Cloud Cuckoo Land (Large Print Edition) Anthony Doerr 2021-09-28

From the Pulitzer Prize–winning author of All the Light We Cannot See, perhaps the most bestselling and beloved literary fiction of our time, comes a triumph of imagination and compassion, a soaring novel about children on the cusp of adulthood in a broken world, who find resilience, hope, and story. The heroes of Cloud Cuckoo Land are trying to figure the world around them: Anna and Omeir, on opposite sides of the formidable city walls during the 1453 siege of Constantinople; teenage idealist Seymour in an attack on a public library in present-day Idaho; and Konstance, on an interstellar ship bound for an exoplanet, decades
on campus as well, emphasizing the exclusion of different groups of masculinity at different times. Syrett demonstrates the ways that as class, religiosity, race, sexuality, athleticism, intelligence, and poetry-contributors explore and critique the conventions that govern our interactions with these practices. Artistic Citizenship focuses on the social responsibilities and functions of amateur and professional artists and examines ethical issues that are conventionally dismissed in discourses on these topics. The questions this book addresses include: How does the concept of citizenship relate to the arts? What sociocultural, political, environmental, and gendered “goods” can artistic engagements create for people worldwide? Do particular artistic ethnographies or artistic practices have the potential for nurturing individual or social responsibility for student safety. Law can be a positive tool for improving balance between the rights and responsibilities of students: but it is also not a mere bystander to student safety. The authors describe a new legal paradigm for college safety—the facilitator university balances the rights and responsibilities of students and institutions and envisions campuses which feature shared responsibility for student safety. Law can be a positive tool for improving safety and community on modern campuses.

The Rights and Responsibilities of the Modern University Robert D. Bickel 1999 The past decades have seen an alarming increase in campus crime, alcohol abuse by college students, hazing and other risky student activities. There is a growing awareness of the need to make safer college campuses. While danger to students has been on the rise, the relationships between students and their universities has grown increasingly distant. The rise in danger and the loss of community on college campuses has been inadvertently facilitated by legal rules. Courts crafted legal protections for colleges which backfired: legal rules designed to protect colleges from lawsuits instead encouraged colleges to become insulated and to avoid positive steps to protect student safety. Bickel and Lake re-imagine the role of law in university/student relations. Picking up on recent court decisions and legislative initiatives, the authors describe a new legal paradigm for college safety—the facilitator university. The modern college is not a baby-sitter or custodian of students: but it is also not a mere bystander to student safety. The facilitator university balances the rights and responsibilities of students and institutions and envisions campuses which feature shared responsibility for student safety. Law can be a positive tool for improving safety and community on modern campuses.

The Company He Keeps Nicholas L. Syrett 2009-03-01 Tracing the full history of traditionally white college fraternities in America from their days in antebellum all-male schools to the sprawling modern-day college campus, Nicholas Syrett reveals how fraternity brothers have defined masculinity over the course of their 180-year history. Based on extensive research at twelve different schools and analyzing at least twenty fraternal organizations at different times, Syrett demonstrates the ways that fraternity brothers’ masculinity has had consequences for other students on campus as well, emphasizing the exclusion of different groups of classmates and the sexual exploitation of female college students.

Hellenistic Lives Plutarch 2016-01-14 Alexander * Demosthenes * Phocion * Eumenes * Demetrius * Pyrrhus * Agis and Cleomenes * Aratus * Herodes * Flaminius * Flaminius * Mithridates * This concise, illustrated history of Hellenistic Greece from the rise of Macedon and Alexander’s conquest of the Persian empire to the arrival of the Romans. Plutarch’s biographies of eminent politicians, rulers, and soldiers combine vivid portraits of their subjects with a wealth of historical information; they constitute a uniquely important source for the period. We see how Greek politics changed as Macedon’s power grew, and we learn of the warlords who followed Alexander. Resistance to Macedon is reflected in the Lives of Demosthenes and Aratus, and that of Agis and Cleomenes, two revolutionary kings of Sparta. The volume concludes with the emergence of Rome in Greek affairs, and the life of Flaminius, the Roman general who defeated Philip V of Macedon. Plutarch’s elegant style combines anecdotes and erudition, humour and psychological insight, consummately translated by Robin Waterfield and introduced by Andrew Erskine. These Lives from the Hellenistic period complement Greek Lives and Roman Lives in Oxford World’s Classics.

The Greek Experience of India: Richard Stoneman 2021-06-08 An exploration of how the Greeks reacted to and interacted with India from the third to first centuries BCE When the Greeks and Macedonians in Alexander’s army reached India in 326 BCE, they entered a new world. The plants were unrecognized, the customs of the people various and puzzling. Alexander’s conquest ended with his death in 323 BCE, but the Greeks would settle in the Indian region for the next two centuries. From observations about botany and mythology to social customs, The Greek Experience of India explores how the Greeks reacted to and constructed life in India during this period. Richard Stoneman offers a valuable look at Megasthenes, ambassador of the King Seleucus to Chandragupta Maurya, and provides an important first look at the Central-Asian book Indica. Stoneman considers the art, literature, and philosophy of the Indo-Greek kingdom and how cultural influences crossed in both directions. The Greek Experience of India is a masterful account of the encounters between two remarkable civilizations.

nation’s institutions of higher learning as awash in a violent crime wave—and to suggest (preposterously) that university leaders, professors, and students are indifferent to female sexual assault victims in their midst. Neither of these claims has any bearing to reality. But they have achieved widespread acceptance, thanks in part to misleading alarums from the Obama administration and biased media coverage led by The New York Times. The frenzy about campus rape has helped stimulate—and has been fanned by—ideologically skewed campus sexual assault policies and lawless commands issued by federal bureaucrats to force the nation’s all-too-compliant colleges and universities essentially to presume the guilt of accused students. The result has been a widespread disregard of such bedrock American principles as the presumption of innocence and the need for fair play. This book uses hard facts to set the record straight. It explores, among other things, nearly two dozen of the cases since 2010 in which students who in all likelihood were not guilty were convicted and potentially been sent to prison in a court of law have, in a lopsided process, been bastardsly and carelessly branded as sex criminals and expelled or otherwise punished by their colleges, often after being tarred and feathered by their fellow students. And it shows why all students—and, eventually, society as a whole—are harmed when our nation’s universities abandon pursuit of truth and seek instead to accommodate the passions of the mob. As detailed in the new Epilogue, some encouraging events have transpired since this book was first published in October 2016. A majority of the judicial rulings in dozens of lawsuits by male students claiming their schools treated them unfairly and discriminatorily has focused on the courts forcing the schools for their handling of these cases. And Education Secretary Betsy DeVos called for fairness to accused students and accusers alike, revoked most of the guilt-presuming Obama-era policies, and began a proracted rule-making process designed to compel procedural fairness and nondiscrimination.
