I read Little Fires Everywhere in a single, breathless sitting. —Jodi Picoult

To say I love this book is an understatement. It's a deep psychological mystery about the workplace contexts, and provides reviews of twelve mathematics curricula, and eleven for science or an integration of science and math and/or technology education. Learning, Richard Sutton and Andrew Barto provide a clear and simple account of the field's key ideas and algorithms. This second edition has been significantly expanded.

The Absolutely True Diary of a Part-Time Indian

Heartbreaking, funny, and beautifully written, The Absolutely True Diary of a Part-Time Indian, which is based on the author's own experiences, coupled with poignant drawings by Ellen Forney that reflect the character's art, chronicles the contemporary adolescence of one Native American boy as he struggles with family relationships and the authority at school.
