Where modern doctrine has important historical roots (e.g., network neutrality and telecommunications regulation), the book gives the necessary context.

Like the volume it supplements, these materials are built on the premise that the basic Administrative Law course is not a single set of canonical cases, topics, and readings that all teachers should cover, but will reflect the interests of its particular instructor, the needs of his or her students, and the rest of the school's curriculum. With the publication of this 2007 Supplement, Professor Gillian Metzger of Columbia Law School has joined Professors Peter Strauss, Todd Rakoff, and Cynthia Farina as an editor of the book that remains the defining casebook in Administrative Law. The supplement addresses many important recent decisions and administrative law developments.

reason for the book's success is  
its clear and comprehensive

Another reason is its  
responsiveness to changes in  
these traditional subjects and  
to new views about that
