PTSD Compensation and Military Service National Research Council 2007-08-25
The scars of war take many forms: the limb lost, the illness brought on by a battlefield exposure, and, for some, the psychological toll of encountering an extremely traumatic event. PTSD Compensation and Military Service presents a thorough assessment of how the U.S. Department of Veterans Affairs evaluates veterans with possible posttraumatic stress disorder and determines the level of disability resulting from their PTSD.
Recognizing that no single compensation system fits all organizations, the authors provide a systematic framework for identifying and designing a compensation system that will add value to an organization and meet its overall goals. While other resources focus on the behavioural principles in compensation or the technical details of compensation, Strategic Compensation in Canada goes beyond and includes a balanced, comprehensive, and integrated presentation of strategic, behavioural, and technical principles. Our inclusion of the strategic aspects, along with the behavioral and technical, provides students with a fuller approach, ensuring a better understanding of all aspects when creating effective compensation systems.
