It is not the case-costs the money. What about any book that we currently can not guarantee by the best options to keep it.

The book's themes come together in the last chapter that critically evaluates the Saudi and Emirati armed forces' record in the on-going war in Yemen. This is a large and well-researched book that perfectly balances good storytelling with solid analysis.

It is a detailed account of the Gulf wars, including the Iran-Iraq War, Gulf War, and the war in Yemen, providing a nuanced understanding of the region's military and political dynamics. Barany argues that the Gulf wars were not simply about military advantage, but also about political and diplomatic objectives. The book also highlights the role of Western governments in supporting and shaping the region's military landscape.

The book is a must-read for anyone interested in the study of the Gulf region, its military history, and its political and diplomatic relations. It is a comprehensive and well-written account of the Gulf wars and their impact on the region. Barany's analysis is grounded in extensive research and provides a clear understanding of the complexities of the Middle East's military history.

The book is highly recommended for historians, policymakers, and anyone interested in the study of the Gulf region's military history. It is a valuable contribution to the field and provides a nuanced understanding of the region's military and political dynamics. Barany's analysis is grounded in extensive research and provides a clear understanding of the complexities of the Middle East's military history.
Wahhabism is an Islamic reform movement found mainly in Saudi Arabia. Closely linked to the Saudi monarchy, it enforces a strict code of morality and conduct monitored by an imposing religious police, and governs every facet of Saudi life according to its own strict interpretation of Shariah. In addition, Wahhabism also prohibits the practice of any other faith (except for Islam itself), and which is a country that forbids women from driving. But what exactly is Wahhabism? This question had long occupied Valentine, so he lived in the Kingdom for three years, familiarizing himself with its political and cultural landscape and its strict interpretation of Islamic law. This book appraises of one of the most significant movements in contemporary Islam.

Prince Bandar, the first Saud royal ever to serve as ambassador to Washington. David Ottaway’s personal connection to the prince has allowed him unparalleled insight into the complex geopolitics that govern and have governed the relationship between Washington and Riyadh. This book reveals how the special relationship between the United States and Saudi Arabia was forged, and how it has evolved since 1945. Business as Usual? The special relationship over the course of three decades at the Washington Post. No two governments and societies could be more different, and yet we have been bound together since 1945 by vital national interests.

This book was originally published as a special issue of Terrorism & Political Violence.

The World Trade Center bombing of 1993, the 1996 terrorist attack on Khobar Towers, the 1998 bombings of U.S. embassies in Kenya and Tanzania, the 2001 terrorist attacks on the United States, and numerous other events have brought al-Qaeda to the forefront of popular consciousness. This has given rise to a great deal of speculation about the nature and origins of al-Qaeda, and about its leader, Osama bin Laden. Al-Qaeda emerged in the late 1970s as a radical Islamic organization that fought in the Soviet-Afghan war. Bin Laden and his colleagues had grown disillusioned with the more moderate forms of Islam, particularly the Wahhabis of Saudi Arabia, and under the influence of radical theologians, such as Professor Abd al-Hamid al-Maqdisi, they began to develop the idea of a global jihad to establish a caliphate under the leadership of the Prophet Muhammad. They were inspired by the example of the Taliban in Afghanistan and al-Qaeda in Iraq, and by the hope of creating a new Islamic state that would be free from the domination of Western countries and their influence.

The story of al-Qaeda is one of the most important events of the twenty-first century. It has transformed the geopolitical landscape of the Middle East and the world, and has led to a profound rethinking of how we understand politics, religion, and international relations. This book is a comprehensive account of the rise of al-Qaeda, from its origins in the 1980s to its present-day influence. It provides a detailed analysis of the group's ideology, organization, and operations, and offers a clear understanding of the factors that have driven its expansion. It is essential reading for anyone interested in understanding the modern Middle East and the global war on terror.
