Forms of Modernity Rachel Schmidt 2011 It's a critical cliche that Cervantes' Don Quixote is the first modern novel, but this distinction raises two fundamental questions. First, how does one define a novel? And second, what is the relationship between this genre and understandings of modernity? In Forms of Modernity, Rachel Schmidt examines how seminal theorists and philosophers have wrestled with the status of Cervantes' masterpiece as an 'exemplary novel', in turn contributing to the emergence of key concepts within genre theory. Schmidt's discussion covers the views of well-known thinkers such as Friedrich Schlegel, José Ortega y Gasset, and Mikhail Bakhtin, but also the pivotal contributions of philosophers such as Hermann Cohen and Miguel de Unamuno. These theorists' examinations of Cervantes' fictional knight errant character point to an ever-shifting boundary between the real and the virtual. Drawing from both intellectual and literary history, Forms of Modernity richly explores the development of the categories and theories that we use today to analyze and understand novels.

21 Lessons for the 21st Century

Yuval Noah Harari

2019-01-29

#1 NEW YORK TIMES BESTSELLER • In Sapiens, he explored our past. In Homo Deus, he looked to our future. Now, one of the most innovative thinkers on the planet turns to the present to make sense of today’s most pressing issues. “Fascinating . . . a crucial global conversation about how to take on the problems of the twenty-first century.”—Bill Gates, The New York Times Book Review

NAMED ONE OF THE BEST BOOKS OF THE YEAR BY FINANCIAL TIMES AND PAMELA PAUL, KQED

How do computers and robots change the meaning of being human? How do we deal with the epidemic of fake news? Are
nations and religions still relevant? What should we teach our children? Yuval Noah Harari’s 21 Lessons for the 21st Century is a probing and visionary investigation into today’s most urgent issues as we move into the uncharted territory of the future. As technology advances faster than our understanding of it, hacking becomes a tactic of war, and the world feels more polarized than ever, Harari addresses the challenge of navigating life in the face of constant and disorienting change and raises the important questions we need to ask ourselves in order to survive. In twenty-one accessible chapters that are both provocative and profound, Harari builds on the ideas explored in his previous books, untangling political, technological, social, and existential issues and offering advice on how to prepare for a very different future from the world we now live in: How can we retain freedom of choice when Big Data is watching us? What will the future workforce look like, and how should we ready ourselves for it? How should we deal with the threat of terrorism? Why is liberal democracy in crisis? Harari’s unique ability to make sense of where we have come from and where we are going has captured the imaginations of millions of readers. Here he invites us to consider values, meaning, and personal engagement in a world full of noise and uncertainty. When we are deluged with irrelevant information, clarity is power. Presenting complex contemporary challenges clearly and accessibly, 21 Lessons for the 21st Century is essential reading.

“If there were such a thing as a required instruction manual for politicians and thought leaders, Israeli historian Yuval Noah Harari’s 21 Lessons for the 21st Century would deserve serious consideration. In this collection of provocative essays, Harari . . . tackles a daunting array of issues, endeavoring to answer a persistent question: ‘What is happening in the world today, and what is the deep meaning of these events?’”—BookPage (top pick)

Community, Solidarity and Multilingualism in a Transnational Social Movement Maria Rosa Garrido Sardà 2020-09-02 Community, solidarity and multilingualism in a transnational social movement presents a critical sociolinguistic ethnography of the Emmaus movement that analyses linguistic and discursive practices in two local communities in order to provide insight into solidarity discourses and transnational communication more broadly. Integrating perspectives from a range of disciplines, the monograph seeks to understand the ways in which social movements are maintained across disparate communities grounded in shared cultural referents and communicative practices but not necessarily a shared language. The book focuses on Emmaus, the solidarity movement that emerged in post-war
France which brings formerly marginalised people together with others looking for an alternative lifestyle into live-in communities dedicated to recycling work and social projects. The book first offers a historical overview of the Emmaus movement more generally, moving into an account of its development and spread across national and linguistic borders. The volume draws on data from two Emmaus communities in Barcelona and London to analyse the everyday communicative and discursive practices that appropriate and resignify the shared transnational movement ideas in different socio-political, economic, historical and linguistic contexts. Community, solidarity and multilingualism in a transnational social movement considers the social implications of local practices on the situated (re)production and evolution of transnational social movements more generally and will be of particular interest to students and researchers in sociolinguistics, linguistic anthropology, discourse studies, cultural studies, and sociology.

**International Research on Multilingualism: Breaking with the Monolingual Perspective** Eva Vetter 2019-10-22 This volume contributes to a better understanding of both psycho- and sociolinguistic levels of multilingualism and their interplay in development and use. The chapters stem from an international group of specialists in multilingualism with chapters from Austria, Canada, Germany, Hungary, Israel, Italy, Slovakia, South Africa, Spain and the United States. The chapters provide an update on research on third language acquisition and multilingualism, and pay particular attention to new research concepts and the exploration of contact phenomena such as transfer and language learning strategies in diverse language contact scenarios. Concepts covered include dominant language constellations, mother tongue, germination factors and communicative competence in national contexts. Multilingual use as described and applied in the volume aims at demonstrating and identifying current and future challenges for research on third language acquisition and multilingualism. The third languages in focus include widely and less widely used official, minority and migrant languages in instructed and/or natural contexts, including Albanian, Arabic, Basque, English, French, German, Hungarian, Italian, Romanian, Spanish, Punjabi, Russian, Turkish, and Vietnamese, thereby mapping a high variety of language constellations.

The very first winner of the Chicano / Latino Literary Prize in 1974, Ron AriasÍ ñThe Wetbackî uses dark humor to reflect on the appearance of a dead brown man in their midst. This landmark collection of prize-winning fiction, poetry, and drama paints a historical and aesthetic panorama of Chicana/o and Latina/o letters over a twenty-five-year period beginning in 1974 and ending in 1999. Most, but not all, of the winning entries are featured in this anthology, which also includes second- and third-place winners, as well as honorable mentions. Now entering its thirty-first year, the award has recognized a wide variety of writers, from established ones such as Juan Felipe Herrera, Michael Nava, and Helena Maria Viramontes, to those that are lesser known. Many of the pieces in this anthology are considered to be foundational texts of Chicana/o and Latina/o literature, and those that are not as widely recognized deserve more serious study and attention. Presented in chronological order, the selected writings are primarily in English, although some are written in Spanish, and others in Spanglish. Some, like Francisco X. Alarconís poem ñRaices / Roots,î appear in both languages: ñMis raices / las cargo / siempre / conmigo / enrolladas / me sirven / de almohada.î ñI carry / my roots / with me / all the time / rolled up / I use them / as my pillow.î In addition to the diverse array of authors, styles, and genres, the works included in this collection cover a wide range of themes, from more political issues of ethnic, gender, and class.
