Ford FE Engines Barry Stuhlmus 2009-05-15 Ford FE engines, which were manufactured from the late 1950s all the way through the mid-1970s, were designated as the large-displacement engines in the Ford lineup. FE means Ford Edsel, and reflects an era when Ford sought to bridge the Edsel to the new Falcon and Fairlane models. As you might imagine, these engines were a mixed bag of early attempts at large-displacement engines.
