Nominal Apposition—in Indo-European Brigitte L. M. Bauer 2017-05-08 Nominal apposition—the combining of two equivalent nouns—has been a neglected topic in linguistics, despite its prominence in syntax and morphology in some languages. This book presents an extensive comparative and diachronic analysis of nominal apposition in Indo-European, examining its occurrence, characteristics and functions in early languages, identifying parallels with similar phenomena elsewhere, and tracing its evolution in Latin-Romance.

Eight Centuries of Troubadour and trouvère John Haines 2004-07-08 This book traces the changing interpretation of troubadour and trouvère music; a repertoire of songs which have successfully maintained public interest for eight centuries, from the medieval chansonniers to contemporary rap renditions. A study of their reception therefore serves to illustrate the development of the modern concept of 'medieval music'. Important stages include sixteenth-century antiquarianism, the Enlightenment synthesis of scholarly and popular traditions and the infusion of archaeology and philology in the nineteenth century, leading to more recent theories on medieval rhythm. More often than not, writers and performers have negotiated a compromise between historical research and a more imaginative approach to envisioning the music of troubadours and trouvères. This book points not so much to a resurrection of medieval music in modern times as to a continuous tradition of interpreting these songs over eight centuries.

Crap CVs Jenny Crompton 2014-10-09 Application for Employment I refer to the recent death of the Technical Manager at your company and hereby apply for the replacement of the deceased manager. Each time I apply for a job, I get a reply that there is no vacancy but in this case I have caught you red-handed and you have no excuse because I even attended the funeral to be sure that he was truly dead and buried before applying. Attached to my letter is a copy of my CV and his death certificate. Crap CVs is a hilarious compilation of the worst job applications imaginable, including overly-honest cover letters, embarrassing typos, mortifying personal revelations, awkward interview questions, misplaced self-confidence, self-aggrandizing gibberish, blatant truth-healing and, of course, outright lies.

The Medieval Salento Linda Safaran 2014-03-21 Located in the heel of the Italian boot, the Salento region was home to a diverse population between the ninth and fifteenth centuries. Inhabitants spoke Latin, Greek, and various vernaculars, and their houses of worship served sizeable congregations of Jews as well as Roman-rite and Orthodox Christians. Yet the Salentines of this period laid claim to a definable local identity that transcended linguistic and religious boundaries. The evidence of their collective culture is embedded in the traces they left behind: wall paintings and inscriptions, graffiti, carved tombstone decorations, belt fittings from graves, and other artifacts reveal a wide range of religious, civic, and domestic practices that helped inhabitants construct and maintain personal, group, and regional identities. The Medieval Salento allows the reader to explore the visual and material culture of a people using a database of over three hundred texts and images, indexed by site. Linda Safaran draws from art history, archaeology, and ethnography to reconstruct medieval Salentine customs of naming, language, appearance, and status. She pays particular attention to Jewish and non-Jewish residents, whose lives in southern Italy have historically received little scholarly attention. This extraordinarily detailed visual analysis reveals how ethnic and religious identities can remain distinct even as they mingle to become a regional culture.

Odes Sharoon Olds 2016-09-20 Following the Pulitzer prize-winning collection Stag's Leap, Sharon Olds gives us a stunning book of odes, opening with the powerful and tender "Ode to the Hymen." Olds addresses and embodies, in this age-old poetic form, many aspects of love and gender and sexual politics in a collection that is centered on the body and its structures and pleasures. The poems extend parts of her narrative as a daughter, mother, wife, lover, and poet of conscience that will be familiar from earlier collections, each episode and memory burnedished by the wisdom and grace and humor of looking back. In such poems as "Ode to My Sister," "Ode of Broken Loyalty," "Ode to Whitman," "Blow Job Ode," and "Ode to the Last Thirty Eight Trees in New York City Visible from This Window," Olds treats us to an intimate examination that, like all her work, is universal, by turns searing and charming in its honesty. From the body joys and sorrows of childhood to the deaths dearest to us, Olds shapes the world in language that is startlingly fresh, profound in its conclusions, and life-giving for the reader.

Ancestral Fault in Ancient Greece Renaud Gagné 2013-11-07 Ancestral fault is a core idea of Greek literature. The guiltless will pay for the deeds later: either the man's children, or his descendants thereafter, said Solon in the sixth century BC, a statement echoed throughout the rest of antiquity. This notion lies at the heart of ancient Greek thinking on theology, inheritance and privilege, the meaning of suffering, the links between wealth and morality, individual responsiblity, the bonds that unite generations and the grand movements of history. From Homer to Proclus, it played a major role in some of the most critical and pressing reflections of Greek culture on divinity, society and knowledge. The burning modern preoccupation with collective responsibility across generations has a long, deep antecedent in classical Greek literature and its reception. This book retraces the trajectories of Greek ancestral fault and the varieties of its expression through the many genres and centuries where it is found.
