School-Based Family Counseling with Refugees and Immigrants Brian A. Gerrard 2022 School-Based Family Counseling with Refugees and Immigrants focuses on the practical application of School-Based Family Counseling (SBFC) with refugee and immigrant populations. Emphasizing collaboration, mutual assistance, dialogue, and joint problem-solving, SBFC takes a systems approach that stresses the integration of school, family, and community interventions; the three most important systems that affect the lives of children. Through case studies, the book explains how to design and implement integrated SBFC interventions for refugee and immigrant populations in an explicit manner. The book's practical, how-to approach is suitable for novice and experienced practitioners alike.

These tests help the students prepare for EETC certification.

Small Engines and Outdoor Power Equipment Editors of Cool Springs Press 2014-03-15 This new book is more than a simple engine repair manual. Designed for the beginner with little or no mechanical experience, Small Engines & Outdoor Power Equipment is a graphically appealing, step-by-step guide that covers all of the most important engine maintenance and repair skills you'll need to keep your equipment running at peak performance. It also shows exactly how to perform mechanical upkeep and repairs on the most common outdoor power implements, including lawn mowers, snow blowers, chain saws, power washers, generators, leaf blowers, rototillers, wood splitters, lawn edgers, and weed whips. With clear 'how-to' photos and detailed diagrams, you'll see exactly what needs to be done. A comprehensive troubleshooting guide helps you define problems and enact solutions. With Small Engines & Outdoor Power Equipment in your library, you won't need

to haul the lawn mower off to the repair center and wait a few weeks just because a filter is plugged or the old gas needs to be replaced. Among the many skills you'll learn are seasonal tune-ups, changing oil, servicing spark plugs, cleaning filters, replacing muffler, servicing the fuel tank, overhauling the carburetor, servicing brakes, inspecting flywheels, replacing the fuel pump, and replacing a rewind cord.

Building the Atkinson Cycle Engine Vincent R. Gingery 1996-01-01

Parentology Dalton Conley 2014-03-18 An award-winning scientist offers his unorthodox approach to childrearing: "Parentology is brilliant, jaw-droppingly funny, and full of wisdom...bound to change your thinking about parenting and its conventions" (Amy Chua, author of *Battle Hymn of the Tiger Mother*). If you're like many parents, you might ask family and friends for advice when faced with important choices about how to raise your kids. You might turn to parenting books or simply rely on timeworn religious or cultural traditions. But when Dalton Conley, a dual-doctorate scientist and full-blown nerd, needed childrearing advice, he turned to scientific research to make the big decisions. In *Parentology*, Conley hilariously reports the results of those experiments, from bribing his kids to do math (since studies show conditional cash transfers improved educational and health outcomes for kids) to teaching them impulse control by giving them weird names (because evidence shows kids with unique names learn not to react when their peers tease them) to getting a vasectomy (because fewer kids in a family mean smarter kids). Conley encourages parents to draw on the latest data to rear children, if only because that level of engagement with kids will produce solid and happy ones. Ultimately these experiments are very loving, and the outcomes are redemptive—even when Conley's sassy kids show him the limits of his profession. *Parentology* teaches you everything you need to know about the latest literature on parenting—with lessons that go down easy. You'll

be laughing and learning at the same time.
