To Hold Infinity

John Meaney 2010-10-29 Devastated by her husband's death, Earth-based biologist Yoshiko Nakajima journeys to the paradise world of Fulgar to see her estranged son in the hope of bridging the gulf between them. But Tetsuo is in trouble. His expertise in mus-space technology and family links with the mysterious Pilots have ensured his survival—for so far. Now he's in ways over his head—unwittingly caught up in a conspiracy of illegal tech trafficking and the sinister machinations of one of Fulgar's ruling elite, the charismatic Luculentus, Rafael Garcia de la Vega. When his home is attacked, Tetsuo flees to the planet's untransformed wastes, home to society's outcasts and eco-terrorists. So Yoshiko arrives on Fulgar to discover Tetsuo gone—and wanted for murder. Ill at ease in this strange, stratified new world seething with social and political unrest but desperate to find her son and clear his name, she embarks on a course of action that will bring her face to face with the awesome, malevolent mind of Rafael.

Context

John Meaney 2003 Sequel to the acclaimed "Paradox" and the second book in the Nullaperion Sequence, "Context" is a thrilling, daring, and complex novel that confirms Meaney as one of British science fiction's most original and exciting practitioners.

Soul Hunt

Margaret Ronald 2009-12-28 "Ronald has done a terrific job with the Celtic mystical matter...[She] has tapped into the dark streak that runs as an undercurrent through much Irish folklore..."—Charles de Lint, Magazine of Fantasy and Science Fiction With Soul Hunt, Margaret Ronald continues the edgy adventures of Red Sox fan and paranormal investigator, tracker Eve ("Hound") Scelan as she negotiates her way through Boston's deadly underworld. One of the hosts of the host of the popular Far East Radio show, Spiral Vortex, Eve Scelan must be extremely good at her job. In the latest case, herمنتلاویل (العربية) (Très mariée) expansive mind is stretched to the limit, as she confronts the most frightening enemy of all—paranormal activities, as Eve Scelan must make good on an otherworldly debt or suffer devastating consequences. Aficionados of Kim Harrison and Jim Butcher—and anyone who appreciates the brilliant contemporary spins on ancient mythology deftly executed by Neil Gaiman and Tim Powers—will certainly want to hunt down Margaret Ronald's Soul Hunt.

The Red Wolf Conspiracy

Robert V. S. Redick 2009-04-28 Already a publishing sensation in England, The Red Wolf Conspiracy makes the debut of a remarkably gifted young writer. Robert V. S. Redick has been compared to Philip Pullman, George R. R. Martin, and China Mieville, among others, and like them he is a storytelling virtuoso, unafraid to sail his imagination into uncharted waters. With The Red Wolf Conspiracy he launches the first book of a trilogy destined to take its place among the classics of epic fantasy. It is a tale of the 300-year old, the secrets of her construction long forgotten, the massive vessel dwarfs every other sailing craft in the world. It is a palace with sails, a floating outpost of the Empire of Arqual. And it is on its most vital mission yet: to deliver a young woman whose marriage will seal the peace between Arqual and its mortal enemy, the secretive Mzithrin Empire. But the young woman in question—Thasha, the daughter of the Arquali ambassador—has no intention of going meekly to the altar. For the ship's true mission is not peace but war—a war that threatens to decimating the human realms. Among the free humans who survive in the floating terraformer spheres of Nulapeiron's skies, only the forces commanded by Tom Corcorcian have a chance against this omnipotent invader. For a while a otherworld who is no longer human, who is willing to sacrifice everything, can deliver humanity from darkness. Resolution concludes the trilogy of Nullaperion tales featuring Tom Corcorcian, bringing the story to a triumphant close.

This is an extraordinary SF novel set in alternate universe quite unlike any imagined in SF before, a universe where magic and technology have combined to create a world where the dead never die, where the living and the dead coexist in a world turned upside down. The setting, Tristopolis, is the ultimate noir city, an immense baroque creation of haunted stone skyscrapers, black metal and city-wide catacombs. Its hero Donal Connor is impossibly likeable and easy to identify with. Even once he’s dead.

Unusually<br>Mark Del Monaco 2007 When a serial killer targets fatty prostitutes in a Boston neighborhood known as the Weird, Connor Grey, a crippled druid and former Guild detective, discovers that the killings are part of an ancient magical rite gone awry, and he must race against time to stop the ritual and prevent a full-blown magical apocalypse. Or, as Grey wryly puts it, “Not with the cop’s phone, but with the cop’s gun.”

Greywaker Kat Richardson 2006-02 Harper Blaine was your average small-time P.I. until a two-bit pimp’s savage assault left her dead for two minutes. When she comes to in the hospital, she sees things that can only be described as weird-shapes emerging from a foggy grey mist, snarling teeth, creatures roaring. But Harper’s not crazy. Her “death” has made her a Greywaker—able to move between the human world and the mysterious cross-over zone where things that go bump in the night exist. And her new gift is about to drag her into that strange new realm—whether she likes it or not.

The Manual of Detection/Jedediah Berry 2009 Unpredictably employed to detect when his predecessor goes missing and a supervillain is killed, agent Charles Unwin struggles with ineptitude and nerves during a case in which he encounters the Pecoes—fearsome and terrifying dire creatures who live in the Weird.

Edge<br>Thomas Blackthorne 2010 WELCOME, SENSATION SEEKERS, TO KNIFE EDGE. In a Britain on the edge of collapse, dulling with blades has now been legalised. On Saturday nights, the nation sits down to watch the country’s best amateur fighters slash it out on prime time. The streets are red with blood. The skies are black with polluted horror. High walls have been built around Britain and endless winter is coming. A company in the southwest of England, run by an agent Joshua Cumberland delves into the dark underbelly of the knife culture that has infected his country, but what he finds will shock him to his soul. Assassination<br>John Meaney 2011-02-01 600 years from now on the world of Fulgor Roger Blackstone, son of two pilots (long-time alien spies, masquerading as ordinary humans) aced to see the mythical Pilot’s city of Labyrinth, in the fractal up-continuum of m-space. In 8th century Norseland, a young girl called Wolfe kills a man, watched by a mysterious warrior who bears the mark of Loni the Trickster God. In 2020s Zurich, Gabriela Silverstein enters a world where everything is different now. Everything is different now.

Echoes of Honor<br>David Weber 1999-10-01 Her enemies think she has been executed, but Commodore Honor Harrington is actually interned on the prison planet Hel, from which she is determined to escape. Ressie, the Somnambulist—a silent, hairless, hulking giant who, when stabbed, does not bleed. But these are strange, strange times. Here is something that can only be described as weird-shapes emerging from a foggy grey mist, snarling teeth, creatures roaring. But for brewing the cop’s phone, but with the cop’s gun. What Tom has still to discover is that his crystal holds the key to understanding m-space, and so to freedom itself. He doesn’t know it yet, but he has been given a destiny to fulfill—nothing less than the rewiring of his future, and that of his world...

Paradox<br>John Meaney 2010-09-09 Centuries of self-imposed isolation have transformed Nulapiron into a world unlike any other—a world of vast subterranean cities maintained by extraordinary organic technologies. For the inhabitants of this sleek, lit up artificial world, the outside world is an unknown and ominous place. But when a body is discovered on the abandoned high walls that hem in the impoverished lower levels, they are subjected to the brutal law of the Logic Lords and the Oracles, supra-human beings whose ability to access the future teaches the characters the status quo. But all this is about to change. In a crowded marketplace a mysterious, beautiful woman is brutally cut down by a militia squad’s graser fire. Amongst the horrified spectators is young Tom Corcoran. He recognizes that only the previous day she had presented him with a small, seemingly insignificant i-o-crystal. And only now, as the fire in the dying stranger’s obsidian eyes fades, does he comprehend who—what or what she really was: a figure from legend, one of the fabled Pilots.
The Mitford Girls

Mary S. Lovell 2008-09-04

'A cracking read' Lynn Barber, Observer

The Mitford Girls tells the true story behind the gaiety and frivolity of the six Mitford daughters - and the facts are as sensational as any novel: Nancy, whose bright social existence masked an obsessional doomed love which soured her success; Pam, a countrywoman married to one of the best brains in Europe; Diana, an iconic beauty, who was already married when at 22 she fell in love with Oswald Moseley, the leader of the British fascists; Unity, who romantically in love with Hitler, became a member of his inner circle before shooting herself in the temple when WWII was declared; Jessica, the family rebel, who declared herself a communist in the schoolroom and the youngest sister, Debo, who became the Duchess of Devonshire. This is an extraordinary story of an extraordinary family, containing much new material, based on exclusive access to Mitford archives.
