Politics and Governance of Basic

Education Brian Levy 2018-09-21 This is an open access title available under the terms of a CC BY-NC-ND 4.0 International licence. It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations. All over the world, economic inclusion has risen to the top of the development discourse. A well-performing education system is central to achieving inclusive development - but the challenge of improving educational outcomes has proven to be unexpectedly difficult. Access to education has increased, but quality remains low, with weaknesses in governance comprising an important part of the explanation. The Politics and Governance of Basic Education explores the balance between hierarchical and horizontal institutional arrangements for the public provision of basic education. Using the vivid example of South Africa, a country that had ambitious goals at the outset of its transition from apartheid to democracy, it explores how the interaction of politics and institutions affects educational outcomes. By examining lessons learned from how South Africa failed to achieve many of its goals, it constructs an innovative alternative strategy for making process, combining practical steps to achieve incremental gains to re-orient the system towards learning. *Creative Arts, Grade 8* Joseph Bolton

Teaching African History in Schools

Denise Bantovato 2020-11-05

"Emerging from the pioneering work of the African Association for History Education (AHE-Afrika), Teaching African History in Schools offers an original Africa-centred contribution to international history education research. Edited by AHE-Afrika's founders and directors, the volume thus addresses a notable gap in this field by showcasing otherwise marginalised scholarship from and about Africa. Teaching African History in Schools constitutes a unique collection of nine empirical studies, interrogating curriculum and textbook contents, and teachers' and learners' voices and experiences as they relate to teaching and learning African history across the continent and beyond. Case studies include South Africa, Kenya, Rwanda, Zimbabwe, Malawi, Cameroon and Tanzania, as well as the UK and Canada. Contributors are: Denise Bantovato, Carol Bertram, Jean-Leonard Buhigiro, Annie Fatsereni Chiponda, Raymond Nkwenti Fru, Marshall Tamuka Maposa, Abdul Mohamud, Sabrina Moisan, Reville Nussey, Nancy Rushohora, Johan Wassermann, and Robin Whitburn"--

Social Sciences, Grade 5 Inga Norenus 2012-09-26 Study & Master Social Sciences has been specially developed by an experienced author team for the Curriculum and Assessment Policy Statement (CAPS). Self-directed learning research and its impact on educational practice

Elsa Mentz 2021-05-17 This scholarly book is the third volume in an NWU book series on self-directed learning and is devoted to self-directed learning research and its impact on educational practice. The importance of self-directed learning for learners in the 21st century to equip themselves with the necessary skills to take responsibility for their own learning for life cannot be over emphasised. The target audience does not only consist of scholars in the field of self-directed learning in Higher Education and the Schooling sector but includes all scholars in the field of teaching and learning in all education and training sectors. The book contributes to the discourse on creating dispositions towards

self-directed learning among all learners and adds to the latest body of scholarship in terms of self-directed learning. Although from different perspectives, all chapters in the book are closely linked together around self-directed learning as a central theme, following on the work done in Volume 1 of this series (Self-Directed Learning for the 21st Century: Implications for Higher Education) to form a rich knowledge bank of work on self-directed learning.

The History and Description of Africa, and of the Notable Things Therein Contained Leo (Africanus) 1896

The Power Of Positive Thinking Norman Vincent Peale 2020-03-06 The book describes the power positive thinking has and how a firm belief in something, does actually help in achieving it. In order to live a successful and constructive life, one needs to know about the secrets of positive thinking says the author for it is the most important ingredient for a better and blissful life. The 'Power of Positive Thinking' will help you overcome negative attitudes, such as fear and lack of confidence and replace them with the traits of a positive thinker optimism, determination, patience and focus. Simple techniques of elevating low moods and energy levels by positive thinking also improve ones overall mental and physical health. This book will show you how you can deal more effectively with tough situations and difficult people and dramatically improve your performance and confidence. You must learn that the easiest way to an easy mind is to create an easy mind. This is done by practice and by the application such as "Believe in yourself and in everything you do", "Build new power and determination", "Improve your personal and professional relationships" and "Be kind to yourself" etc.
