of Lies is a counterbalance to the favorable image of Obama that will be portrayed by the media and his advocates. Since Obama's misrepresentations and misinformation permeated all aspects of his politics and his life, there are more examples of his disingenuousness than might be expected (15 chapters). This review will probably be regarded as the most comprehensive (almost 400 footnotes) and accurate analysis of Obama's presidency. This compendium will be enjoyed by all parties who are interested in politics and are seeking a thorough examination of Obama, his speeches and his policies, while reliving Obama's most memorable
moments. James McCormack is a veteran political science writer, who has accurately predicted Russia’s invasion of Ukraine. Obama's pro-Islamist leanings during his presidency, the surprise presidential electoral victory of Donald Trump (predicted in early 2016), the increasing tensions between Saudi Arabia and Qatar, Iran’s increasing influence and Deployment along Israel’s northern border, and the use of economic countermeasures directed at China which will be necessary to rein in North Korea’s nuclear program. McCormack’s political insights are unmatched, and his writings have guided presidential decision making on multiple occasions. The book ends with a new set of predictions, and includes a chapter that reveals the unsettling and shocking truth about what really happened during the Benghazi fiasco, and what Obama did that evening when he became unreachable during the eight hour al-Qaeda attack on the U.S. consulate. McCormack has solidified his reputation as one of America’s leading political prophets and analysts with the publication of Obama’s Books of Lies.

Flicking Boogers in the Wind Jonathan Bricklin 2014-07-14 Jonathan Bricklin's debut novel is astounding for its intellectual playfulness and verbal ingenuity, and for the exuberant voice of Willy Nilly, the young hero of this unexpected adventure. Telepathy, Tetherball, Turtles, Politics, Pirates, Lemonade, Cyborgics, Waterslides and Holograms are some of the ingredients in this madcap frenzy of metaphorical escapism. If Raymond Chandler and Tom Robbins adopted a baby it might grow up to write a book like this.

The Obama Doctrine Colin Dueck 2015-04-01 By mid-2015, the Obama presidency will be entering its final stages, and the race among the successors in both parties will be well underway. And while experts have already formed a provisional understanding of the Obama administration’s foreign policy goals, the shape of the “Obama Doctrine” is finally coming into full view. The author, Jeff Weaver, calls that thread, “the centered culture” and has identified it as the key element in sowing together the global cultural fabric that will restore Black people to a 5/5 autonomous culture of thriving human beings, with lives that matter.

Light on the interconnected worlds of European and Russian art at the turn of the century. Morozov always intended to leave his art to the state—but with the Revolution in 1917 he found himself appointed "assistant curator" to his own collection. He fled Russia and his collection was later divided between Moscow and St. Petersburg, only to languish in storage for decades. Morozov: The Story of a Family and a Lost Collection is being published to coincide with "The Morozov Collection" exhibition at the Fondation Louis Vuitton, Paris, in October 2020.

Losing an Enemy Trita Parsi 2017-08-01 The definitive book on President Obama’s historic nuclear deal with Iran from the U.S. foreign policy expert and acclaimed author of Treacherous Alliance. In Losing an Enemy, Middle East policy expert Trita Parsi examines President Obama’s strategy toward Iran’s nuclear program and reveals how the historic agreement of 2015 broke the persistent stalemate in negotiations that had blocked earlier efforts. The Joint Comprehensive Plan of Action, commonly known as the Iran nuclear deal, accomplished two major feats in one stroke: it averted the threat of war with Iran and prevented the possibility of an Iranian nuclear bomb. Parsi advised the Obama White House throughout the talks and had access to key administration and Israeli officials. With his unique insight, he examines every facet of a triumph that could become as important and consequential as Nixon’s rapprochement with China. Drawing from more than seventy-five in-depth interviews with key decision-makers, including Iran’s Foreign Minister Javad Zarif and U.S. Secretary of State John Kerry, this is the first authoritative account of President Obama’s signature foreign policy achievement. “A detailed and gripping account of the 22 months of negotiations over Iran’s nuclear program that resulted in the 2015 deal.”–John Waterbury, Foreign Affairs

5/5 No Compromise Jeff Weaver 2015-01-29 5/5 No Compromise is an African centered perspective on solving the x factor in the human equation: 3/5 slave + x = 5/5 whole human beings, for Black Americans, specifically, and Black people world wide in general. The book written by Jeff Weaver, is inspired and driven by the divine wisdom of Almighty God, the African Forces (Lwa, Orisa, Obosum) / Holy Spirit and the ancestors. The premise of 5/5 No Compromise is to establish the fact that: 1) The United States Constitution codified the value of Black lives, in Article I, Section 2, Chapter 3 (more popularly known as the “3/5 Clause”) as “3/5 of a person.” A codification which has never been, expressly, amended or eradicated; and 2) in order for Black victims of the trans Atlantic slave trade, white supremacy and colonialism to establish their genuine human status they must embrace their own traditions, customs and culture, in an autonomous mutual respect based co-existence with their former slave masters and governors. Furthermore, in order to connect the various “splinters” of Black sub-cultures that exist in the US and globally, there must be an establishment of the one cultural thread that exist in common with the genetic heredity of the people in question. For Black Americans and Black people, worldwide, that common cultural thread is the drum pulse which originated in Africa. It is the one cultural element that is powerful and consistent, wherever Black people are heavily populated in the world. The author, Jeff Weaver calls that thread, “the centered culture” and has identified it as the key element in sowing together the global cultural fabric that will restore Black people to a 5/5 autonomous culture of thriving human beings, with lives that matter.

The Aesthetics Iván Brunetti 2013-05-28 Presents a collection of the author’s works, including concept art and finished products.
increasingly large number of foreign policy experts to conclude that caution has transformed into weakness. In The Obama Doctrine, Colin Dueck analyzes and explains what The Obama Doctrine in foreign policy actually is, and maps out the competing visions on offer from the Republican Party. Dueck, a leading scholar of US foreign policy, contends it is now becoming clear that Obama’s policy of international retrenchment is in large part a function of his emphasis on achieving domestic policy goals. There have been some successes in the approach, but there have also been costs. For instance, much of the world no longer trusts the US to exert its will in international politics, and America’s adversaries overseas have asserted themselves with increasing frequency. The Republican Party will target these perceived weaknesses in the 2016 presidential campaign and develop competing counter-doctrines in the process. Dueck explains that within the Republican Party, there are two basic impulses vying with each other: neo-isolationism and forceful internationalism. Dueck subdivides each impulse into the specific agenda of the various factions within the party: Tea Party nationalism, neoconservatism, conservative internationalism, and neo-isolationism. He favors a realistic but forceful US internationalism, and sees the willingness to disengage from the world by some other countries as a dangerous example of what is possible. Exploding Happiness Sissela Bok 2010-01-01 Examines the nature of happiness, discussing how it has been treated in philosophy and religion and by the modern disciplines of psychology, economics, and political theory. Happiness is the result of individual and social factors, but how well the happiness of an individual is perceived in the context of modern life? The Neighborhoods of Brooklyn Kenneth T. Jackson 2004 Brooklyn—in fared for its bridge, its long-departed Dodgers, its Botanic Garden, and its accent—is the most populous borough in New York City and arguably the most colorful. Its many neighborhoods boast diverse and shifting ethnic enclaves, an abundance of architectural styles, and an amazing number of churches and festivals. Generously illustrated with both historical and contemporary photographs, The Neighborhoods of Brooklyn is an indispensable and entertaining guide. Begun as an offshoot of The Encyclopedia of New York City, which provides much of the historical background, the book takes its character from the neighborhoods themselves, as detailed by the Citizens Committee for New York City and Brooklyn Borough Historian John Manbeck. Taking us on a tour of some 90 neighborhoods (including ghost neighborhoods that no longer exist), the book identifies the boundaries of each one through a neighborhood profile and a street map. The shifting relations between Israel, Iran, and the U.S. since 1948—including secret alliances and treacherous acts. Vitiating exchanges between the leaders of Iran and Israel are a disturbingly common feature of the news cycle. But the real roots of their enmity mystify Washington policymakers, leaving no promising pathways to stability. In Treacherous Alliance, U.S. foreign policy expert Trita Parsi unfurls the complex and often duplicitous relationship among Israel, Iran, and the United States from 1948 to the present. In the process, he reveals shocking details of unsavory political maneuverings that have undermined Middle Eastern peace and disrupted U.S. foreign policy initiatives in the region. Parsi draws on his unique access to senior American, Iranian, and Israeli decision makers to present behind-the-scenes revelations that will surprise even the most knowledgeable readers: Iran’s prime minister asks Israel to assassinate Khomeini; Israel reaches out to Saddam Hussein after the Gulf War; the United States foils Iran’s plan to withdraw support from Hamas and Hezbollah; and more. Treacherous Alliance not only revises our understanding of the recent past, it also spells out a course for the future. Contemporary Concert Diplomacy Jung Karsten 2016-10-24 Two centuries after the Congress of Vienna formed the ‘Concert of Europe’, the great powers of the world once again assembled in Austria’s capital in June 2015: This time they were negotiating an end to the nuclear standoff with Iran. These so-called EU+3 negotiations signify a broader trend: From Iran to North Korea, from the former Yugoslavia to Israel and Palestine, the great powers increasingly opt for exclusive and informal ad hoc formats in crisis management. Though lacking in aristocratic grandeur and festive surroundings, these context-specific, self-selected forums for policy-coordination in many ways resemble the nineteenth-century ‘Concert of Europe’. Why do the key actors in the contemporary international system consciously shun the standards of accountability and legitimacy represented by the post-war liberal institutional order? Why are they in favor of a more casual form of diplomacy that is mediated by an inclusive membership, strict rules of procedure, and standard diplomatic standards of transparency? This study rationalizes the popularity of contemporary Concert Diplomacy as a means for managing conflict in the post-Cold War world. Drawing on a system-level analysis as well as four extensive case studies (the Yugoslav Contact Group, the Middle East Quartet, the Six Party Talks with North Korea, and the EU+3 negotiations with Iran), it examines and explains the emergence, operation, and outcomes of Contemporary Concert Diplomacy. In doing so, it sheds light on a highly significant – but vastly understudied – instrument of crisis management. It thus proves valuable to both, the student and practitioner of international affairs.

Iran and Turkey Marianna Charountaki 2018-03-30 The foreign policies of Turkey and Iran seem increasingly to dictate the course of events in the Middle East. More recently, and especially following the Syrian crisis, the spotlight has turned to these states’ dynamic re-entry onto the political stage, revealing them as key players with an international role in efforts towards the balance of power across the region. This book traces the major determinants of Turkish and Iranian foreign policies and their influence on events in the Middle East. Based on an examination of these states’ policies and policies since 1979, and using material gathered from interviews with leading political figures from Turkey, Iran and the Kurdistan Region of Iraq, Marianna Charountaki offers fresh insights into how we understand the contemporary global order. Of particular importance, this book shows, is the effect of both external and internal factors on foreign policy and how the interaction between state and non-state actors informs political decisions. In placing these issues in a theoretical framework, Marianna Charountaki pioneers a new conceptual map within international Relations. An interdisciplinary study that provides a fresh new perspective, this book will be of particular interest to scholars of international relations, politics, international law, and Mideast Studies.

I’ll Never Tell Harry G. Schmitt 2016-08-20 A humorous, yet poignant social historic narrative of a priest grappling with the changing mores of both the Catholic Church and contemporary life. Father Harry Schmitt encountered movie stars as well as cardinals and popes. But his real ministry centered around common people he met through his radio and television shows over the span of 50 years.

The Wealth of Networks Yochai Benkler 2006-01-01 Describes how patterns of information, knowledge, and cultural production are changing. The author shows that the way information and knowledge are made available can either limit or enlarge the ways people create and express themselves. He describes the range of legal and policy choices that confront.

Setting these legal questions in their historical and diplomatic context, this book aims to clarify how the relevant sources of international law - including primarily the 1968 Nuclear Non-proliferation Treaty and IAEA treaty law - should be properly applied in the context of the Iran case. It provides an instructional case study of the application of these sources of international law, the lessons which can be applied to inform both the on-going legal and diplomatic dynamics surrounding the Iran nuclear dispute itself, as well as similar future cases. Some questions raised regarding the watershed diplomatic accord reached between Iran and Western states in July, 2015, known as the Joint Comprehensive Program of Action. The answers will be of interests to diplomats and academics, as well as to anyone who is interested in understanding international law's application to this sensitive dispute in international relations.

Mexico Jo Tuckman 2012-07-03 In 2000, Mexico's long invincible Institutional Revolutionary Party (PRI) lost the presidency for the first time since the foundation of the Institutional Revolutionary Party (PRI). The ensuing changes—after 71 years of PRI dominance—was hailed as the beginning of a new era of hope for Mexico. Yet the promises of the PAN victory were not consolidated. In this vivid account of Mexico's recent history, a journalist with extensive reporting experience investigates the nation's young democracy, its shortcomings and achievements, and why the PRI is favored to retake the presidency in 2012. Jo Tuckman reports on the murky, terrifying world of Mexico's drug wars, the counterproductive government strategy, and the impact of U.S. policies. She describes the reluctance and inability of politicians to seriously tackle rampant corruption, environmental degradation, pervasive poverty, and acute inequality. To make matters worse, the influence of non-elected interest groups has grown and public trust in almost all institutions—including the Catholic church—is fading. The pressure valve once provided by emigration is also closing. Even so, there are positive signs: the current administration has not easily controlled, and small but determined citizen groups notch up significant, if partial, victories for accountability. While Mexico faces complex challenges that can never seem insurmountable, Tuckman concludes, the unflagging vitality and imagination of many in Mexico inspire hope for a better future.

Electoral Realignments David R. Mayhew 2008-10-01 The study of electoral realignments is one of the most influential and intellectually stimulating enterprises undertaken by American political scientists. Realignment theory has been seen as a science able to predict changes, and generations of students, journalists, pundits, and political scientists have been trained to be on the lookout for "signs" of new electoral realignments. Now a major political scientist argues that the essential claims of realignment theory are wrong—that American elections, parties, and policymaking are not (and were never) reconfigured according to the realignment calendar. David Mayhew examines fifteen key empirical claims of realignment theory in detail and shows us why each in turn does not hold up under scrutiny. It is time, he insists, to open the field to new ideas. We might, for example, adopt a more nominalistic, skeptical way of thinking about American elections that highlights contingency, short-term election strategies, and valence issues. Or we might examine such broad topics as bellicosity in early American history, or racial questions in much of our electoral history. But we must move on from an old orthodoxy and failed model of illumination.

Persistence and perseverance are keys to any negotiation. Neither Iran nor the U.S. had them in 2009. Iran, Israel, and the United States Ofira Seliktar 2018-06-20 This book analyzes the process of evaluating Iran’s nuclear project and efforts to roll it back, resulting in the 2015 nuclear agreement. To highlight the technological problems and the politicization involved in the process, this study uses real-time comparison of developments in Iran and the perception of Israel in the United States.
