methods of attacking computer networks and practical guidelines for protecting a virtual network.

Plunkett's Telecommunications Industry Almanac 2008:

Telecommunications Industry Market Research, Statistics, Trends & Leading Companies

Jack W. Plunkett 2007-08

Plunkett's Telecommunications

Industry Almanac 2008 is the only complete reference guide

to the telecommunications technologies and companies that are changing the way the world communicates today.

This massive reference book's market research section

provides complete access to

the U.S. telecommunications and communications industry.

This section includes over a dozen major statistical tables

covering everything from revenues for the fixed line and

wireless service sectors, to the number of telephone

subscribers worldwide, to telephone equipment import

and export market numbers.

Finally, in this carefully-researched volume, you will

receive an abundance of data

on: national and global telecommunications statistics, new telecommunications technology,

telecommunications market forecasts, telecommunications trends and leading telecommunications

companies. In the corporate profiles section, you'll receive vital details on the

"Telecommunications 500

Firms," the largest, most successful corporations in all facets of the

telecommunications business.

These in-depth profiles include corporate name, address,

phone, fax, web site, growth plans, competitive advantage,

financial histories and up to 27 executive contacts by title. You

will also find information

regarding local exchange and long distance telephone service

markets and trends, wireless and cellular telephone markets

and trends, satellite

telecommunications, Wi-Fi,

telephone industry equipment, software and support.

Telecommunications is one of the fastest-growing and most

dynamic industries in the world

toward the fastest growing segment of PC users today. The book's author, Richard "Mr. Modem" Sherman, is widely recognized in the senior community as a knowledgeable computing expert and syndicated columnist. Although there are many titles that lead readers through the Internet maze, this book is the only one targeting mature adults with a non-threatening tone and easy, step-by-step examples that make getting around on the Internet easy and fun.

Plunkett's Wireless, Wi-Fi, RFID and Cellular Industry Almanac 2008 Jack W.

Plunkett 2007-07 The cell phone is the fastest-selling consumer electronic in the world. On a global basis, over 800 million cellular telephones are sold yearly. More camera-equipped cell phones are sold each year than stand alone digital cameras. Rapid development of new technologies is leading to ever more versatile, multipurpose mobile devices, including 3G Internet-enabled cell phones and PDAs. Meanwhile, wireless

networking and wireless Internet access are developing and expanding on a global basis at a rapid rate. Booming technologies include such 802.11 standards as Wi-Fi and WiMax, as well as Ultra Wide Band (UWB) and Bluetooth. Telematics, intelligent transportation systems (ITS) and satellite radio will soon create an entertainment, navigation and communications revolution within automobiles and trucks. Meanwhile, RFID (radio frequency identification) will revolutionize wireless tracking, inventory and logistics at all levels, from manufacturing to shipping to retailing. These developments are creating challenges for legacy companies and opportunities for nimble marketers and managers. Plunkett's Wireless, Wi-Fi, RFID & Cellular Industry Almanac 2008 covers such sectors. Our coverage includes business trends analysis and industry statistics. We also include a wireless and cellular business glossary and a listing of industry contacts.
