With the help of local authorities, Tempe deciphers a web of identities and reassembles a string of cases that lead back to the drug cartels behind the trafficking scheme.

Tempe's boyfriend, Ryan, is investigating a series of murders in South Carolina, and Tempe is summoned to help identify the bodies. As she works to solve the mystery, Tempe uncovers a disturbing pattern of violence and corruption that threatens to destroy her own life. But even as the local sheriff remains dubious and her own life is threatened, Tempe refuses to give up on finding the truth.

In the end, Tempe's determination and unyielding spirit lead her to expose the scope of the trafficking ring and bring the perpetrators to justice. But even as she succeeds, she knows that the battle is far from over. "Tempe's the kind of character who will grab you from the very first and keep you reading until the last page," said the Washington Post. the FOX television hit Bones—returns with the thirteenth riveting novel featuring forensic anthropologist Dr. Temperance Brennan. John Lowery was declared dead in 1968—the victim of a Huey crash in Vietnam, his body buried long ago in North Carolina. Four decades later, Temperance Brennan is called to the scene of a drowning in Hemmingford, Quebec. The victim appears to have died while in the midst of a bizarre sexual practice. The corpse is later identified as John Lowery. But how could Lowery have died twice, and how did an American soldier end up in Canada? Tempe sets off for the answer, exhuming Lowery’s grave in North Carolina and taking the remains to Hawaii for reanalysis—to the headquarters of JPAC, the U.S. military’s Joint POW/MIA Accounting Command, which strives to recover Americans who have died in past conflicts. In Hawaii, Tempe is joined by her colleague and ex-lover Detective Andrew Ryan (how “ex” is he?) and by her daughter, who is recovering from her own tragic loss. Soon another set of remains is located, with Lowery’s dog tags tangled among them. Three bodies—all identified as Lowery. And then Tempe is contacted by Hadley Perry, Honolulu’s flamboyant medical examiner, who needs help identifying the remains of an adolescent boy found offshore. Was he the victim of a shark attack? Or something much more sinister? A complex and riveting tale of deceit and murder unfolds in this, the thirteenth thrilling novel in Reich’s “cleverly plotted and expertly maintained series” (The New York Times Book Review). With the smash hit Bones now in its fifth season and in full syndication—and her most recent novel, 206 Bones, an instant New York Times bestseller—Kathy Reichs is at the top of her game.

Kathy Reichs 2020-03-17 #1 New York Times bestselling author Kathy Reichs returns with an “edgy, eerie, irresistible” (Sandra Brown) novel with “plenty of twists” (The New York Times Book Review) featuring forensic anthropologist Temperance Brennan, who must use her skills to discover the identity of a faceless corpse, its connection to a decade-old missing child case, and why the dead man had her cell phone number. It’s sweltering in Charlotte, North Carolina, and Temperance Brennan, still recovering from neurosurgery following an aneurysm, is battling nightmares, migraines, and what she thinks might be hallucinations when she receives a series of mysterious text messages, each containing a new picture of a corpse that is missing its face and hands. Immediately, she’s anxious to know who the dead man is, and why the images were sent to her. An identified corpse soon turns up, only partly answering her questions. To win answers to the others, including the man’s identity, she must go rogue, working mostly outside the system. That’s because Tempe’s new boss holds a fierce grudge against her and is determined to keep her out of the case. Tempe bullls forward anyway, even as she begins questioning her instincts.
