Guidelines British Society of Gastroenterology consensus ...

of Gastrointestinal and Abdominal Radiology), general practitioners (Primary Care Society for Gastroenterology) and patients (Crohn's and Colitis UK). A

systematic review of 88 247 publications and a Delphi consensus process involving 81 multidisciplinary clinicians and patients was undertaken to develop 168 evidence-

*Current treatment and recent progress in gastric cancer*

clude gastroenterology, radiology, pathology, and medical, surgical, and radiation oncology. A review of pathology and imaging is often helpful and not infrequently identifies findings that can change treatment or require further workup. In addition, a review of patient outcomes and novel studies can provide an excellent source of continued
