Spearhead of Logistics Benjamin King 2016-02-25 Spearhead of Logistics is a narrative branch history of the U.S. Army Transportation Corps, first published in 1994 for transportation personnel and reprinted in 2011 for the larger Army community. The Quartermaster Department coordinated transportation support for the Army until World War I revealed the need for a dedicated corps of specialists. The newly established Transportation Corps, however, lasted for only a few years. Its significant utility for coordinating military transportation became apparent during World War II, and it was resurrected in mid-1942 to meet the unparalleled logistical demands of fighting in distant theaters.
