I Capture the Castle Dodie Smith 2017-10-10 “Every time I meet someone who also loves I Capture the Castle, I know we must be kindred spirits.” —from the new foreword by Jenny Han, the New York Times bestselling author of To All the Boys I’ve Loved Before. A beautiful, deluxe edition of Dodie Smith’s beloved novel, I Capture the Castle, featuring a new foreword by New York Times bestselling author Jenny Han, a stunning new cover, and designed endpapers that is perfect for devoted readers and those discovering this timeless story for the first time. Seventeen-year-old Cassandra Mortmain and her family may live in a ramshackle old English castle, but that’s about as romantic as her life gets. While her beautiful older sister, Rose, longs to live in a Jane Austen novel, Cassandra knows that meeting an eligible man to marry isn’t in either of their futures when their home is crumbling and they have to sell their furniture for food. So Cassandra instead strives to hone her writing skills in her journals. Until one day when their new landlords move in, which include two (very handsome) sons, and the lives of the Mortmain sisters change forever. Through Cassandra’s sharply funny, yet poignant, journal entries, she chronicles the great changes that take place within the castle’s walls, and her own first descent into love. By the time she pens her final entry, she has “captured the castle” – and the heart of the reader – in one of literature’s most enchanting novels. “This book has one of the most charismatic narrators I’ve ever met.” —J.K. Rowling,
bestselling author of the Harry Potter series

**Surfactants in Solution** K.L. Mittal 2012-12-06 This and its companion Volumes 4 and 5 document the proceedings of the 5th International Symposium on Surfactants in Solution held in Bordeaux, France, July 9-13, 1984. This symposium was the continuation of the series of symposia initiated in 1976 in Albany, New York under the title "icellization, Solubilization and "icroemulsions”. The next two symposia were labelled "Solution Chemistry of Surfactants" and "Solution Behavior of Surfactants: Theoretical and Applied Aspects" held in Knoxville, TN in 1978 and Potsdam, N. V. in 1980, respectively. In 1982 at the time of the 4th Symposium in this series, it became amply evident that there was a definite need to have more a generic title to describe these biennial events, and after much deliberation it was decided that an appropriate title would be “Surfactants in Solution” as both the aggregation and adsorption aspects of surfactants were addressed. So the 4th Symposium was held in 1982 in Lund, Sweden, under this new rubric, and it was decided to continue these symposia in the future under this appellation. Naturally, the Bordeaux Symposium was dubbed as the 5th International Symposium on Surfactants in Solution, and our logo became SIS which is very apropos and appealing. It was in Bordeaux that the decision was made to hold the 6th SIS Symposium in New Delhi and it is scheduled for August 18-22, 1986 in the capital of India.
