Emergent Strategy adrienne maree brown 2017-03-20 In the tradition of Octavia Butler, here is radical self-help, society-help, and planet-help to shape the futures we want. Change is constant. The world, our bodies, and our minds are in a constant state of flux. They are a stream of ever-mutating, emergent patterns. Rather than steel ourselves against such change, Emergent Strategy teaches us to map and assess the swirling structures and to read them as they happen, all the better to shape that which ultimately shapes us, personally and politically. A resolutely materialist spirituality based equally on science and science fiction: a wild feminist and afro-futurist ride! adrienne maree brown, co-editor of Octavia’s Brood: Science Fiction from Social Justice Movements, is a social justice facilitator, healer, and doula living in Detroit.

Critique of Black Reason Achille Mbembe 2017-02-17 In Critique of Black Reason eminent critic Achille Mbembe offers a capacious genealogy of the category of Blackness—from the Atlantic slave trade to the present—to critically reevaluate history, racism, and the future of humanity. Mbembe teases out the intellectual consequences of the reality that Europe is no longer the world’s center of gravity while mapping the relations among colonialism, slavery, and contemporary financial and extractive capital. Tracing the conjunction of Blackness with the biological fiction of race, he theorizes Black reason as the collection of discourses and practices that equated Blackness with the nonhuman in order to uphold forms of oppression. Mbembe powerfully argues that this equation of Blackness with the nonhuman will serve as the template for all new forms of exclusion. With Critique of Black Reason, Mbembe offers nothing less than a map of the world as it has been constituted through colonialism and racial thinking while providing the first glimpses of a more just future.

Eternal Echoes Angela Corbett 2013-11-15 Beyond the Frame N. Tadier 2005-09-16 Beyond the Frame explores the importance of visual images in the identities and material conditions of women of color as they relate to social power, oppression, and resistance. The goal of the collection is to rethink the category of visual theory through women of color. It also explores the political and social ramifications of visual imagery for women of color, and the political consciousness that can emerge alongside a critical understanding of the impact of visual imagery. The book begins with a general exploration of what it means to develop a women of color criticism (rather than an analysis of women of color), and goes on to look specifically at topics such as 90s fashion advertisements, the politics of cosmetic surgery, and female fans of East LA rock bands.

Female Performers in British and American Fiction Barbara Straumann 2018-05-22 The female performer with a public voice constitutes a remarkably vibrant theme in British and American narratives of the long nineteenth century. The tension between fictional female performers and other textual voices can be seen to refigure the cultural debate over the ‘voice’ of women in aesthetically complex ways. By focusing on singers, actresses, preachers and speakers, this book traces and explores an important tradition of feminine articulation. Drawing on critical approaches in literary studies, gender studies and philosophy, the book conceptualizes voice for the discussion of narrative texts. Examining voice both as a thematic concern and as an aesthetic effect, the individual chapters analyse how the actual articulation by female performers correlates with their cultural visibility and agency. What this study foregrounds is how women characters succeed in making themselves heard even if their voices are silenced in the end.

Poetry and Bondage Andrea Brady 2021-10-20 Presenting a new theory of poetic constraint, this book analyses contributions of bound people to the history of the lyric. Slave Portraiture in the Atlantic World Agnes Lugo-Ortiz 2013-09-30 Slave Portraiture in the Atlantic World is the first book to focus on the individualized portrayal of enslaved people from the time of Europe’s full engagement with plantation slavery in the late sixteenth century to its final official abolition in Brazil in 1888. While this period saw the emergence of portraiture as a major field of representation in Western art, ‘slave’ and ‘portraiture’ as categories appear to be mutually exclusive. On the one hand, the logic of chattel slavery sought to render the slave’s body as an instrument for production, as the site of a non-subject. Portraiture, on the contrary, privileged the face as the primary visual matrix for the representation of a distinct individuality. Essays address this apparent paradox of ‘slave portraits’ from a variety of inter disciplinary perspectives, probing the historical conditions that made the creation of such rare and enigmatic objects possible and exploring their implications for a more complex understanding of power.

**Parentology** Dalton Conley 2014-03-18 An award-winning scientist offers his unorthodox approach to childrearing: “Parentology is brilliant, jaw-droppingly funny, and full of wisdom...bound to change your thinking about parenting and its conventions” (Amy Chua, author of Battle Hymn of the Tiger Mother). If you’re like many parents, you might ask family and friends for advice when faced with important choices about how to raise your kids. You might turn to parenting books or simply rely on timeless religious or cultural traditions. But when Dalton Conley, a dual-doctorate scientist and full-blown nerd, needed childrearing advice, he turned to scientific research to make the big decisions. In Parentology, Conley hilariously reports the results of those experiments, from bribing his kids to do math (since studies show conditional cash transfers improved educational and health outcomes for kids) to teaching them impulse control by giving them weird names (because evidence shows kids with unique names learn not to react when their peers tease them) to getting a vasectomy (because fewer kids in a family mean smarter kids). Conley encourages parents to draw on the latest data to produce solid and happy ones. Ultimately these experiments are very loving, and the outcomes are redemptive—even when Conley’s sassy kids show him the limits of his profession. Parentology teaches you everything you need to know about the latest literature on parenting—with lessons that go down easy. You’ll be laughing and learning at the same time.

close textual, political, and institutional analysis of the tremendous interest in Darwin's ideas and other works on evolution, Elshakry shows how, in an age of massive regional and international political upheaval, these readings were suffused with the anxieties of empire and civilizational decline. The politics of evolution infiltrated Arabic discussions of pedagogy, progress, and the very sense of history. They also led to a literary and conceptual transformation of notions of science and religion themselves. Darwin thus became a vehicle for discussing scriptural exegesis, the conditions of belief, and cosmological views more broadly. The book also acquaints readers with Muslim and Christian intellectuals, bureaucrats, and theologians, and concludes by exploring Darwin's waning influence on public and intellectual life in the Arab world after World War I. Reading Darwin in Arabic is an engaging and powerfully argued reconceptualization of the intellectual and political history of the Middle East.

**The Enforcement of Morals** Patrick Devlin 2010-01-31 Are morals always relative? Are private actions—among consenting adults—always beyond the law? Or are there some behaviors which so weaken a society that common beliefs about right and wrong must be enforced to protect the common good? In opposing the decriminalization of private acts of homosexuality in Britain, Patrick Devlin maintained that not only is it reasonable to allow popular morality to influence lawmaking, it is imperative: "... For a society is not something that is kept together physically; it is held by the invisible bonds of common thought." Some sidestep this controversial issue by asserting that the law should not be used to enforce any morality. Others invoke John Stuart Mill's doctrine that the only purpose for laws governing any member of society is to prevent harm to others, chiefly physical harm. But, Devlin argued, while breaches of shared morality do not cause harm to other individuals in the way that murder and assault do, they do harm society by undermining its moral structure. Patrick Devlin (1905-1992) studied history and law at Cambridge University and became a successful lawyer.

**The Lost Language of Symbolism** Harold Bayley 1912

**Intercourse** Andrea Dworkin 2009-09-17 Intercourse is a book that moves through the sexed world of dominance and submission. It moves in descending circles, not in a straight line, and as in a vortex each spiral goes down deeper. Its formal model is Dante's Inferno; its lyrical debt is to Rimbaud; the equality it envisions is rooted in the dreams of women, silent generations, pioneer voices, lone rebels, and masses who agitated, demanded, cried out, broke laws, and even begged. The begging was a substitute for retaliatory violence: doing bodily harm back to those who use or injure you. I want women to be done with begging. The public censure of women as if we are rabid because we speak without apology about the world in which we live is a strategy of threat that usually works. Men often react to women's words - speaking and writing - as if they were acts of violence; sometimes men react to women's words with violence. So we lower our voices. Women whisper. Women apologize. Women shut up. Women trivialize what we know. Women shrink. Women pull back. Most women have experienced enough dominance from men - control, violence, insult, contempt - that no threat seems empty. Intercourse does not say, forgive me and love me. It does not say, I forgive you, I love you. For a woman writer to thrive (or, arguably, to survive) in these current hard times, forgiveness and love must be subtext. No. I say no. Intercourse is search and assertion, passion and fury; and its form - no less than its content - deserves critical scrutiny and respect.
