The Nyko-Larsen Attack: Move by Move Cyrus Lakdawala This series provides an ideal introduction for chess students to the opening that revolutionized the endgame, showing how to answer probing questions throughout the book, the Move by Move format greatly encourages the learning and practicing of vital skills as well as the traditional assimilation of opening knowledge. Carefully selected questions and answers are designed to keep you actively involved and allow you to monitor your progress. By using a forward style, the move by move principle, you can at the same time improve your general chess skills and knowledge. The Nyko-Larsen Attack is an ideal opening choice for players keen to avoid mainline theory but still wanting to set their opponents problems from the outset. In the first part of the book, Larsen, White begins b3 and then develops in hypermodern fashion - planning to undermine any central structures Black dares to erect. A key attraction of the Nyko-Larsen Attack is that you can steer the game into either sharp play or elaborate strategic battles. In this book, international Master Cyrus Lakdawala invites you to join him in examining the many different variations of the Nyko-Larsen. Larsen's study of chess and his training methods and tournament options for White, provides answers to all the key questions and tells you everything you need to know about playing the Nyko-Larsen Attack.
