The questions analysed in this book are all based on past STEP questions and each question is followed by a comment and a full solution. The comments direct the reader’s attention to aspects of the mathematics that are not immediately obvious from the question. The solutions show the reader how to answer well-prepared candidates in obtaining full marks.

The authors wish to thank the team at Cambridge University Press for all their help and support in producing this book. They would also like to thank the examiners for their comments that were so helpful in preparing the final version of the book. The authors are grateful to the following people for their help in preparing the final version of the book: Dr. Andrew Chirico, Dr. Ian Jubb, Dr. Nick Jupp, Dr. John Lennard, Dr. Simon Read, and Dr. David Wood. The authors are also grateful to the following people for their help in preparing the final version of the book: Dr. Andrew Chirico, Dr. Ian Jubb, Dr. Nick Jupp, Dr. John Lennard, Dr. Simon Read, and Dr. David Wood.
