21 Lessons for the 21st Century Yuval Noah Harari 2019-01-29 #1 NEW YORK TIMES BESTSELLER • In Sapiens, he explored our past. In Homo Deus, he looked to our future. Now, one of the most innovative thinkers
on the planet turns to the present to make sense of today’s most pressing issues. “Fascinating . . . a crucial global conversation about how to take on the problems of the twenty-first century.”—Bill Gates, The New York Times Book Review NAMED ONE OF THE BEST BOOKS OF THE YEAR BY FINANCIAL TIMES AND PAMELA PAUL, KQED How do computers and robots change the meaning of being human? How do we deal with the epidemic of fake news? Are nations and religions still relevant? What should we teach our children? Yuval Noah Harari’s 21 Lessons for the 21st Century is a probing and visionary investigation into today’s most urgent issues as we move into the uncharted territory of the future. As technology advances faster than our understanding of it, hacking becomes a tactic of war, and the world feels more polarized than ever, Harari addresses the challenge of navigating life in the face of constant and disorienting change and raises the important questions we need to ask ourselves in order to survive. In twenty-one accessible chapters that are both provocative and profound, Harari builds on the ideas explored in his previous books, untangling political, technological, social, and existential issues and offering advice on how to prepare for a very different future from the world we now live in: How can we retain freedom of choice when Big Data is watching us? What will the future workforce look like, and how should we ready ourselves for it? How should we deal with the threat of terrorism? Why is liberal democracy in crisis? Harari’s unique ability to make sense of where we have come from and where we are going has captured the imaginations of millions of readers. Here he invites us to consider values, meaning, and personal engagement in a world full of noise and uncertainty. When we are deluged with irrelevant information, clarity is power. Presenting complex contemporary challenges clearly and accessibly, 21 Lessons for the 21st Century is essential reading. “If there were such a thing as a required instruction manual for politicians and thought leaders, Israeli historian Yuval Noah Harari’s 21 Lessons for the 21st Century would deserve serious consideration. In this collection of provocative essays, Harari . . . tackles a daunting array of issues, endeavoring to answer a persistent question: ‘What is happening in the world today, and what is the deep meaning of these events?’”—BookPage (top pick)

International Research on Multilingualism: Breaking with the Monolingual Perspective  Eva Vetter 2019-10-22 This volume contributes to a better understanding of both psycho- and sociolinguistic levels of multilingualism and their interplay in development and use. The chapters stem from an international group of specialists in multilingualism with...
chapters from Austria, Canada, Germany, Hungary, Israel, Italy, Slovakia, South Africa, Spain and the United States. The chapters provide an update on research on third language acquisition and multilingualism, and pay particular attention to new research concepts and the exploration of contact phenomena such as transfer and language learning strategies in diverse language contact scenarios. Concepts covered include dominant language constellations, mother tongue, germination factors and communicative competence in national contexts. Multilingual use as described and applied in the volume aims at demonstrating and identifying current and future challenges for research on third language acquisition and multilingualism. The third languages in focus include widely and less widely used official, minority and migrant languages in instructed and/or natural contexts, including Albanian, Arabic, Basque, English, French, German, Hungarian, Italian, Romanian, Spanish, Punjabi, Russian, Turkish, and Vietnamese, thereby mapping a high variety of language constellations.

**Earwig and the Witch**
Diana Wynne Jones 2012-01-31 "I would like to declare Diana Wynne Jones an international treasure," proclaimed Neil Gaiman, Newbery Medalist and best-selling author. In this enchanting introduction to Diana Wynne Jones's magical and funny work, Earwig is a fearless young orphan. When she finds herself in a house of dark magic, she does whatever she can to adapt—especially if it means that she'll learn a little magic herself! A young middle grade novel by World Fantasy Award for Lifetime Achievement—winner Diana Wynne Jones, beautifully illustrated in black and white by Caldecott Medalist Paul O. Zelinsky. Not every orphan would love living at St. Morwald's Home for Children, but Earwig does. She gets whatever she wants, whenever she wants it, and it's been that way since she was dropped on the orphanage doorstep as a baby. But all that changes the day Bella Yaga and the Mandrake come to St. Morwald's, disguised as foster parents. Earwig is whisked off to their mysterious house full of invisible rooms, potions, and spell books, with magic around every corner. Most children would run in terror from a house like that . . . but not Earwig. Using her own cleverness—with a lot of help from a talking cat—she decides to show the witch who's boss.

Algebra in the Early Grades

James J. Kaput 2017-09-25

This volume is the first to offer a comprehensive, research-based, multi-faceted look at issues in early algebra. In recent years, the National Council for Teachers of Mathematics has recommended that algebra become a strand flowing throughout the K-12 curriculum, and the 2003 RAND Mathematics Study Panel has recommended that algebra be “the initial topical choice for focused and coordinated research and development [in K-12 mathematics].” This book provides a rationale for a stronger and more sustained approach to algebra in school, as well as concrete examples of how algebraic reasoning may be developed in the early grades. It is organized around three themes: The Nature of Early Algebra Students’ Capacity for Algebraic Thinking Issues of Implementation: Taking Early Algebra to the Classrooms. The contributors to this landmark volume have been at the forefront of an effort to integrate algebra into the existing early grades mathematics curriculum. They include scholars who have been developing the conceptual foundations for such changes as well as researchers and developers who have led empirical investigations in school settings. Algebra in the Early Grades aims to bridge the worlds of research, practice, design, and theory for educators, researchers, students, policy makers, and curriculum developers in mathematics education.

Community, Solidarity and Multilingualism in a Transnational Social Movement

Maria Rosa Garrido Sardà 2020-09-02

Community, solidarity and multilingualism in a transnational social movement presents a critical sociolinguistic ethnography of the Emmaus movement that analyses linguistic and discursive practices in two local communities in order to provide insight into solidarity discourses and transnational communication more broadly. Integrating perspectives from a range of disciplines, the monograph seeks to understand the ways in which social movements are maintained across disparate communities grounded in shared cultural referents and communicative practices but not necessarily a shared language. The book focuses on Emmaus, the solidarity movement that emerged in post-war France which brings formerly marginalised people together with others looking for an alternative lifestyle into live-in communities dedicated to recycling work and social projects. The book first offers a historical overview of the Emmaus movement more generally, moving into an account of its development and spread across national and linguistic borders. The volume draws on data from two Emmaus communities in Barcelona and London to analyse the everyday communicative and discursive practices that appropriate and resignify the shared transnational movement ideas in different socio-political, economic, historical and linguistic contexts. Community, solidarity and multilingualism in a transnational social movement considers the social implications of local practices on the situated (re)production and evolution of transnational social movements more generally and will be of particular interest to students and
researchers in sociolinguistics, linguistic anthropology, discourse studies, cultural studies, and sociology.

The Chicano Latino Literary Prize Stephanie Fetta 2008-01-01 ñDavid is mine!î Mrs. Renteria shouts out to her neighbors gathered about the dead but handsome young man found in the dry riverbed next to their homes in a Los Angeles barrio. ñDavid?î Tiburcio asked. ñSince when is his name David? He looks to me more like a [í Tiburcio glanced at the manÍs face, ñ[] a Luis.î Mrs. RenteriaÍs neighbors call out a litany of names that better suit the mysterious corpse: Roberto, Antonio, Henry, Enrique, Miguel, Roy, Rafael. The very first winner of the Chicano / Latino Literary Prize in 1974, Ron AriasÍ ñThe Wetbackî uses dark humor to reflect on the appearance of a dead brown man in their midst. This landmark collection of prize-winning fiction, poetry, and drama paints a historical and aesthetic panorama of Chicana/o and Latina/o letters over a twenty-five-year period beginning in 1974 and ending in 1999. Most, but not all, of the winning entries are featured in this anthology, which also includes second- and third-place winners, as well as honorable mentions. Now entering its thirty-first year, the award has recognized a wide variety of writers, from established ones such as Juan Felipe Herrera, Michael Nava, and Helena Maria Viramontes, to those that are lesser known. Many of the pieces in this anthology are considered to be foundational texts of Chicana/o and Latina/o literature, and those that are not as widely recognized deserve more serious study and attention. Presented in chronological order, the selected writings are primarily in English, although some are written in Spanish, and others in Spanglish. Some, like Francisco X. AlarconÍs poem ñRaices / Roots,î appear in both languages: ñMis raices / las cargo / siempre / conmigo / enrolladas / me sirven / de almohada.î ñI carry / my roots / with me / all the time / rolled up / I use them / as my pillow.î In addition to the diverse array of authors, styles, and genres, the works included in this collection cover a wide range of themes, from more political issues of ethnic, gender, and class.
