Slave Portraiture in the Atlantic

World Agnes Lugo-Ortiz

2013-09-30 Slave Portraiture in

the Atlantic World is the first

book to focus on the

individualized portrayal of

enslaved people from the time

of Europe's full engagement

with plantation slavery in the

late sixteenth century to its final

official abolition in Brazil in

1888. While this period saw the

emergence of portraiture as a

major field of representation in

Western art, 'slave' and

'portraiture' as categories

appear to be mutually exclusive.

On the one hand, the logic of

chattel slavery sought to render

the slave's body as an

instrument for production, as

the site of a non-subject.

Portraiture, on the contrary,

privileged the face as the

primary visual matrix for the

representation of a distinct

individuality. Essays address

this apparent paradox of 'slave

portraits' from a variety of

interdisciplinary perspectives,

probing the historical conditions

that made the creation of such

rare and enigmatic objects

possible and exploring their implications for a more complex understanding of power relations under slavery.

Participation Claire Bishop 2006 Part of the acclaimed 'Documents of Contemporary Art' series of anthologies. This title explores the desire to move viewers out of the role of passive observers and into the role of producers. *Participation* begins with writings that provide a theoretical framework for relational art, with essays by Umberto Eco, Roland Barthes, Peter Bürger, Jean-Luc Nancy, Edouard Glissant, Félix Guattari, as well as the first translation into English of Jacques Rancière's influential

'Problems and Transformations in Critical Art'. This anthology also includes central writings by such artists as Lygia Clark and Hélio Oiticica, Joseph Beuys, Felix Gonzalez-Torres, Thomas Hirschhorn, Rirkrit Tiravanija, and features recent critical and curatorial debates, with discussions by Lars Bang Larsen, Nicolas Bourriaud, Hal Foster and Hans-Ulrich Obrist. [The Devil Has Tattoos](#) Destiny Ford 2020-01-27 The leaves are falling, the Halloween carnival is in full swing, and someone is robbing the residents of Branson Falls, Utah. There is no rhyme or reason to the crimes, but after an elderly widow is targeted,

the town is up in arms—literally, and everyone is pointing fingers straight at the owners of the new tattoo shop, Inked AF. Branson Tribune editor, Kate Saxee, isn't sure who is to blame, but she's not willing to let an angry mob run the tattoo shop out of town without investigating—and she's not the only one with questions that need answers. Drake and Hawke, both serious relationship material, are very interested in why Kate has been avoiding them for weeks. Kate's love life and the robberies aren't the only things on Kate's plate. She's also being stalked by a costume-wearing gang, helping Ella with her new online

auction hobby, failing to avoid The Ladies, and trying to manage her mom's most recent antics involving an angry goat named Humperdinck. Between all the chaos, Kate discovers there is more to the robberies than meets the eye, and if she doesn't figure it all out fast, someone might end up dead AF.

Jane Eyre Charlotte Bronte
2021-01-07 Primarily of the bildungsroman genre, Jane Eyre follows the emotions and experiences of its title character, including her growth to adulthood, and her love for Mr. Rochester, the byronic master of fictitious Thornfield Hall. In its internalisation of the

action--the focus is on the gradual unfolding of Jane's moral and spiritual sensibility, and all the events are coloured by a heightened intensity that was previously the domain of poetry--Jane Eyre revolutionised the art of fiction. Charlotte Brontë has been called the 'first historian of the private consciousness' and the literary ancestor of writers like Joyce and Proust. The novel contains elements of social criticism, with a strong sense of morality at its core, but is nonetheless a novel many consider ahead of its time given the individualistic character of Jane and the novel's exploration of classism, sexuality, religion, and proto-

feminism.

Emergent Strategy adrienne maree brown 2017-03-20 In the tradition of Octavia Butler, here is radical self-help, society-help, and planet-help to shape the futures we want. Change is constant. The world, our bodies, and our minds are in a constant state of flux. They are a stream of ever-mutating, emergent patterns. Rather than steel ourselves against such change, **Emergent Strategy** teaches us to map and assess the swirling structures and to read them as they happen, all the better to shape that which ultimately shapes us, personally and

politically. A resolutely materialist spirituality based equally on science and science fiction: a wild feminist and afro-futurist ride! adrienne maree brown, co-editor of Octavia's Brood: Science Fiction from Social Justice Movements, is a social justice facilitator, healer, and doula living in Detroit.

Archangel's Shadows Nalini Singh 2014-10-28 NEVER BEFORE PUBLISHED AN ALL-NEW GUILD HUNTER NOVEL

the choices of love that can shatter the heart. In the wake of a brutal war, the archangel Raphael and his hunter consort, Elena, are dealing with the treacherously shifting tides of archangelic politics and the people of a battered but not broken city. The last thing their city needs is more death, especially a death that bears the eerie signature of an insane enemy archangel who cannot—should not—be walking the streets. This hunt must be undertaken with stealth and without alerting their people. It must be handled by those who can become shadows themselves... Ash is a gifted tracker and a woman cursed

with the ability to sense the secrets of anyone she touches. But there's one man she knows all too well without a single instant of skin contact: Janvier, the dangerously sexy Cajun vampire who has fascinated and infuriated her for years. Now, as they track down a merciless killer, their cat-and-mouse game of flirtation and provocation has turned into a profound one of the heart. And this time, it is Ash's secret, dark and terrible, that threatens to destroy them both.

Inherit the Holy Mountain Mark Stoll 2017-09-15 In *Inherit the Holy Mountain*, historian Mark R. Stoll introduces us to the religious roots of the American

environmental movement. Religion, he shows, provided environmentalists both with deeply-embedded moral and cultural ways of viewing the world and with content, direction, and tone for the causes they espoused. Stoll discovers that specific denominational origins corresponded with characteristic sets of ideas about nature and the environment as well as distinctive aesthetic reactions to nature, as revealed by key works of art analyzed throughout the book. As this innovative exploration of environmentalism's history shows, people raised in a handful of denominations made

the movement a moral and political force. Stoll also provides insight into the possible future of environmentalism in the United States, concluding with an examination of the current religious scene and what it portends for the future. By debunking the supposed divide between religion and American environmentalism, *Inherit the Holy Mountain* opens up a fundamentally new narrative in environmental studies. -- from dust jacket.

Reading Darwin in Arabic,

1860-1950 Marwa Elshakry

2014-01-06 In Reading Darwin

in Arabic, Marwa Elshakry

questions current ideas about

Islam, science, and secularism

by exploring the ways in which

Darwin was read in Arabic from

the late 1860s to the mid-

twentieth century. Borrowing

from translation and reading

studies and weaving together

the history of science with

intellectual history, she explores

Darwin's global appeal from the

perspective of several

generations of Arabic readers

and shows how Darwin's

writings helped alter the social

and epistemological landscape

of the Arab learned classes.

Providing a close textual,

political, and institutional

analysis of the tremendous

interest in Darwin's ideas and

other works on evolution,

Elshakry shows how, in an age

of massive regional and

international political upheaval,

these readings were suffused

with the anxieties of empire and

civilizational decline. The

politics of evolution infiltrated

Arabic discussions of pedagogy,

progress, and the very sense of

history. They also led to a

literary and conceptual

transformation of notions of

science and religion

themselves. Darwin thus

became a vehicle for discussing

scriptural exegesis, the conditions of belief, and cosmological views more broadly. The book also acquaints readers with Muslim and Christian intellectuals, bureaucrats, and theologians, and concludes by exploring Darwin's waning influence on public and intellectual life in the Arab world after World War I. Reading Darwin in Arabic is an engaging and powerfully argued reconceptualization of the intellectual and political history of the Middle East.

Wounds of Love Frank Graziano 2004 St. Rose of Lima (Isabel Flores y Oliva, 1586-1617) was canonized in 1671 as the first saint of the New World and

Patron of the Americas. In this engrossing new biography, Frank Graziano offers the most comprehensive examination of the life of Rose to appear in any language. An obscure, self-mortifying mystic, Rose seems a strange choice for the distinction of first American saint. Graziano argues that the cult that grew up around St. Rose during her life and greatly expanded after her death was seen by both Church and State as a challenge and even a threat to authority. For that reason, he contends, the Church acted quickly to render her harmless by "bringing her into the fold." Graziano goes on to consider Rose's ascetic

Christianity in its cultural context. He seeks to discover why the severe austerities and mortifications of female piety that today are regarded as psychopathological were lauded as exemplary means of worship in the seventeenth century. In fact, he shows, St.; Rose's behavior and experiences were initially regarded as pathological by many significant observers within her own culture, but such assessments were gradually dismissed as her saintly image was constructed. Drawing on key archival sources and the insights offered by psychoanalytic theory, Graziano constructs a compelling portrait of one of the Catholic Church's

most beloved saints.

Brooklyn Colm Toibin

2010-04-06 It is Enniscorthy in the southeast of Ireland in the early 1950s. Eilis Lacey is one among many of her generation who cannot find work at home. Thus when a job is offered in America, it is clear to everyone that she must go. Leaving her family and country, Eilis heads for unfamiliar Brooklyn, and to a crowded boarding house where the landlady's intense scrutiny and the small jealousies of her fellow residents only deepen her isolation. Slowly, however, the pain of parting is buried beneath the rhythms of her new life – until she begins to realize that she has found a sort of

happiness. As she falls in love, news comes from home that forces her back to Enniscorthy, not to the constrictions of her old life, but to new possibilities which conflict deeply with the life she has left behind in Brooklyn. In the quiet character of Eilis Lacey, Colm Tóibín has created one of fiction's most memorable heroines and in Brooklyn, a luminous novel of devastating power. Tóibín demonstrates once again his astonishing range and that he is a true master of nuanced prose, emotional depth, and narrative virtuosity.

Time Travels Elizabeth Grosz
2005-06-22 Recently the
distinguished feminist theorist

Elizabeth Grosz has turned her critical acumen toward rethinking time and duration. *Time Travels* brings her trailblazing essays together to show how reconceptualizing temporality transforms and revitalizes key scholarly and political projects. In these essays, Grosz demonstrates how imagining different relations between the past, present, and future alters understandings of social and scientific projects ranging from theories of justice to evolutionary biology, and she explores the radical implications of the reordering of these projects for feminist, queer, and critical race theories. Grosz's reflections on how rethinking

time might generate new understandings of nature, culture, subjectivity, and politics are wide ranging. She moves from a compelling argument that Charles Darwin's notion of biological and cultural evolution can potentially benefit feminist, queer, and antiracist agendas to an exploration of modern jurisprudence's reliance on the notion that justice is only immanent in the future and thus is always beyond reach. She examines Henri Bergson's philosophy of duration in light of the writings of Gilles Deleuze, Maurice Merleau-Ponty, and William James, and she discusses issues of sexual difference, identity, pleasure,

and desire in relation to the thought of Deleuze, Friedrich Nietzsche, Michel Foucault, and Luce Irigaray. Together these essays demonstrate the broad scope and applicability of Grosz's thinking about time as an undertheorized but uniquely productive force.

explores the political and social ramifications of visual imagery for women of color, and the political consciousness that can emerge alongside a critical understanding of the impact of visual imagery. The book begins with a general exploration of what it means to develop a women of color criticism (rather than an analysis of women of color), and goes on to look specifically at topics such as 90s fashion advertisements, the politics of cosmetic surgery, and female fans of East LA rock bands.

Why Do We Quote? Ruth Finnegan 2011-03-01 Quoting is all around us. But do we really know what it means? How do people actually quote today, and how did our present systems come about? This book brings together a down-to-earth account of contemporary quoting with an examination of

the comparative and historical background that lies behind it and the characteristic way that quoting links past and present, the far and the near. Drawing from anthropology, cultural history, folklore, cultural studies, sociolinguistics, literary studies and the ethnography of speaking, Ruth Finnegan 's fascinating study sets our present conventions into crosscultural and historical perspective. She traces the curious history of quotation marks, examines the long tradition of quotation collections with their remarkable recycling across the centuries, and explores the uses of quotation in literary, visual and oral

traditions. The book tracks the changing definitions and control of quoting over the millennia and in doing so throws new light on ideas such as imitation, allusion, authorship, originality and plagiarism .

The Secret Teachings of All Ages is perhaps the most comprehensive and complete esoteric encyclopedia ever written. The sheer scope and ambition of this book are stunning. In this book Manly P. Hall has successfully distilled the essence of more arcane subjects than one would think possible. This book explores the themes underlying ancient mythology, philosophy, and religion. Unrivaled in its beauty and completeness, it distills ancient and modern teachings of nearly 600 experts.

Logical Reasoning Bradley Harris Dowden 1993 This book is designed to engage students' interest and promote their

writing abilities while teaching them to think critically and creatively. Dowden takes an activist stance on critical thinking, asking students to create and revise arguments rather than simply recognizing and criticizing them. His book emphasizes inductive reasoning and the analysis of individual claims in the beginning, leaving deductive arguments for consideration later in the course.

Space Is the Place John Szwed 2020-04-30 Considered by many to be a founder of Afrofuturism, Sun Ra—aka Herman Blount—was a composer, keyboardist, bandleader, philosopher, entrepreneur, poet, and self-proclaimed extraterrestrial from Saturn. He recorded over 200 albums with his Arkestra, which, dressed in Egypto-space costumes, played everything from boogie-woogie and swing to fusion and free jazz. John

Szwed's *Space is the Place* is the definitive biography of this musical polymath, who was one of the twentieth century's greatest avant-garde artists and intellectuals. Charting the whole of Sun Ra's life and career, Szwed outlines how after years in Chicago as a blues and swing band pianist, Sun Ra set out in the 1950s to impart his views about the galaxy, black people, and spiritual matters by performing music with the Arkestra that was as vital and innovative as it was mercurial and confounding. Szwed's readers—whether they are just discovering Sun Ra or are among the legion of poets, artists, intellectuals, and

musicians who consider him a spiritual godfather—will find that, indeed, space is the place.

Critique of Black Reason Achille Mbembe 2017-02-17 In *Critique of Black Reason* eminent critic Achille Mbembe offers a capacious genealogy of the category of Blackness—from the Atlantic slave trade to the present—to critically reevaluate

history, racism, and the future of humanity. Mbembe teases out the intellectual consequences of the reality that Europe is no longer the world's center of gravity while mapping the relations among colonialism, slavery, and contemporary financial and extractive capital. Tracing the conjunction of Blackness with the biological fiction of race, he theorizes Black reason as the collection of discourses and practices that equated Blackness with the nonhuman in order to uphold forms of oppression. Mbembe powerfully argues that this equation of Blackness with the nonhuman will serve as the template for all new forms of

exclusion. With Critique of Black Reason, Mbembe offers nothing less than a map of the world as it has been constituted through colonialism and racial thinking while providing the first glimpses of a more just future.

Intercourse Andrea Dworkin 2009-09-17 Intercourse is a book that moves through the sexed world of dominance and submission. It moves in descending circles, not in a straight line, and as in a vortex each spiral goes down deeper. Its formal model is Dante's *Inferno*; its lyrical debt is to

Rimbaud; the equality it envisions is rooted in the dreams of women, silent generations, pioneer voices, lone rebels, and masses who agitated, demanded, cried out, broke laws, and even begged. The begging was a substitute for retaliatory violence: doing bodily harm back to those who use or injure you. I want women to be done with begging. The public censure of women as if we are rabid because we speak without apology about the world in which we live is a strategy of threat that usually works. Men often react to women's words - speaking and writing - as if they were acts of violence; sometimes men react to

women's words with violence.
So we lower our voices.
Women whisper. Women
apologize. Women shut up.
Women trivialize what we know.
Women shrink. Women pull
back. Most women have
experienced enough dominance
from men - control, violence,
insult, contempt - that no threat
seems empty. Intercourse does
not say, forgive me and love
me. It does not say, I forgive
you, I love you. For a woman
writer to thrive (or, arguably, to
survive) in these current hard
times, forgiveness and love
must be subtext. No. I say no.
Intercourse is search and
assertion, passion and fury; and
its form - no less than its

content - deserves critical
scrutiny and respect.----

The Phoenix Joseph Nigg 2016-11-04 An "insightful cultural history of the mythical, self-immolating bird" from Ancient Egypt to contemporary pop culture by the author of The Book of Gryphons (Library Journal). The phoenix, which rises again and again from its own ashes, has been a symbol of resilience and renewal for thousands of years. But how did this mythical bird come to play a part in cultures around the world and throughout human history? Here, mythologist Joseph Nigg presents a comprehensive biography of

this legendary creature. Beginning in ancient Egypt, Nigg's sweeping narrative discusses the many myths and representations of the phoenix, including legends of the Chinese, where it was considered a sacred creature that presided over China's destiny; classical Greece and Rome, where it appears in the writings of Herodotus and Ovid; medieval Christianity, in which it came to embody the resurrection; and in Europe during the Renaissance, when it

was a popular emblem of royals. Nigg examines the various phoenix traditions, the beliefs and tales associated with them, their symbolic and metaphoric use, and their appearance in religion, bestiaries, and even contemporary popular culture, in which the ageless bird of renewal is employed as a mascot and logo.
