**Atticus Claw Goes Ashore** Jennifer Gray 2014-03-04
Atticus is on beach tidying duty with the kittens when he finds a message in a bottle from Fishhook Frank. Fishhook is marooned on a desert island, but he promises Atticus treasure in exchange for his rescue! The treasure in question is the Casket of Desires, which contains a sleeping mermaid who has the power to grant any wish. But it is hidden in the deepest darkest part of the ocean, protected by the most hideous, fearsome sea-creatures known to pirate lore. Atticus sets out to rescue Fishhook Frank and find the Casket of Desires with his owners, the Cheddar family. But it's not all plain sailing. The pirate with the biggest beard-jumper in the nautical world - Captain Black Beard-Jumper - is also on the look out for the Casket and he'll curse anyone who gets in his way...

**Attlee's Labour Governments 1945-51** Robert Pearce 2006-04-07
The Labour governments of 1945-51 are among the most important and controversial in modern British history, and have been the focus of extensive research over the last fifteen years. In this study, Robert Pearce makes the results of this research available in a concise and accessible form, whilst encouraging students to formulate their own interpretations. He looks at the main political personalities of the period, sets their work in the context of Labour history since 1900, and examines their domestic, foreign and imperial achievements.

**Atrial Fibrillation Therapy** Gheorghe-Andrei Dan 2013-11-25 The paradigm for atrial fibrillation (AF) management has changed significantly in recent years. A new era has begun for the prevention of one of the most tremendous complication of AF, stroke. Prevention of ischemic stroke in AF patients with oral anticoagulants represents a huge challenge because of the narrow therapeutic change of these drugs, interindividual and intraindividual variability, and the unsatisfactory time in therapeutically range (TTR) with this type of medication. New guidelines have emerged as a result of new mechanisms for initiation and perpetuation for pharmacotherapy to cure AF and trials with new classes of antithrombotic drugs are ongoing. The treatment of AF is still in its infancy, but recent research is revealing how it can be applied with optimal efficacy. This book assists trainees, recertifying physicians, practicing physicians and other professional staff in internal medicine, cardiology, emergency medicine, and clinical pharmacology to apply new diagnostic tools for selecting the best treatment options for AF patients.

**Auden and Isherwood** Norman Page 2016-03-09 Drawing on much contemporary material, including Auden’s fascinating unpublished diary, this book places personal experience in the context of the life of a great city: not only its political, artistic and cultural life, but the life of the streets, bars and caf. It presents portraits of figures, often fascinating in their own right, with whom Auden and Isherwood came into contact, and it demonstrates how, especially in Isherwood’s fiction, the raw material of daily existence was transformed into art. The wide scope of this study, which ranges from poetry and cinema to street violence and prostitution, provides a richly detailed context for its account of two writers engaged in the process of self-definition.

**Atrial Fibrillation** Andrea Natale 2008-04-03 This important new book presents advancements in the treatment and prevention of Atrial Fibrillation (AF). The reader is provided with the latest information that is critically important in the daily care and for the potential cure of patients with AF. Each chapter deals with a different aspect of AF and each chapter is authored by internationally recognized experts in the evolving field of cardiac electrophysiology. This book is a single source that provides a multi-perspective look at and approach to AF. Because AF is so prevalent and affects all areas of medicine, the information in this book will be useful to all those in the medical field.

**Attaining Your Desires** Genevieve Behrend 2017-01-30 If
You Could Talk To The Greatest Master of This Century - What Would You Ask? The sages of the centuries, each one tinting their thought with their own soul essence, have united in telling us that, "As a man thinketh in his heart, so is he." It has been established by the experience of the ages that always the law is the same. But HOW shall one think in their heart, so that only goodness may blossom and ripen into rich deed and rare result? What is the apparently mysterious secret by which life's dull metal is transmuted into precious mintage? As Troward has said, "Thought is the only action of the mind. By your habitual thoughts you create corresponding external physical conditions, because you thereby create the nucleus which attracts to itself its own correspondence, in due order, until the finished work is manifested on the material plane." Attachment and New Beginnings Jonathan Pedder 2018-05-08 This collection of written pieces plots the work of an NHS psychotherapist, Jonathan Pedder, turning the science of psychiatry into human encounters. He had a career teaching and inspiring colleagues and students with psychoanalytic ways of thinking, encouraging and supporting them in the challenges of contemporary psychiatry. In his work he made the world of psychoanalysis accessible to non-analysts, and this book augments the textbook on psychotherapy which Pedder wrote with Dennis Brown. Pedder was a quiet visionary influential in offering a pathway for mental health workers from many disciplines to find their way to the psychoanalytic ideas that illuminate their patients/clients.'- Professor R. D. Hinshelwood, Author of Clinical Klein and Dictionary of Kleinian Thought.

Attack of the Copula Spiders
Douglas Glover 2012-03-27

A GLOBE & MAIL BEST BOOK OF THE YEAR FOR 2012 “Glover is a master of narrative structure.” —Wall Street Journal In the tradition of E.M. Forster, John Gardner, and James Wood, Douglas Glover has produced a book on writing at once erudite, anecdotal, instructive, and amusing.

Attack of the Copula Spiders represents the accumulated wisdom of a remarkable literary career: novelist, short story writer, essayist, teacher and mentor, Glover has for decades been asking the vital questions. How does the way we read influence the way we write? What do craft books fail to teach aspiring writers about theme, about plot and subplot, about constructing point of view? How can we maintain drama on the level of the sentence—and explain drama in the sentences of others? What is the relationship of form and art? How do you make words live? Whether his subject is Alice Munro, Cervantes, or the creative writing classroom, Glover’s take is frank and fresh, demonstrating again and again that graceful writers must first be strong readers. This collection is a call-to-arms for all lovers of English, and Attack of the Copula Spiders our best defense against the assaults of a post-literate age. Douglas Glover is the award-winning author of five story collections, four novels, and two works of non-fiction. He is currently on the faculty of the Vermont College of Fine Arts MFA in Writing program.

Praise for Douglas Glover
- "So sharp, so evocative, that the reader sees well beyond the tissue of words into ... the author's poetic grace." - The New Yorker
- "Glover invents his own assembly of critical approaches and theories that is eclectic, personal, scholarly, and smart ... a direction for future literary criticism to take." - The Denver Quarterly
- "A ribald, raunchy wit with a talent for savoring self-investigation." - The Globe and Mail
- "Knotty, intelligent, often raucously funny." - Maclean's
- "Darkly humorous, simultaneously restless and
relentless." - Kirkus Reviews

**Sustainable Ceramics**

Robert Harrison 2022-01-13 Artists are increasingly interested in producing work that is not only beautifully designed and produced, but is also environmentally friendly and socially responsible. In Sustainable Ceramics, pioneer Robert Harrison draws on more than four decades of making, and a wealth of experience shared by other artists to present practical possibilities for ceramic artists. This book covers all the factors to consider when going 'green', from fuels and alternative firing technology to energy-saving methods, sustainable ways to collect and use clay itself, and ways to deal with or recycle waste materials and save water. He suggests simple and achievable methods by which to reduce the carbon footprint of ceramic art, and draws on interviews and examples throughout by practitioners who reclaim, reuse and recycle in their studio or work. Sustainable Ceramics is an essential resource for any ceramicist, studio or school looking for ideas on how to reduce the impact of their practice on the environment.

**Attention All Shipping**

Charlie Connelly 2011-06-02

This solemn, rhythmic intonation of the shipping forecast on BBC radio is as familiar as the sound of Big Ben chiming the hour. Since its first broadcast in the 1920s it has inspired poems, songs and novels in addition to its intended objective of warning generations of seafarers of impending storms and gales. Sitting at home listening to the shipping forecast can be a cosily reassuring experience. There's no danger of a westerly gale eight, veering southwesterly increasing nine later (visibility poor) gusting through your average suburban living room, blowing the Sunday papers all over the place and startling the cat. Yet familiar though the sea areas are by name, few people give much thought to where they are or what they contain. In ATTENTION ALL SHIPPING Charlie Connelly wittily explores the places behind the voice, those mysterious regions whose names seem often to bear no relation to conventional geography. Armchair travel...
will never be the same again.

**Aunty Lee's Deadly Specials** Ovidia Yu 2014-09-30 Rosie
“Aunty” Lee, the feisty widow, amateur sleuth, and proprietor of Singapore’s best-loved home cooking restaurant, is back in another delectable, witty mystery involving scandal and murder among the city’s elite. Few know more about what goes on in Singapore than Aunty Lee. When a scandal over illegal organ donation involving prominent citizens makes news, she already has a list of suspects. There’s no time to snoop, though—Aunty Lee’s Delights is catering a brunch for local socialites Henry and Mabel Sung at their opulent house. Rumor has it that the Sung’s fortune is in trouble, and Aunty Lee wonders if the gossip is true. But soon after arriving at the Sung’s house, her curiosity turns to suspicion. Why is a storage house she discovers locked? What is the couple arguing about behind closed doors? Where is the guest of honor who never showed up? Then, Mabel Sung and her son Leonard are found dead. The authorities blame it on Aunty Lee’s special stewed chicken with buah keluak, a local black nut that can be poisonous if cooked improperly. Aunty Lee has never carelessly prepared a dish. She’s certain the deaths are murder—and that they’re somehow linked to the organ donor scandal. To save her business and her reputation, she’s got to prove it—and unmask a dangerous killer whose next victim may just be Aunty Lee.

Auctioned Virgin to Seduced Bride
Louise Allen
2011-07-01 London, 1814 Innocent Laurel Vernon is living a nightmare after being kidnapped and put up for auction in one of London's most notorious brothels. Only the memory of private enquiry agent Patrick Jago gives her strength. Even though she only knew him for a few days, Patrick made her feel both protected and weak with desire. When Laurel sees Patrick among the brothel's clientele, she isn't sure if he has come to rescue her or to satisfy his own lust. But she is certain that he intends to bid on her!

Parentology
Dalton Conley 2014-03-18 An award-winning scientist offers his unorthodox approach to childrearing: “Parentology is brilliant, jaw-droppingly funny, and full of wisdom...bound to change your thinking about parenting and its conventions” (Amy Chua, author of Battle Hymn of the Tiger Mother). If you’re like many parents, you might ask family and friends for advice when faced with important choices about how to raise your kids. You might turn to parenting books or simply rely on timeworn religious or cultural traditions. But when Dalton Conley, a dual-doctorate scientist and full-blown nerd, needed childrearing advice, he turned to scientific research to make the big decisions. In Parentology, Conley hilariously reports the results of those experiments, from bribing his kids to do math (since studies show conditional cash transfers improved educational and health outcomes for kids) to teaching them impulse control by giving them weird names (because evidence shows kids with unique names learn not to react when their peers tease them) to getting a vasectomy (because fewer kids in a family mean smarter kids). Conley encourages parents to draw on the latest data to rear children, if only because that level of engagement with kids will produce solid and happy ones. Ultimately these experiments are very loving, and the outcomes are redemptive—even when Conley’s sassy kids show him the limits of his profession. Parentology teaches you everything you need to know about the latest literature on parenting—withe lessons that go down easy. You’ll be laughing and learning at the same time.
