Mathematics and Multi-Ethnic Students

Mathematics and Multi-Ethnic Students provides detailed profiles of teachers across the nation who have implemented effective mathematics instruction for diverse student populations. In this revised edition, Yvelyne Germain-McCarthy translates concrete instances of access and equity into generalized problem-solving approaches. A third new chapter introduces the concept of the Life-Long Learning Laboratory and expands upon the popular case studies and adds two new chapters to highlight the latest educational research and practices that are reflected in the case studies.
