Consolidated financial statements in IAS/IFRS and German GAAP – Major differences explained
Khanh Pham-Gia 2009-07-24
Research Paper (undergraduate) from the year 2008 in the subject Business economics - Business Management, Corporate Governance, grade: 1,3, University of applied sciences, Munich, language: English, abstract: Due to a regulation of the European Union (EU) concerning financial accounting issued on June 6th, 2002, all listed companies in EU are obligated to provide their Consolidated Financial Statements (CFS) in accordance with financial
accounting principles of International Accounting Standards (IAS) or International Financial Reporting Standards (IFRS) from January 1st, 2005. This regulation enables a necessary harmonization of accounting principles within the EU and supports a clear comparability of CFS worldwide. The object of this study is to analyze major differences of CFS in German GAAP and IAS/IFRS. Thereby, variations of both accounting standards are compared and a major difference is explained thoroughly with a concrete example. The major differences of CFS in IAS/IFRS and German GAAP result from different aims of both accounting standards. The German GAAP is strongly based on prudence principle for protection of creditors and authoritative principle (tax accounting based on commercial accounting). In comparison, the IAS/IFRS deliver potential investors realistic and decision useful information about assets, finance, and profit situations of a company (true and fair view / fair presentation principle). These basic principles could be reflected in several key points of the both accounting standards whose differences are clarified in this study. Furthermore, an essential key point of CFS namely the basis of consolidation (contains enterprises included in the consolidation and capital consolidation methods) is illuminated with a concrete example. Hereby, the relation between the control influence of the parent enterprise on its “sub-entities” and the correspondent capital consolidation methods are studied.

IFRS Essentials Dieter Christian 2013-03-27 Gain a deeper understanding of financial reporting under IFRS through clear explanations and extensive practical examples. IFRS can be a complex topic, and books on the subject often tackle its intricacies through dense explanation across thousands of pages. Others seek to provide an overview of IFRS and these, while useful for the general reader, lack the depth required by practitioners and students. IFRS Essentials strikes a balance between the two extremes, offering concise interpretation of the crucial facts supported by a wealth of examples. Problems and their solutions are demonstrated in a manner which is short, straightforward and simple to understand, avoiding complex language; jargon and redundant detail. This book is suitable for students and lecturers at universities and other educational institutions, auditing and accounting trainees, and employees in the area of accounting and auditing who seek to develop their practical skills and deepen their knowledge of IFRS.
