Adrian Mole: The Cappuccino Years Sue Townsend 2000-10-19 'The funniest person in the world' Caitlin Moran Celebrate Adrian Mole's 50th Birthday with this new edition of the FIFTH BOOK in his diaries, where Adrian faces divorce, fatherhood and (short-lived) television stardom. ----- Wednesday August 13th Here I am again - in my old bedroom. Older, wiser, but with less hair, unfortunately. The atmosphere in this house is very bad. The dog looks permanently exhausted. Every time the phone rings my mother snatches it up as though a kidnapper were on the line. Adrian Mole is thirty, single and a father. His cooking at a top London restaurant has been equally mocked ('the sausage on my plate could have been a turd') and celebrated (will he be the nation's first celebrity offal chef?). And the love of his life, Pandora Braithwaite, is too busy as the newly elected MP for Ashby-de-la-Zouch to notice him. Frustrated, disappointed and undersexed, Adrian despairs until a letter from his past changes everything . . . 'With the Mole books, Townsend has an unrivalled claim to be this country's foremost practising comic novelist' Mail on Sunday 'Adrian Mole really is a brilliant comic creation. Every sentence is witty and well thought out, and the whole has reverberations beyond itself' The Times 'One of the greatest comic creations. I can't remember a more relentlessly funny book' Daily Mirror 'Three cheers for Mole's chaotic, non-achieving, dysfunctional family. We need him' Evening Standard

A History of the Faculty of Arts at the University of Adelaide 1876-2012 Nick Harvey 2012 The Bachelor of Arts (BA) was the first recognised degree at the University of Adelaide. Although informal classes for some subjects were held at the University between 1873 and 1875, the first official University lecture was a Latin lecture at 10 am on Monday 28 March 1876. This was followed by lectures in Greek, English and Mental Philosophy. By 1878, the first BA student, Thomas Ainslie Caterer, completed his studies for the BA degree and in 1879 became the first graduate of the University of Adelaide. Even though the BA was the first degree it was not until eight years later in 1887 that the Faculty of Arts was inaugurated (after the Faculty of Law in 1884, a Board of Studies in Music in 1885 and the Faculty of Medicine in 1885). Following the creation of a separate science degree in 1882 many scientific subjects were removed from the BA. For the next five years the subjects were Latin, Greek, Mathematics, Natural Philosophy, Logic, English, History, and Comparative Philology. Later other subjects such as French, German and Political Economy were added toward the end of the nineteenth century. In 1897 the Elder Conservatorium of Music was created as the first music school of its type in Australia, although at that time it was not part of the Faculty of Arts. In the first 50 years of the University's existence, less than ten BA students graduated each year. At the start of the 21st century this figure had climbed to over 300 BA graduates per year but what is interesting is that by 2010 the number of BA graduates was equalled by the number of graduates from separate named degrees within the Faculty plus 70 Music graduates. In addition, during the first decade of the twenty-first century, there were over 60 coursework postgraduates plus more than 40 research postgraduates graduating each year.

Climbing into the Winnebago his father left him, they set out across America in search of the sites his father had captured through the lens of his Nikon. And there’s no one Justin would rather share the experience with more than Landry. But Justin knows he can’t escape forever. Eventually he’ll have to return home and join his mother’s Senate campaign. Nor can he escape the truth of who he is, and the fact that he’s in love with his out-and-proud travel companion. Admitting what he wants could hurt his mother’s conservative political career. But with every click of his shutter and every sprinkle of ash, Justin can’t resist Landry’s pull. You've Come A Long Way, Baby Lilly J. Goren 2009-05-22 The landmark 2008 presidential and vice presidential campaigns of Hillary Clinton and Sarah Palin brought the role of women in American leadership into sharper focus than ever before. These women and others such as Nancy Pelosi and Katie Couric who are successful in traditionally male-dominated fields, demonstrate how women's roles have changed in the last thirty years. In the past, the nightly news was anchored by male journalists, presidential cabinets were composed solely of male advisors, and a female presidential candidate was an idea for the distant future, but the efforts of dedicated reformers have changed the social landscape. The empowerment of women is not limited to the political sphere, but is also echoed by the portrayal of women in film, television, magazines, and literature. You’ve Come a Long Way, Baby: Women, Politics, and Popular Culture investigates the role of popular culture in women’s lives. Framed by discussions of contemporary feminism, the volume examines gender in relation to sexuality, the workplace, consumerism, fashion, politics, and the beauty industry. In analyzing societal depictions of women, editor Lilly J. Goren and an impressive list of contributors illustrate how media reflects and shapes the feminine sense of power, identity, and the daily challenges of the twenty-first century. Along with a discussion of women in politics, various contributors examine a range of gender-related issues from modern motherhood and its implications for female independence to the roles of women and feminism in pop music. In addition, Natalie Fuehrer Taylor outlines the evolution of women’s magazines from Ladies’ Home Journal to Cosmopolitan. The impact of television and literature on body image issues is also explored by Linda Beall, who draws on trendy chick lit phenomena such as Gossip Girl and Sex and the City, and Emily Askew, who analyzes the effects of image transformation in programs such as The Swan and Extreme Makeover. As comprehensive as it is accessible, You’ve Come a Long Way, Baby is a practical guide to understanding modern gender roles. In tracing the different ways in which femininity is constructed and viewed, the book demonstrates how women have reclaimed traditionally domestic activities that include knitting, gardening, and cooking, as well as feminine symbols such as Barbie dolls, high heels, and lipstick. Though the demand for and pursuit of gender equality opened many doors, the contributors reveal that fictional women's roles are often at odds with the daily experiences of most women. By employing an open approach rather than adhering to a single, narrow theory, You’ve Come a Long Way, Baby appeals not only to scholars and students of gender studies but to anyone interested in confronting the struggles and celebrating the achievements of women in modern society.

Marcus Gardner wasn't always a lumberjack; once a high-powered Minneapolis lawyer, he's come home to Logan to lick his wounds, not play with a sassy city twink who might as well have stepped directly out of his past. But as the northwinds blow and guards come down, Frankie and Marcus find they have a lot more in common than they don't. Could the man who won't live in the country and the man who won't go back to the city truly find a home together? Because the longer it snows, the deeper they fall in love, and all they want for Christmas is each other.

State of the World 2010 Worldwatch Institute 2013-07-04 Many of the environmental and social problems we face today are symptoms of a deeper systemic failing: a dominant cultural paradigm that encourages living in ways that are often directly counter to the realities of a finite planet. This paradigm, typically referred to as 'consumerism,' has already spread to cultures around the world and has led to consumption levels that are vastly unsustainable. If this pattern spreads further there will be little possibility of solving climate change or other environmental problems that are poised to dramatically disrupt human civilization. It will take a sustained, long-term effort to redirect the traditions, social movements and institutions that shape consumer cultures towards becoming cultures of sustainability. These institutions include schools, the media, businesses and governments. Bringing about a cultural shift that makes living sustainably as 'natural' as a consumer lifestyle is today will not only address urgent crises like climate change, it could also tackle other symptoms like extreme income inequity, obesity and social isolation that are not typically seen as environmental problems. *State of the World 2010* paints a picture of what this

sustainability culture could look like, and how we can - and already are - making the shift.

The Growing Pains of Adrian Mole Sue Townsend 2018-01-02 "Townsend's wit is razor sharp" as her self-proclaimed intellectual adolescent hero continues his hilarious angst-filled secret diary (TheMirror). I can't wait until I am fully mature and can make urban conversation with intellectuals. Growing up among inferiors in Great Britain isn't easy for a sensitive fifteen-year-old "poet of the Midlands" like Adrian Mole, considering everything in the world is conspiring to scar him for life: His hormones are in a maelstrom; his mother is pregnant (at her age!); his girlfriend, Pandora, is in shutdown; radio stardom isn't panning out; he's become allergic to non-precious metals; and passing his exams is as dire a crisis as the Falkland Islands. From weathering a profound but shaky romance with the love of his life to negotiating his parents' reconciliation to writing his poetry on restroom walls (why on earth did he sign his name?), "Adrian Mole is as engaging as ever" (Time Out). The sequel to the beloved *The Secret Diary of Adrian Mole Aged 13 3/4* continues Adrian's chronicle of angst, which has sold more than twenty million copies worldwide, and been adapted for television and staged as a musical. Adrian Mole is truly "a phenomenon" (The Washington Post). *Your Best Life Now* Joel Osteen 2007-09-03 In this remarkable New York Times bestseller, Joel Osteen offers unique insights and encouragement that will help readers overcome every obstacle in their lives.

The Irish Voice in America Charles Fanning 2021-10-21 In this study, Charles Fanning has written the first general account of the origins and development of a literary tradition among American writers of Irish birth or background who have explored the Irish immigrant or ethnic experience in works of fiction. The result is a portrait of the evolving fictional self-consciousness of an immigrant group over a span of 250 years. Fanning traces the roots of Irish-American writing back to the eighteenth century and carries it forward through the traumatic years of the Famine to the present time with an intensely productive period in the twentieth century beginning with James T. Farrell. Later writers treated in depth include Edwin O'Connor, Elizabeth Cullinan, Maureen Howard, and William Kennedy. Along the way he places in the historical record many all but forgotten writers, including the prolific Mary Ann Sadlier. The Irish Voice in America is not only a highly readable contribution to American literary history but also a valuable reference to many writers and their works. For this second edition, Fanning has added a chapter that covers the fiction of the past decade. He argues that contemporary writers continue to draw on Ireland as a source and are important chroniclers of the modern American experience.

Summer of Yesterday Gaby Triana 2014-06-17 Back to the Future meets Fast Times at Ridgemont High when Haley's summer vacation takes a turn for the retro in this totally rad romantic fantasy. Summer officially sucks. Thanks to a stupid seizure she had a few months earlier, Haley's stuck going on vacation with her dad and his new family to Disney's Fort Wilderness instead of enjoying the last session of summer camp back home with her friends. Fort Wilderness holds lots of childhood memories for her father, but surely nothing for Haley. But then a new seizure triggers something she's never before experienced—time travel—and she ends up in River Country, the campground's long-abandoned water park, during its heyday. The year? 1982. And there—with its amusing fashion, "oldies" music, and primitive technology—she runs into familiar faces: teenage Dad and Mom before they'd even met. Somehow, Haley must find her way back to the twenty-first century before her present-day parents anguish over her disappearance, a difficult feat now that she's met Jason, one of the park's summer residents and employees, who takes the strangely dressed stowaway under his wing. Seizures aside, Haley's used to controlling her life, and she has no idea how to deal with this dilemma. How can she be falling for a boy whose future she can't share?

Parentology Dalton Conley 2014-03-18 An award-winning scientist offers his unorthodox approach to childrearing: "Parentology is brilliant, jaw-droppingly funny, and full of wisdom...bound to change your thinking about parenting and its conventions" (Amy Chua, author of *Battle Hymn of the Tiger Mother*). If you're like many parents, you might ask family and friends for advice when faced with important choices about how to raise your kids. You might turn to parenting books or simply rely on timeworn religious or cultural traditions. But when Dalton Conley, a dual-doctorate scientist and full-blown nerd, needed childrearing advice, he turned to scientific research to make the big decisions. In *Parentology*, Conley hilariously reports the results of those experiments, from bribing his kids to do math (since studies show conditional cash transfers improved educational and health outcomes for kids) to teaching them impulse control by giving them weird names (because evidence shows kids with unique names learn not to react when their peers tease them) to getting a vasectomy (because fewer kids in a family mean smarter kids). Conley encourages parents to draw on the latest data to rear children, if only because that level of engagement with kids will produce solid and happy ones. Ultimately these experiments are very loving, and the outcomes are redemptive—even when Conley's sassy kids show him the limits of his profession. *Parentology* teaches you everything you need to know about the latest literature on parenting—with lessons that go down easy. You'll be laughing and learning at the same time.

Teaching Writing from a Writer's Point of View Terry Hermsen 1998 Based on a series of successful summer writing institutes, this book presents practical ways for teachers to reinvigorate their classrooms and their own attitudes toward creative writing. In four complementary sections focusing on four groups of writers—creative writers in residence, K-12 students and teachers who participated in the summer institutes, and established writers such as Ron Carlson and Scott Russell Sanders—the book demonstrates the enormous variety and high quality of writing that result when people use writing to discover what they want to say. After an introduction by Robert Fox ("The Experience of Writing: A Summer Institute"), the first section presents essays by Ohio writers in the schools; "Doing Our Own Possibility: Journal of a Residency at Columbiana County Head Start Centers" (Debra Conner); "Playwriting: A Teaching Approach Using the Stories of Our Lives" (Michael McGee London); "Just across the Street: The Story of a Teacher-Based Residency" (Lynn Powell); "Translytics: Creative Writing Derived from Foreign Language Texts" (Nick Muska); "How to Do a Poetry Night Hike" (Terry Hermsen); and "Reading to a Sky of Soba" (David Hassler). The second part presents poems, stories, and plays from 13 Ohio schools. The third part presents essays from participants in the experience of writing: "When Spirit Moves, Children Sing" (MaryAnn Titus); "Sudden Revelation: Fiction Writing in the Classroom" (Carl H. Krauskopf III); "A Year of Writing Workshop" (Mary L. Noble); "Word Works: Building a Community of Writers" (Janice M. Gallagher); and "Green Digits and Colons: Find Time to Write" (Barry Peters). The last section presents essays from experiences of writing faculty: "Turning the Desk" (Ron Carlson); "The Singular First Person" (Scott Russell Sanders); and "Reveling in the World: An Interview with Christopher Merrill on the Power of Language and Teaching" (Terry Hermsen). Off Campus Amy Jo Cousins 2017-03-24 Everyone's got secrets. Some are just harder to hide. With his father's ponzi scheme assets frozen, Tom Worthington believes finishing college is impossible unless he can pay his own way. After months sleeping in his car and driving a pirate taxi for cash, he's ready to do just that. But his new, older-student housing comes with an unapologetically gay roommate. Tom doesn't ask why Reese Anders has been separated from the rest of the student population. He's just happy to be sleeping in a bed. Reese isn't about to share his brutal story with his gruff new roommate. You've seen one homophobic jock, you've seen 'em all. He plans to drag every twink on campus into his bed until Tom moves out. But soon it becomes clear Tom isn't budging. Tom isn't going to let some late-night sex noise scare him off, especially when it's turning him on. But he doesn't want any drama either. He'll keep his hands, if not his eyes, to himself. Boundaries have a way of blurring when you start sharing truths, though. And if Tom and Reese cross too many lines, they may need to find out just how far they can bend...before they break. Warning: This book contains cranky roommates who vacillate between lashing out and licking, some male/male voyeurism, emotional baggage that neither guy wants to unpack, and the definitive proof that sound carries in college housing. p.p1 {margin: 0.0px 0.0px 23.9px 0.0px; line-height: 18.0px; font: 16.0px 'Helvetica Neue'; color: #444444; -webkit-text-stroke: #444444} span.s1 {font-kerning: none} THIS EDITION IS A RE-RELEASE OF A PREVIOUSLY PUBLISHED VERSION.
