Rudyard Rucker 2003-07-04 Joe Cabe is a Silicon Valley hotshot-well, a would-be hotshot anyway--hoping that the 3-D TV project he's managing will lead to the big money IPO he's always dreamed of. On New Year's Eve, hoping to impress his wife, he sneaks home the prototype. It brings no new warmth to their cooling relationship, but it does attract someone else's attention. When Joe sees a set of lips talking to him (floating in midair) and feels the poke of a disembodied finger (inside him), it's not because of the champagne he's drunk. He has just met Momo, a woman from the All, a world of four spatial dimensions for whom our narrow world, which she calls Spaceland, is something like a rug, but one filled with motion and life. Momo has a business proposition for Joe, an offer she won't let him refuse. The upside potential becomes much clearer to him once she helps him grow a new eye (on a stalk) that can see in the fourth-dimensional directions, and he agrees. After that it's a wild ride through a million-dollar night in Las Vegas, a budding addiction to tasty purple 4-D food, a failing marriage, eye-popping excursions into the All, and encounters with Momo's foes, rubbery red critters who steal money, offer sage advice and sometimes messily explode. Joe is having the time of his life, until Momo's scheme turns out to build their railroad directly through his territory, taking the Blackfoot land without provocation. Winterhawk and his tribe remain strong as long as they can, to protect the land of their people, the land they call home, before the invasion of progress imposes itself on America. This inspiring story of a brave man, who stands up to and fight against those who have their own agenda for his land, evokes the nostalgic atmosphere of Western series that Dante frequently appeared in during American television's Golden Era, such as Death Valley Days, The Big Valley, Daniel Boone, Custer, The Texan, Bonanza, Maverick, and Cheyenne. The Enchanted April Elizabeth Von Arnim 1923 Driven to action by the dreariness of their lives in London, two not-quite friends, in the hopes of finding renewal, plan to rent a medieval Italian castle for a month. They are joined by two other women, a socialite and a dowager, each also seeking a remedy for their dissatisfaction. As the quartet eventually (though not necessarily gracefully) settles in together, they share the beauty and joy of their springtime palace, and each becomes reacquainted with the self they had forgotten. Whether or not the enchantment can carry into their lives and loves in the "real" world is the question. The basis for the film, of the same name, this is a classic to cherish.

**I Am Not**

Robert E. Draper 2014-03-20 "I Am Not" is author Robert E. Draper’s attempt to provide insight into our age-old plight of finding ourselves “strangers in a strange land,” as well as into the great difficulty we all have in accepting that if we are living in a world of virtual insanity, we are—at least partly—insane too. According to the author, this world is a dystopian battleground, a product of a collective amnesia that has burdened us all with the difficult task of living coherently while working our way back to the awareness of what we are: united; yet believing we are what we are not: separated—all of our hearts breaking over what we know not. The central theme of "I Am Not" is recognizing the futility of our efforts to improve the trap we appear to be in, redirecting those efforts to the goal of waking up to what we are doing, saving not the world but ourselves. Only thus can we reverse our own course into madness, finding—and demonstrating—there is hope within, right in the middle of a place where there is none to be found without.

Brian Seth Hurst 2012-10-14 What do you do after life has handed you a wake-up call? Author Brian Seth Hurst experienced a significant professional setback, but, rather than “soldier on,” he recognized it as a profound opportunity to acknowledge a deeper foundation at work in his life. It is the affirmation that there is sheer power in what one believes, and, for better or worse, those beliefs are the foundation for the reality we create. The help of an “Why?” began a thirty-day inquiry and adventure for Hurst into the unknown. The result is the book W H O L E - a collection of powerful essays that examine how beliefs serve, or do not serve, us in our lives, how those beliefs can be transformed to change our circumstances, and the power of the ultimate connection to Source. What do you do after life has handed you a wake-up call? If you decide to remain awake, then you begin looking at your life. W H O L E is your companion as you review the past, balance all areas of your life, and begin to create anew. W H O L E prompts a very personal, progressive, and conscious examination of concepts and belief systems in every area of your life, ranging from relationships, work and time, to money, the environment, morality and bigger purpose. It asks provocative and thoughtful questions that lead to understanding. How do your reconcile everything that has happened and is happening in your life with the one you truly want? The good and the bad, the joy and the hurt, the wins and the losses - all those parts form the experience of your life and your identity. Yet, you are much greater than the sum of all those parts. W H O L E allows you to make sense of the pieces of your life as part of the greater being that is You. W H O L E presents you with the opportunity to reconcile the past, arrive wholly connected in the present, and create your future. W H O L E literally answers the question, “What was I thinking?” To know “whole” in the duality of your reality, you must know broken. To know broken is to recognize that you are, always have been, and always will be, WHOLE.

**The Door Is Open** Andrew Cort 2012-05-01 “A wondrous, sparkling fusion of wisdom and insight.” - Patricia Santhuff What do the wonderful myths of ancient Greece, the beautiful stories in the Bible and Qur’an, and all the sacred stories from traditions around the world, have in common? They open our hearts to wonder, mystery, passion, and joy. I know, on the outside these stories seem very different, confusing, conflicting, and often violent and divisive. But when read symbolically and internally, they are all telling the same story. They show us the path of spiritual awakening and enlightenment. Sometimes the story is called “Returning to the Promised Land.” Sometimes it’s called “Seeking the Holy Grail.” Sometimes it’s called “Parsephone’s Return to Olympus.” But whatever it’s called, the inner meaning and purpose is always the same. The stories are all a call to awaken, to live passionately and consciously, and to enter the door that leads to enlightenment and communion with the divine. The door is always open. The light is always ready to receive us. But we have to learn how to tread the path! Fortunately, that’s what all the sacred stories are really about. THE DOOR IS OPEN uncovers the 7 Universal Steps that are found within the symbols and allegories of all great mythology and scripture. Each chapter ends with a series of practical and enjoyable spiritual exercises and activities. You can do this work on your own, or together with a group. It could be a church or synagogue group, a book club, a classroom, or any group of friends who want to get together and expand their spiritual horizons.

In MADE FOR MORE: A Journey of Purpose and Discovery, the reader will maneuver through these questions in order to understand the larger picture for their life. The ultimate goal is to lead the reader to understand they are made for a great purpose through Jesus. Through God and the message of hope found in scripture, the reader will discover they are truly Made For More.

Backwards the Drowned Go Dreaming Carl Watson 2012-04-01 “As longest the themes and the briny dyes of the sea, greedy, tired, frustrated, I had a flash. Suddenly, I had it all figured out-the psychology of despot and CEOs. I figured that in order for civilization to exist, people have to stay in one place, and so it seems somehow natural that the evolution of society would be to create an illusion of motion where none exists. Faster cars. Faster editing. Increased sensory stimulation. But all the while we are actually sitting more and more still. The cloud of half-forgotten memories forever shadowing missing opportunities that hangs over a noonday dive somewhere during the twilight of the last blown century, heartbeat rock-n-roll on the radio cracking in exquisite precision between am stations and windswept interstates, Carl Watson daydreams before silent black-and-white televisions in SRO lobbies or as he drinks himself sober in crumbling Chicago tenements. “Backwards the Drowned Go Dreaming” explode the eye-edey myth of the American road. -Donald Breckenridge, author of “This Young Girl Passing” Carl Watson’s work is desolate poetry. He writes with sharp nostalgia for a past that really wasn’t all that great. It feels like a stay in a down-and-out motel right on the edge of the paper and the pen. Sometimes the reader never lets you forget that even in the most desperate situations, there is humor (even if it’s mostly black) and greatness of the spirit. - Emily XYZ, “United States of Poetry” Pursue Your Purpose Not Your Dreams 2015-08-01

Perceptions Sam Mansourou 2017-03-07 Mansourou comes out of the gate firing and does not relent in this criticism of religious notions and influence. Rather than refer to religion in general terms or acts in the name of religion, Mansourou attacks religious undertones and what is not often looked at in religious subtext along with modern religious theology for their shallow and vacant themes in today’s complex society. The Annotated Flatland Ian Stewart 2008-07-31 Flatland is a unique, delightful satire that has charmed readers for over a century. Published in 1884 by the English clergyman and headmaster Edwin A. Abbott, it is the fanciful tale of A. Square, a two-dimensional being who is whisked away by a mysterious visitor to The Land of Three Dimensions, an experience that forever alters his worldview. Like the original, Ian Stewart's commentary takes readers on a strange and wonderful journey. With clarity and wit, Stewart illuminates Abbott's numerous Victorian references and touches on such diverse topics as ancient Babylon, Marx and St. John and the Book of Acts. Flatterland Ian Stewart 2010-10-08 First there was Edwin A. Abbott’s remarkable Flatland, published in 1884, and one of the all-time classics of popular mathematics. Now, from mathematician and accomplished science writer Ian Stewart, comes what Nature calls “a superb sequel.” Through larger-than-life characters and an inspired story line, Flatterland explores our present understanding of the shape and origins of the universe, the nature of space, time, and matter, as well as modern geometries and their applications. The journey begins when our heroine, Victoria Line, comes upon a great-great-grandchild of Friar's Logic, hidden in the attic. The writings help her to contact the Space Hopper, who temps her away from her home and family in Flatland and becomes her guide and mentor through ten dimensions. In the tradition of Alice in Wonderland and The Phantom Toll Booth, this magnificent investigation into the nature of reality is destined to become a modern classic.
Kitab Kabbani

Byblos Press 2015-10-26

The Middle East is spinning out of control, but what does that mean to a simple fast-order cook in Central California? Everything—his family, his love life, his future, his purpose. And it may be that he means a great deal to the Middle East. Some are willing to kill him and others are willing to risk their lives to protect him. This adventure takes the reader to Turkey, Iran, and Arabia. Themes of historical religions of the Middle East, modern interpretations, truth, understanding, and what the future holds for this volatile region are interwoven throughout the book. Romance and its seeming impossibility provide a metaphor for all that is wonderful about this region, and all that may be suffocating hope. The unspoken question through most of the book asks is something more happening as this adventure unfolds?
