Human - Wikipedia

WebHuman is a loanword of Middle English from Old French *humain*, ultimately from Latin *hūmānus*, the adjectival form of *homō* ('man' – in the sense of humankind). The

native English term man can refer to the species generally (a synonym for humanity) as well as to human males. It may also refer to individuals of either sex, though this form is less common in contemporary English.

Human being | Britannica

WebJan 8, 2023 · Human beings are anatomically similar and related to the great apes but are distinguished by a more highly developed brain and a resultant capacity for articulate speech and abstract reasoning. In addition, human beings display a marked erectness of body carriage that frees the hands for use as manipulative members. Some of these characteristics, however, are not entirely unique to humans.
