2033-The Century After Georg Woodman, Dr.MSc. & PhD 2017-10-18 What if things went differently in the 1930s and '40s, giving victory to Germany and Japan? In that scenario, what would the world be like a century later? This story of altered history begins in 2033, when Alois Adolf Hitler III, the grandson of Adolph Hitler, is reminiscing on the balcony of the Reichskanzlei (chancellery), on how his grandfather accomplished victory in World War II and about everything that has happened since. Read how history was rewritten and how the third generation of The Third Reich is doing. This stunning story connects history with reality and fiction, showing a possible future that could have happened. In reality: “Nazi Germany made increasingly aggressive territorial demands, threatening war if they were not met. It seized Austria and Czechoslovakia in 1938 and 1939. Hitler made a pact with Joseph Stalin and invaded Poland in September 1939, launching World War II in Europe. “In alliance with Italy and smaller Axis powers, Germany conquered most of Europe by 1940 and threatened Great Britain.” In fiction: What changed to allow Hitler to win the war? Find out in 2033 – The Century After. “As our wheel-of-history shows, it could have spun in another direction just as easily.”
