The sculptures, murals, portable paintings, and manuscripts found in the caves represent every aspect of Buddhism, both doctrinally and artistically. From its earliest construction to the present, Dunhuang has been visualized in many ways by the architects, builders, and artists who made the caves to twentieth-century explorers and photographers, conservators, and contemporary artists. This book explores ways in which Dunhuang has been visualized from its creation to contemporary times. Essays by leading scholars from the U.S., Europe, and China cover a wide range of topics, from the architecture of cave temples to painting and sculptural programs, Buddhist ritual practices, expeditionary photography, conservation, and the contributions of Dunhuang to art history"--

**Art History: A Very Short Introduction** Dana Arnold 2004-01-22 This clear and concise new introduction examines all the major debates and issues using a wide range of well-known examples. It discusses the challenge of using verbal and written language to analyse a visual form. Dana Arnold also examines the many different ways of writing about art, and the changing boundaries of the subject of art history. Topics covered include the canon of Art History, the role of the gallery, 'blockbuster' exhibitions, the emergence of social histories of art (Feminist Art History or Queer Art History, for example), the impact of photography, and the development of Art History using artefacts such as the altarpiece, the portrait, or pornography, to explore social and cultural issues such as consumption, taste, religion, and politics. Importantly, this book explains how the traditional emphasis on periods and styles originates in western art production and can obscure other critical approaches, as well as art from non western cultures. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

*Chinese Art and Dynastic Time* Wu Hung 2022-05-03 A sweeping look at Chinese art across the millennia that upends traditional perspectives and offers new pathways for art history Throughout Chinese history, dynastic time—the organization of history through the lens of successive dynasties—has been the dominant mode

of narrating the story of Chinese art, even though there has been little examination of this concept in discourse and practice until now. Chinese Art and Dynastic Time uncovers how the development of Chinese art was described in its original cultural, sociopolitical, and artistic contexts, and how these narratives were interwoven with contemporaneous artistic creation. In doing so, leading art historian Wu Hung opens up new pathways for the consideration of not only Chinese art, but also the whole of art history. Wu Hung brings together ten case studies, ranging from the third millennium BCE to the early twentieth century CE, and spanning ritual and religious art, painting, sculpture, the built environment, and popular art in order to examine the deep-rooted patterns in the historical conceptualization of Chinese art. Elucidating the changing notions of dynastic time in various contexts, he also challenges the preoccupation with this concept as the default mode in art historical writing. This critical investigation of dynastic time thus constitutes an essential foundation to pursue new narrative and interpretative frameworks in thinking about art history. Remarkable for the sweep and scope of its arguments and lucid style, Chinese Art and Dynastic Time probes the roots of the collective imagination in Chinese art and frees us from long-held perspectives on how this art should be understood. *Learning to Look* Joshua C. Taylor 2014-12-10 Sometimes seeing is more difficult for the student of art than believing. Taylor, in a book that has sold more than 300,000 copies since its original publication in 1957, has helped two generations of art students "learn to look." This handy guide to the visual arts is designed to provide a comprehensive view of art, moving from the analytic study of specific works to a consideration of broad principles and technical matters. Forty-four carefully selected illustrations afford an excellent sampling of the wide range of experience awaiting the explorer. The second edition of Learning to Look includes a new chapter on twentieth-century art. Taylor’s thoughtful discussion of pure forms and our responses to them gives the reader a few useful starting points for looking at art that does not reproduce nature and for understanding the distance between contemporary figurative art and reality.

*The Story of Art* Ernst Hans Gombrich 1995 "The Story of Art is one of the most famous and popular books on art ever published. For 45 years it has remained unrivalled as an introduction to the whole subject, from the earliest cave paintings to the experimental art of today. Readers of all ages and backgrounds throughout the world have found in Professor Gombrich a true master, who combines knowledge and wisdom with a unique gift for communicating directly his own deep love of the works of art he describes." "The Story of Art owes its lasting popularity to the directness and simplicity of the writing, and also the author's skill in presenting a clear narrative. He describes his aim as 'to bring some intelligible order into the wealth of names, periods and styles which crowd the pages of more ambitious works', and using his insight into the psychology of the visual arts, he makes us see the history of art as 'a continuous weaving and changing of traditions in which each work refers to the past and points to the future, a living chain that still links our own time with the Pyramid age'. In its new format, the 16th edition of this classic work is set to continue its triumphant progress for future generations and to remain the first choice for all newcomers to art."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. **Gardner's Art Through the Ages** Fred S. Kleiner 2000-07-10 In the mid 1920's a teacher at The School of the Art Institute of Chicago had a vision to provide students and instructors with a textbook that would introduce them to the artistic legacy of not only Europe, but of the entire globe. In 1926, Harcourt Brace and Company published that vision - ART THROUGH THE AGES. Since that time, Helen Gardner's vision has been the leader in educating students about the artistic legacy of the world. For the past 75 years, ART THROUGH THE AGES has defined the introductory art history course. The intention of this classic, in Helen Gardner's words, has been "to introduce the reader to certain phases of art, architecture, painting, sculpture, and the minor arts from the remote days of the glacial age in Europe, through successive civilizations of the Near East, Europe, America, and the Orient, to the twentieth century." Now, as we begin a new millennium, we do so with the eleventh edition. This text is more accessible and easier to read for students, but does not compromise the richness of the Gardner tradition.

**A Distant Mirror** Barbara W. Tuchman 1987-07-12 A “marvelous history”\* of medieval Europe, from the bubonic plague and the Papal Schism to the Hundred Years’ War, by the Pulitzer Prize–winning author of The Guns of August \*Lawrence Wright, author of The End of October, in The Wall Street Journal The fourteenth century reflects two contradictory images: on the one hand, a glittering age of crusades, cathedrals, and chivalry; on the other, a world plunged into chaos and spiritual agony. In this revelatory work, Barbara W. Tuchman examines not only the great rhythms of history but the grain and texture of domestic life: what childhood was like; what marriage meant; how money, taxes, and war dominated the lives of serf, noble, and clergy alike. Granting her subjects their loyalties, treacheries, and guilty passions, Tuchman re-creates the lives of proud cardinals, university scholars, grocers and clerks, saints and mystics, lawyers and mercenaries, and, dominating all, the knight—in all his valor and “furious follies,” a “terrible worm in an iron cocoon.” Praise for A Distant Mirror “Beautifully written, careful and thorough in its scholarship . . . What Ms. Tuchman does superbly is to tell how it was. . . . No one has ever done this better.”—The New York Review of Books “A beautiful, extraordinary book . . . Tuchman at the top of her powers . . . She has done nothing finer.”—The Wall Street Journal “Wise, witty, and wonderful . . . a great book, in a great historical tradition.”—Commentary

**The Birth of Venus** Sarah Dunant 2004-11-30 Alessandra Cecchi is not quite fifteen when her father, a prosperous cloth merchant, brings a young painter back from northern Europe to decorate the chapel walls in the family's Florentine palazzo. A child of the Renaissance, with a precocious mind and a talent for drawing, Alessandra is intoxicated by the painter's abilities. But their burgeoning relationship is interrupted when Alessandra's parents arrange her marriage to a wealthy, much older man. Meanwhile, Florence is changing, increasingly subject to the growing suppression imposed by the fundamentalist monk Savonarola, who is seizing religious and political control. Alessandra and her native city are caught between the Medici state, with its love of luxury, learning, and dazzling art, and the hellfire preaching and increasing violence of Savonarola's reactionary followers. Played out against this turbulent backdrop, Alessandra's married life is a misery, except for the surprising freedom it allows her to pursue her powerful attraction to the young painter and his art. The Birth of Venus is a tour de force, the first historical novel from one of Britain's most innovative writers of literary suspense. It brings alive the history of Florence at its most dramatic period, telling a compulsively absorbing story of love, art, religion, and power through the passionate voice of Alessandra, a heroine with the same vibrancy of spirit as her beloved city.

**Time and Presence in Art** Armin Bergmeier 2022-03-07 This volume explores the relationship between temporality and presence in medieval artworks from the third to the sixteenth centuries. It is the first extensive treatment of the interconnections between medieval artworks' varied presences and their ever-shifting places in time. The volume begins with reflections on the study of temporality and presence in medieval and early modern art history. A second section presents case studies delving into the different ways medieval artworks once created and transformed their original viewers' experience of the present. These range from late antique Constantinople, early Islamic Jerusalem and medieval Italy, to early modern Venice and the Low Countries. A final section explores how medieval artworks remain powerful and relevant today. This section includes case studies on reconstructing presence in medieval art through embodied experience of pilgrimage, art historical research and museum education. In doing so, the volume provides a first dialog between museum educators and art historians on the presence of medieval artifacts. It includes contributions by Hans Belting, Keith Moxey, Rika Burnham and others.

A Heavenly Craft Lilian Armstrong 2004 The combination of the woodcuta print method devised early in the fifteenth centurywith Johannes Gutenberg's revolutionary invention of printing with moveable type resulted in a powerful explosion of information and ideas. For the first time, it was possible to use a mechanized system to print identical copies of books containing both text and images. Featured in A Heavenly Craft are the earliest surviving examples of these books from throughout Western Europe, all printed within the first century after Gutenberg's invention. The contributors bring these rare books to life, exploring the evolution of the technique, composition, and coloration of the woodcut beginning with the earliest publications. Many of the woodcut designs grew out of the tradition of manuscript illumination, in which book illustrations were painstakingly executed by hand. The authors also present the distinguishing features of national style and taste, treating the reader to examples from Germany, Italy, France, Spain, and the Netherlands. In addition, A Heavenly Craft describes the provenance of these volumes, providing an account of how Lessing J. Rosenwald purchased them from the heir to the Lea and Perrins fortune and later donated them to the Library of Congress. These early printed volumes are the predecessors of today's illustrated books. A Heavenly Craft celebrates these origins, making these early publications available to bibliophiles and print lovers. 100 color illustrations.
