**Physical Science** National Learning Corporation 1988-06 The DSST Subject Standardized Tests are comprehensive college and graduate level examinations given by the Armed Forces, colleges and graduate schools. These exams enable students to earn college credit for what they have learned through self-study, on the job, or by other non-traditional

means. The DSST Physical Science Passbook® prepares candidates for the DSST exam, which enables schools to award credit for knowledge acquired outside the normal classroom environment. It provides a series of informational texts as well as hundreds of questions and answers in the areas that will likely be covered on your upcoming exam, including but not limited to: physics; electricity and magnetism; matter; chemical reactions; atomic structure; and more.

**Study and Master Physical Sciences Grade 11 CAPS Learner's Book** Karin H. Kelder 2012-09-10 Study & Master Physical Sciences Grade 11 has been especially developed by an experienced author team for the Curriculum and Assessment Policy Statement (CAPS). This new and easy-to-use course helps learners to master essential content and skills in Physical Sciences. The comprehensive Learner's Book: • explains key concepts and scientific terms in accessible language and provides learners with a glossary of scientific terminology to aid understanding. • provides for frequent consolidation in the Summative assessments at the end of each module • includes case studies that link science to real-life situations and present balanced views on sensitive issues • includes 'Did you know?' features providing interesting additional information • highlights examples, laws and

**Self-directed learning research and  
its impact on educational practice**

Elsa Mentz 2021-05-17 This scholarly  
book is the third volume in an NWU  
book series on self-directed learning  
and is devoted to self-directed  
learning research and its impact on  
educational practice. The importance  
of self-directed learning for  
learners in the 21st century to equip  
themselves with the necessary skills  
to take responsibility for their own  
learning for life cannot be over  
emphasised. The target audience does  
not only consist of scholars in the  
field of self-directed learning in  
Higher Education and the Schooling  
sector but includes all scholars in  
the field of teaching and learning in  
all education and training sectors.  
The book contributes to the discourse  
on creating dispositions towards  
self-directed learning among all  
learners and adds to the latest body  
of scholarship in terms of self-  
directed learning. Although from  
different perspectives, all chapters  
in the book are closely linked  
together around self-directed  
learning as a central theme,  
following on the work done in Volume  
1 of this series (Self-Directed

Learning for the 21st Century:  
Implications for Higher Education) to  
form a rich knowledge bank of work on  
self-directed learning.

Life Sciences, Grade 10 Annemarie  
Gebhardt 2012-01-05 Study & Master  
Life Sciences Grade 10 has been  
especially developed by an  
experienced author team for the  
Curriculum and Assessment Policy  
Statement (CAPS). This new and easy-  
to-use course helps learners to  
master essential content and skills  
in Life Sciences. The comprehensive  
Learner's Book includes: \* an  
expanded contents page indicating the  
CAPS coverage required for each  
strand \* a mind map at the beginning  
of each module that gives an overview  
of the contents of that module \*  
activities throughout that help  
develop learners' science knowledge  
and skills as well as Formal  
Assessment tasks to test their  
learning \* a review at the end of  
each unit that provides for  
consolidation of learning \* case  
studies that link science to real-  
life situations and present balanced  
views on sensitive issues. \*  
'information' boxes providing  
interesting additional information  
and 'Note' boxes that bring important  
information to the learner's  
attention

The Power of Positive Thinking Norman  
Vincent Peale 2011-08 The Power of  
Positive Thinking is one of the most  
widely read and widely referenced  
books in Modern American History. It  
is so widely known that it has  
actually become part of the English  
Language. If somebody you know feels  
down and out and thinks that he just  
cannot do any thing right, what you  
say to him is: "Try the Power of  
Positive Thinking" or you might say,  
"Read Norman Vincent Peale." Here is  
what President Bill Clinton said upon  
hearing of the death of Norman  
Vincent Peale: The name of Dr. Norman  
Vincent Peale will forever be  
associated with the wondrously

American values of optimism and service. Dr. Peale was an optimist who believed that, whatever the antagonisms and complexities of modern life brought us, anyone could prevail by approaching life with a simple sense of faith. And he served us by instilling that optimism in every Christian and every other person who came in contact with his writings or his hopeful soul. In a productive and giving life that spanned the 20th century, Dr. Peale lifted the spirits of millions and millions of people who were nourished and sustained by his example, his teaching, and his giving. While the Clinton family and all Americans mourn his loss, there is some poetry in his passing on a day when the world celebrates the birth of Christ, an idea that was central to Dr. Peale's message and Dr. Peale's work. He will be missed.

**Parentology** Dalton Conley 2014-03-18  
An award-winning scientist offers his unorthodox approach to childrearing: "Parentology is brilliant, jaw-droppingly funny, and full of wisdom...bound to change your thinking about parenting and its conventions" (Amy Chua, author of *Battle Hymn of the Tiger Mother*). If you're like many parents, you might ask family and friends for advice when faced with important choices about how to raise your kids. You might turn to parenting books or simply rely on timeworn religious or cultural traditions. But when Dalton Conley, a dual-doctorate scientist and full-blown nerd, needed childrearing advice, he turned to scientific research to make the big decisions. In *Parentology*, Conley hilariously reports the results of those experiments, from bribing his kids to do math (since studies show conditional cash transfers improved educational and health outcomes for kids) to teaching them impulse control by giving them weird names (because evidence shows kids with unique names learn not to react when their peers tease them) to getting a vasectomy (because fewer kids in a family mean smarter kids). Conley encourages parents to draw on the latest data to rear children, if only

because that level of engagement with kids will produce solid and happy ones. Ultimately these experiments are very loving, and the outcomes are redemptive—even when Conley's sassy kids show him the limits of his profession. *Parentology* teaches you everything you need to know about the latest literature on parenting—with lessons that go down easy. You'll be laughing and learning at the same time.

**Study and Master Mathematical Literacy Grade 12 CAPS Learner's Book**

Also provides a comprehensive Learner's Book.

**The New Tribe** Buchi Emecheta 2000  
 From best-selling author Holly Webb comes a brand new series full of mystery and intrigue following the adventures of a very determined heroine and her dog! Holly Webb fans will be thrilled to pieces to discover the adventures of Maisie Hitchins, the pluckiest little detective in Victorian London. Maisie Hitchins lives in her grandmother's boarding house, longing for adventure. She idolizes the famous detective, Gilbert Carrington, and follows his every case. But Maisie is about to be given the opportunity of a lifetime: her own mystery to solve! In the first book in this fantastic new series, Maisie rescues a puppy in peril whilst running an errand, and adopts him. She decides to investigate the puppy's original cruel owner, but instead gets tangled up in an intriguing plot involving stolen sausages, pilfered halfpennies and a fast-paced bicycle chase. The streets of Victorian London are never safe, but Maisie's on the case!
