left of the Preston Group, a convoy of settlers that vanished in the winter of 1856. It's clear that something horrific happened here all those years ago, but Cooke can only find a few tantalising clues. 1856: as early snows descend, the eclectic group of settlers that form the Preston wagon train are forced to dig in. Miles from any kind of civilisation, they see the group of Native Americans also trapped nearby as their greatest threat. But they soon realise what true danger is. When a woman is found murdered, one of the Indian party struggles wounded back to camp, whispering of unspeakable evil as he dies.

a-thousand-suns-alex-scarrow

United by fear, the settlers and the Indians must protect themselves against whatever is lurking in the woods. But as suspicion and panic grow, perhaps their own terror will be just as dangerous. Or maybe, whatever's out there is worse than anything they can imagine. Back in the present day, as Cooke unravels the mystery, he must question if the horror he is uncovering was in fact only the start of something much worse...

2033-The Century After Georg

Woodman, Dr.MSc. & PhD

What if things went differently in

the 1930s and '40s, giving victory to Germany and Japan?

In that scenario, what would the world be like a century later?

This story of altered history

begins in 2033, when Alois

Adolf Hitler III, the grandson of

Adolph Hitler, is reminiscing on

the balcony of the

Reichskanzlei (chancellery), on

how his grandfather

accomplished victory in World

War II and about everything that

has happened since. Read how

history was rewritten and how

the third generation of The

Third Reich is doing. This

stunning story connects history

with reality and fiction, showing

a possible future that could

have happened. In reality: "Nazi

Germany made increasingly aggressive territorial demands, threatening war if they were not met. It seized Austria and Czechoslovakia in 1938 and 1939. Hitler made a pact with Joseph Stalin and invaded Poland in September 1939, launching World War II in Europe. “In alliance with Italy and smaller Axis powers, Germany conquered most of Europe by 1940 and threatened Great Britain.” In fiction: What changed to allow Hitler to win the war? Find out in 2033 – The Century After. “As our wheel-of-history shows, it could have spun in another direction just as easily.”

Parentology Dalton Conley

2014-03-18 An award-winning scientist offers his unorthodox approach to childrearing: “Parentology is brilliant, jaw-droppingly funny, and full of wisdom...bound to change your thinking about parenting and its conventions” (Amy Chua, author of *Battle Hymn of the Tiger Mother*). If you’re like many parents, you might ask family and friends for advice when faced with important choices about how to raise your kids. You might turn to parenting books or simply rely on timeworn religious or cultural traditions. But when Dalton Conley, a dual-doctorate scientist and full-blown nerd, needed childrearing advice, he

turned to scientific research to make the big decisions. In Parentology, Conley hilariously reports the results of those experiments, from bribing his kids to do math (since studies show conditional cash transfers improved educational and health outcomes for kids) to teaching them impulse control by giving them weird names (because evidence shows kids with unique names learn not to react when their peers tease them) to getting a vasectomy (because fewer kids in a family mean smarter kids). Conley encourages parents to draw on the latest data to rear children, if only because that level of engagement with kids will

produce solid and happy ones. Ultimately these experiments are very loving, and the outcomes are redemptive—even when Conley’s sassy kids show him the limits of his profession. Parentology teaches you everything you need to know about the latest literature on parenting—with lessons that go down easy. You’ll be laughing and learning at the same time.

TimeRiders: The Eternal War

Alex Scarrow 2013-05-21

Continuing the heart-pounding, time-bending action of the TimeRiders series, The Eternal War brings readers back to a pivotal time period in American history: the Civil War. Only this alternate history is one where a young Abraham Lincoln has somehow followed Liam into the present from 1831, and the

entire course of American history has changed. If the TimeRiders can't return Lincoln to the past, the country could be trapped in a dangerous state of never-ending civil war. Can Maddy persuade two colonels on either side of no man's land to cease fire long enough to save the future?

The Lisbon Crossing Tom Gabbay 2009-10-13 Summer 1940. With Europe in the iron grip of Hitler's war machine, stuntman Jack Teller arrives in neutral Lisbon on the arm of international screen legend Lili Sterne. The German-born actress has given Jack the job of finding her childhood friend, Eva Lange, who escaped Berlin

one step ahead of the Nazi terror. But he's not the first to come looking for Eva. The man who preceded him—top Hollywood detective Eddie Grimes—ended up dead . . . on the night he found Eva. Following leads that take him from the glittering nightclubs of the Estoril coast—where he rubs elbows with the likes of Edward, Duke of Windsor, and his scheming wife, Wallis Simpson—into Lisbon's dank and seedy backstreets, Jack searches for answers among the deceptions and lies of the dangerous city. A shattering discovery along the way takes him to the perilous boulevards of occupied Paris and propels

him into the heart of a nightmare, where his actions could change the course of the war.

The Eagle Has Landed Jack Higgins 1998 THE EAGLE HAS LANDED is probably the greatest World War II story ever written. Operation Eagle was to be the most daring enemy mission of the entire war. Himmler planned to kidnap Churchill on British soil in November 1943. But in that remote corner of Norfolk, an elite unit is also put together to begin the countdown to the invasion. A brilliant adventure in which the reader' sympathies are enlisted as much for the German heroes as for the

English defenders.

DAILY TELEGRAPH It seems to be a very normal Monday morning. But in the space of

only a few days, the world's oil supplies have been severed and at a horrifying pace things begin to unravel everywhere. And this is no natural disaster: someone is behind this. Jenny is stuck in Manchester, fighting desperately against the rising chaos to get back to London, where her children are marooned as events begin to spiral out of control: riots, raging fires, looting, rape and murder. In the space of a week, London is transformed into a lawless and anarchic vision of hell. Jenny's estranged husband, oil engineer Andy Sutherland, is stranded in Iraq with a company of British soldiers, desperate to find a way home to his family,

trapped as transport links and the very infrastructure of daily life begin to collapse around him. And against all this, a mysterious man is tracking Andy's family. He'll silence anyone who might be able to reveal the identities of those behind this global disaster. It

seems that the same people who now have a stranglehold on the future of civilisation have flexed their muscles before, at other significant tipping points in history, and they are prepared to do anything to keep their secret - and their power - safe.
