The Positive Hero in Russian Literature: Rufus W. Mathewson 2000 "The positive hero
was defined by the Soviets as one who set an example for the reader's behavior. As
early as 1960, the merits of this ideal model were a central issue in the
between literary imagination and ideological criticism that raged in Russia for a
hundred years."
"In The Positive Hero in Russian Literature, Rufus W. Mathewson,
Jr., brings a period of Russian literature to life and demonstrates how the
battles over the positive hero reappeared with dramatic clarity in the dissident
literary movement that developed after Stalin's death. Mathewson argues that the
true continuity between nineteenth- and twentieth-century Russian prose was to be
found in this persistent conflict between contrary views of the real nature and
proper uses of literature. This new edition of a widely acclaimed work, first
published in 1958 and covering literary developments through 1944, includes
chapters on Belinsky, Pasternak, Solzhenitsyn, and Goryayevsky."

The Last Vispo Anthology: Crag Hill 2012-11-03 This book collects experimental
vispo poems, with the Last Vispo Anthology, Fantagraphics spotlights the
intersection of art and language in this innovative new collection – without peer
in English – that gathers the work of visual poets from around the world into one
stunning volume. The alphabet is turned on its head and inside-out and the results
sublime in a compilation of daring and surprising vispo-visual gems. The Last
Vispo is composed of visual poetry (a portmanteau of the words "visual" and
"poetry) from the years 1998 to 2008, during a burst of creative activity fueled
by file sharing and e-mail, which made it possible for the vispo community to
establish a more heightened and sophisticated dialogue with one another.
The collection extends the dialectical between art and literature that began with
ancient "shaped text," medieval pattern poetry, and dada typography, pushing past
the concrete poetics of the 1950s and the subsequent mail art movement of the
1980s to its current incarnation. Rather than settle into predictable,
unchallenged patterns, this vibrant poetry seizes new tools to expand the body of
work that inhabits the borderlands of visual art and poetic language. The Last
Vispo features 148 contributors from 23 countries on five continents. It includes
12 essays that illuminate the abundant history and the state of vispo today. The
anthology offers a broad alphabet of long-time practitioners and poets new to
visual poetry over the last decade, undergirding the longevity and the continued
vitality of the art form.
