**Parentology** Dalton Conley 2014-03-18 An award-winning scientist offers his unorthodox approach to childrearing: “Parentology is brilliant, jaw-droppingly funny, and full of wisdom...bound to change your thinking about parenting and its conventions” (Amy Chua,

author of Battle Hymn of the Tiger Mother). If you’re like many parents, you might ask family and friends for advice when faced with important choices about how to raise your kids. You might turn to parenting books or simply rely on timeworn religious or cultural traditions. But when Dalton Conley, a dual-doctorate scientist and full-blown nerd, needed childrearing advice, he turned to scientific research to make the big decisions. In Parentology, Conley hilariously reports the results of those experiments, from bribing his kids to do math (since studies show conditional cash transfers improved educational and health outcomes for kids) to teaching them impulse control by giving them weird names (because evidence shows kids with unique names learn not to react when their peers tease them) to getting a vasectomy (because fewer kids in a family mean smarter kids). Conley encourages parents to draw on the latest data to rear children, if only because that level of engagement with kids will produce solid and

happy ones. Ultimately these experiments are very loving, and the outcomes are redemptive—even when Conley’s sassy kids show him the limits of his profession. Parentology teaches you everything you need to know about the latest literature on parenting—with lessons that go down easy. You’ll be laughing and learning at the same time.

**Old Churches, Ministers and Families of Virginia** William Meade 1891

**Rules for Writers** Diana Hacker 2010-06-08

**The Cambridge Grammar of the English Language** Rodney D. Huddleston 2002-04 This grammar for the 21st century combines clear grammatical principles with non-technical explanations of all terms and concepts used.

**How to Write Research Papers** Sharon Sorenson 2002 Easy-to-follow guidelines show novice and advanced writers how to produce

their finest work.

*National Union Catalog* 1973 Includes entries for maps and atlases.

*Principles of Writing Research Papers* James D. Lester 2007 The Principles of Writing Research Papers is the ultimate brief research reference. Pocket-sized and inexpensive, this research guide is priced to work as a supplement in any research-oriented course. Designed as a guide for writing research papers both in first-year composition courses and in upper-level courses in all disciplines, The Principles of Writing Research Papers is rooted in the fundamentals of thorough library research but encourages and equips students to use the Internet as well as field research where appropriate. It endorses the written word while recognizing the value of graphics, audio, video, and slide presentations. It includes numerous student samples and excerpts of model research papers with particular attention to MLA documentation style.

**Annals of Augusta County, Virginia, from**

**1726 to 1871** Joseph Addison Waddell 1902

This is the standard history of Augusta County, Virginia, with chapters on the county's first settlement, first courts, Indian wars, and Augusta County in the Revolution and the Civil War. Genealogists will most appreciate the discussion of the migration trail out of Augusta County and the numerous genealogical and biographical sketches of Augusta County families.

The Boys of '61, Or, Four Years of Fighting

Charles Carleton Coffin 1881 Coffin writes his personal observations while with the United States Army and Navy during the Civil War. From the first battle of Bull Run to the fall of Richmond and the surrender of Lee, he experienced the war at close quarters and takes us through the intimacy of the march and the camp, among ordinary men and officers, as momentous events unfolded and important decisions were made.

**William Russell and His Descendants** Anna

Russell Des Cognets 1884

**American Military History Volume 1** Army Center of Military History 2016-06-05 American Military History provides the United States Army-in particular, its young officers, NCOs, and cadets-with a comprehensive but brief account of its past. The Center of Military History first published this work in 1956 as a textbook for senior ROTC courses. Since then it has gone through a number of updates and revisions, but the primary intent has remained the same. Support for military history education has

always been a principal mission of the Center, and this new edition of an invaluable history furthers that purpose. The history of an active organization tends to expand rapidly as the organization grows larger and more complex. The period since the Vietnam War, at which point the most recent edition ended, has been a significant one for the Army, a busy period of expanding roles and missions and of fundamental organizational changes. In particular, the explosion of missions and deployments since 11 September 2001 has necessitated the creation of additional, open-ended chapters in the story of the U.S. Army in action. This first volume covers the Army's history from its birth in 1775 to the eve of World War I. By 1917, the United States was already a world power. The Army had sent large expeditionary forces beyond the American hemisphere, and at the beginning of the new century Secretary of War Elihu Root had proposed changes and reforms that within a

generation would shape the Army of the future. But world war-global war-was still to come. The second volume of this new edition will take up that story and extend it into the twenty-first century and the early years of the war on terrorism and includes an analysis of the wars in Afghanistan and Iraq up to January 2009.

Grammar for Teachers John Seely 2006-11-01 An outline of grammar for teachers and teachers in training, covering all the terminology required for the National Literacy Strategy and National Curriculum up to Key Stage 3.

**Resources in Education** 1998

History of the Thirty-sixth Regiment Massachusetts Volunteers. 1862-1865 United States. Army. Massachusetts Infantry Regiment, 36th (1862-1865) 1884

**User Localization Strategies in the Face of Technological Breakdown** Isidore Kafui

Dorpenyo 2019-08-20 This book examines Ghana's use of the fingerprint biometric technology in order to further conversations about localization championed by technical communication scholars. Localization, in this case, refers to the extent to which users demonstrate their knowledge of use by subverting and reconfiguring the purpose of technology to solve local problems. Dorpenyo argues that the success of a technology depends on how it meets the users' needs and the creative efforts users put into use situations. In *User Localization Strategies in the Face of Technological Breakdown*, Dorpenyo advocates studying how users of technological systems construct knowledge about the technology and develop local strategies to solve technological breakdowns. By analyzing technical documents and interview transcripts, the author identifies and advances three user localization strategies: linguistic localization, subversive localization, and user-heuristic experience localization, and

considers how biometric systems can become a tool of marginalization.

**College Writing Skills with Readings** John Langan 2013-01-11 From mastering the traditional five-paragraph essay and its variations to learning about the finer points of grammar and punctuation, this title empowers students to take control of their writing and put it to work for them. It brings writing closer to students and helps to take them where they

need to go.

**Composition in the Classical Tradition** Frank J. D'Angelo 1999 Composition in the Classical Tradition borrows from late antiquity a series of composition exercises called the progymnasmata to teach the art of persuasion. The exercises apply an understanding of the invention and composition of arguments from ancient rhetoric to a writer's own forms of persuasive communication. This book is structured to provide an effectively graded sequence of exercises, manageable at each step, from the simple to the more difficult and from the concrete to the abstract, within an explicit rhetorical framework. Learn how to compose an essay or a speech by first becoming proficient at its parts Composition in the Classical Tradition features a variety of ancient forms myths, historical episodes, descriptions, fables, proverbs, anecdotes, and speeches for readers to enjoy while learning how to write and speak persuasively. For anyone interested in

composition and classical rhetoric.

*They Say* Cathy Birkenstein 2018  
*Dissertation Abstracts International* 1973

**Abnormal Psychology and Life: A Dimensional Approach** Christopher A. Kearney 2011-01-01 Chris Kearney and Tim Trull's ABNORMAL PSYCHOLOGY AND LIFE: A DIMENSIONAL APPROACH provides students with a concise, contemporary, science-based view of psychopathology that emphasizes the individual first. Through consistent pedagogy featuring clinical cases and real first-person narratives, the text illuminates our understanding that abnormal behavior can be viewed along a continuum. By highlighting this widely accepted dimensional view which places the behavior of an individual at the forefront of clinical definition, assessment, and treatment the text's goal is to foster personal relevance for students and encourage them to become intelligent consumers of mental health information. The book also gives students a

comprehensive understanding of the features and epidemiologies, risk factors and prevention, assessment and treatment, and long term prognosis and associated stigma of mental disorders. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

*The Historical Archaeology of Virginia from Initial Settlement to the Present* Clarence R. Geier 2017-02-10 The book includes six chapters that cover Virginia history from initial settlement through the 20th century plus one that deals with the important role of underwater archaeology. Written by prominent archaeologists with research experience in their respective topic areas, the chapters consider important issues of Virginia history and consider how the discipline of historic archaeology has addressed them and needs to address them . Changes in research strategy over time are discussed , and recommendations are made

concerning the need to recognize the diverse and often differing roles and impacts that characterized the different regions of Virginia over the course of its historic past. Significant issues in Virginia history needing greater study are identified.

*The Colonization of North America, 1492-1783*

Herbert Eugene Bolton 1920

The College Writer Randall VanderMey

2006-01-10 [This text] provide[s] coverage of the writing process for today's visually oriented students. The text also included a wealth of rhetorical strategies that instructors and students found accessible and helpful. [It] reinforces these strengths with enhanced coverage of many important topics such as analyzing the rhetorical situation, evaluating sources, avoiding plagiarism, and developing visual literacy. -Pref.

**The Present State of Virginia** Hugh Jones 2018-05-23 Reproduction of the original: The Present State of Virginia by Hugh Jones
