Instructor's Manual to Accompany Contemporary Canadian Business Law : Principles and Cases John A. Willes 1982 West's Business Law Kenneth W. Clarkson 2004 This text is used at more colleges and universities than any other business law text. With the perfect balance of tradition and innovation, this benchmark text brings to life the functions and inner-workings of business law in the real world. Rich with classic and modern cases, West's Business Law is the ideal text for students entering virtually any field of business. By combining this market leading text with a complete supplements and technology package, this is the one clear choice in the business law courses.

Criminal Law Joycelyn M. Pollock 2012-08-29 This classic introduction to criminal law for criminal justice students combines the best features of a casebook and a textbook. Criminal Law covers substantive criminal law and explores its principles, sources, distinctions, and limitations. Definitions and elements of crimes are explained, and defenses to crimes are thoroughly analyzed. A unique strength of Criminal Law is its discussion of the federal criminal code and the specific recognition of the common-law origins of modern law. NEW to this Edition: Coverage of terrorism and associated law. Student ancillary aids, including self-assessment, a question bank, and case study assets. Updated Legal News sections. Features: Each chapter includes outline, key terms and concepts, guidance to help the reader understand what is important in each chapter, as well as Legal News sections, highlighting current criminal law issues. Part II contains briefs of judicial decisions related to the topics covered in the text, in order to help the reader learn rule of law as well as the reasoning of the court that guides future court rulings. Part III contains a glossary and a table of cases.

Education Law Michael Imber 2004 Educational Law provides a comprehensive survey of the legal problems and issues that confront school administrators and policymakers. If there is a greater likelihood of litigation or error in a particular area of professional practice, the discussion is more extensive. The book is organized in accordance with the authors' belief that students need to read cases to understand the subtlety and richness of the law, but for legal neophytes, cases without discussion and interpretation are often difficult to comprehend. Thus the text both explains the important concepts and principles of education law and presents court decisions to illuminate them. By employing this structure, the book combines the strengths of the traditional casebook and those of the legal treatise. It also discusses the implications of the law for educational policy and practice. Key features include the following: *Presentation--To aid comprehension, technical legal terms are carefully explained when first introduced and discussions of complex topics move logically from overview to elaboration of important details to summary of key topics and principles. *Cases--By integrating carefully edited cases into the analysis of legal issues, the book exposes students with little or no background in law to the subtlety and richness of legal thinking. *New Material:--The third edition incorporates extensive treatment of new cases and legislation of the last five years. Topics that have been added or significantly expanded include: the No Child Left Behind Act, students' rights--especially in the areas of free speech and search and seizure, vouchers and government assistance to private and religious schools, employment discrimination, racial and sexual harassment of students and school employees, affirmative action and voluntary school integration, equity and adequacy in school finance, issues relating to use of the Internet, and the law relating to special student populations. The table of cases contains about 250 more entries than in the second edition.

Federal Estate and Gift Taxation Richard B. Stephens 2002 Pealing and Procedure Geoffrey C. Hazard 1999 EU Law Paul Craig (Law) 2020 Building on its unrivalled reputation as the definitive EU law textbook, this seventh edition continues to provide clear and insightful analysis of all aspects of European union law. Drawing on their wealth of experience, Paul Craig and Gráinne de Búrca succeed in bringing together a unique mix of illuminating commentary and well-chosen extracts from a wide range of cases, legislation, and academic publications. Chapters have been carefully structured and designed to enhance student learning at all levels, laying the foundations of the subject while building analysis of more complex areas and cutting-edge debates. The seventh edition has been comprehensively updated to reflect the extensive legal developments that have taken place since publication of the sixth edition, and a new chapter on current challenges facing the EU has been added.
