New Studies in the Manuscript Tradition of Njáls saga Snáthildur Oskarssdóttir 2018-10-22 Njáls saga is an important work of Icelandic medieval literature, written around the 13th century. It tells the story of the legendary Icelandicman Njáll and his family. The saga is known for its vivid descriptions of life in Iceland in the Middle Ages, and it is often considered one of the most important works of Icelandic literature. It has been translated into many languages and continues to be a popular work in Iceland today. In this study, Snáthildur Oskarssdóttir explores the manuscript tradition of Njáls saga, focusing on the transmission and preservation of the text. She examines the different manuscripts, their physical and contextual characteristics, and the ways in which they were used and transmitted. The study also includes an edition of the text, with notes and an apparatus criticus. The work is a valuable resource for scholars of medieval Iceland and Icelandic literature, as well as anyone interested in the cultural history of Iceland.

Housecroft 2018 [Main text] – Solutions manual Research on Old French: The State of the Art Deborah L Arteaga 2012-11-02 The present volume presents scholarly study into Old French as it is practiced today, in all of its forms, within a variety of theoretical frameworks, from Optimality Theory to Minimalism to Discourse Analysis. Many of the chapters are corpus-based, reflecting a new trend in the field, as more electronic corpora become available. The chapters contribute to our understanding of both the synchronic state and diachronic evolution, not only of Old French, but of language in general. Its breadth is extensive in that contributors pursue research on a wide variety of topics in Old French focusing on the various subsystems of language. All examples are carefully glossed and the relevant characteristics of Old French are clearly explained, which makes it uniquely accessible to non-specialists and linguists at all levels of training. After Life Lessons (Book One) Laila Blake 2014-03-20 A year after a devastating epidemic swept the world, Emily and her six-year-old son, Song, are struggling south in search of more hospitable climates. A snowstorm traps them in an abandoned gas station, where starving and desperate, they encounter Aaron, an Army medic on a mission of his own, who offers them a ride to ease the journey. Narration and Hero Victor Millet 2014-07-28 By the early middle ages vernacular aristocratic traditions of heroic narration were firmly established in Western and Northern Europe. Although there are regional, linguistic and formal differences, one can observe a number of similarities. Oral literature disseminates a range of themes that are shared by narratives in most parts of the continent. In all the European regions, this tradition of heroic narration came into contact with Christianity, which led to modifications. Similar processes of adaptation and transformation can be traced everywhere in this field of early European vernacular narrative. But with the increasing specialization of academic fields over the last half century, inter-disciplinary dialogue has become increasingly difficult. The volume is a contribution to renew the inter-disciplinary dialogue about common themes, topics and motifs in Nordic, Anglo-Saxon and Germanic literature, and about the different methodologies to explore them. Various kinds, including sources or later versions of the same story, manuscript variants and miniatures and further relevant beard-motifs from the same period. The book concludes by reviewing the portrayal of Jesus in vernacular German literature, which represents a special text-case in the literary history of beards. As the first study of its kind in medieval German studies, this investigation submits beard-motifs to sustained and detailed analysis in order to shed light both on medieval poetic techniques and the normative construction of masculinity in a wide range of literary genres. Ancient Fault in Ancient Greece Renaud Gagné 2013-11-07 Ancient fault is a core idea of Greek literature. 'The guiltless will pay for the deeds later: either the man's children, or his descendants thereafter', said Solon in the sixth century BC, a statement echoed throughout the rest of antiquity. This notion lies at the heart of ancient Greek thinking on theodicy, inheritance and privilege, the meaning of suffering, the links between wealth and morality, individual responsibility, the bonds that unite generations and the grand movements of history. From Homer to Proclus, it played a major role in some of the most critical and pressing reflections of Greek culture on divinity, society and knowledge. The burning modern preoccupation with collective responsibility across generations has a long, deep antecedent in classical Greek literature and its reception. This book retraces the trajectories of Greek ancestral fault and the varieties of its expression through the many genres and centuries where it is found. Horse-shoes and Horse-shoeing George Fleming 1869 [origin, history, uses, and abuses] The Medieval Saga Carol J. Clover 2019-03-15 Written in the thirteenth century, the Icelandic prose sagas, chronicling the lives of kings and commoners, give a dramatic account of the first century after the settlement of Iceland—the period from about 930 to 1050. To some extent these elaborate tales are written versions of traditional sagas passed down by word of mouth. How did they become the long and polished literary works that are still read today? The evolution of the written sagas is commonly regarded as an anomalous phenomenon, distinct from contemporary developments in European literature. In this groundbreaking study, Carol J. Clover challenges this view and relates the rise of imaginative prose in Iceland directly to the rise of imaginative prose on the Continent. Analyzing the narrative structure and composition of the sagas and comparing them with other medieval works, Clover shows that the Icelandic authors, using Continental models, owe the prose form of their writings, as well as some basic narrative strategies, to Latin historiography and to French romance. The Arts: World Themes Geraldine Nagle 1995-01-01 A fresh approach to the interdisciplinary humanities course that takes a strong multicultural approach to the visual and performing arts. Organized thematically, the text covers painting, printmaking, sculpture, camera arts, architecture, music, and drama. History is taught from the perspective of the individual - artists come alive as students discover the artists' backgrounds and where they fit in the social history and cultural context. The text builds an appreciation for the language of the arts with discussion of techniques, vocabulary, and definitions. Poetry and Philosophy from Homer to Rousseau Simon Haines 2004-11-23 This accessible and jargon-free book features readings of over 20 key texts and authors in Western poetry and philosophy, including Homer, Plato, Boccaccio, Dante, Chaucer, Shakespeare and Rousseau. Simon Haines presents a thought-provoking and theoretically aware account of Western literature and philosophy, arguing that the history of both can be seen as a struggle between two different conceptions of the self: the 'romantic' (or dualistic) vs the 'realist' or 'extended'.
