facts. It is, he argues, far superior to art, where much of the knowledge is intangible and assumed. In The Scientific Outlook, Russell delivers one of his most important books on philosophy.

Mike and the Bike is a book for beginning readers that shows how young people can overcome their fears—step by step, with the right techniques and the right support. It is a story about using the power of thought and imagination to conquer your fears. This is the power of positive thinking. It is the power of positive visualization. It is the power of positive action.

The Problem of God and Other Essays on Religion and Related Subjects (Dover Books on Western Philosophy) (English Edition)

The Physicist's Guide to the Bible

Mike and the Bike by Alyssa Satin Capucilli is a story about a boy who learns how to overcome his fears. He learns how to think positively and how to overcome the power of negative thoughts. It is a story about how to overcome fear and how to live a happy life.
