Our desire is to open the eyes of students that studying basic accounting is both easy and rewarding. Presentations and discussions of various accounting concepts and frameworks are simplified to provide the reader with an initial working knowledge on the different steps of the accounting cycle for a service business. Emphasis is given to do the problems and complete their homework diminishes with each passing hour. Often times this results in students struggling to complete their homework on their own. Even worse, the frustration can lead to students quitting on the material.
