**Why We Drive**
Matthew B. Crawford 2020-06-09
A brilliant and defiant celebration of driving as a unique pathway of human freedom, by "one of the most influential thinkers of our time" (Sunday Times) "Why We Drive weaves philosophers, thinkers, and scientific research with shade-tree mechanics and racers to defend our right to independence, making the case that freedom of motion is essential to who we are as a species. ... We hope you'll read it." —Road & Track

Once we were drivers, the open road alive with autonomy, adventure, danger, trust, and speed. Today we are as likely to be in the back seat of an Uber as behind the wheel ourselves. Tech giants are hurling us toward a shiny, happy "self-driving" future, selling utopia but equally keen to advertise to a captive audience strapped into another expensive device. Are we destined, then, to become passengers, not drivers? Why We Drive reveals that much more may be at stake than we might think. Ten years ago, in the New York Times-bestselling Shop Class as Soulcraft, philosopher-mechanic Matthew B. Crawford—a University of Chicago PhD who owned his own motorcycle shop—made a revolutionary case for manual labor, one that ran headlong against the pretensions of white-collar office work. Now, using driving as a window through which to view the broader changes wrought by technology on all aspects of contemporary life, Crawford investigates the driver’s seat as one of the few remaining domains of skill, exploration, play—and freedom. Blending philosophy and hands-on storytelling, Crawford grounds the narrative in his own experience in the garage and behind the wheel, recounting his decade-long restoration of a vintage Volkswagen as well as his journeys to thriving automotive subcultures across the country. Crawford leads us on an irreverent but deeply considered inquiry into the power of faceless bureaucracies, the importance of questioning mindless rules, and the battle for democratic self-determination against the surveillance capitalists. A meditation on the competence of ordinary people, Why We Drive explores the genius of our everyday practices on the road, the rewards of “folk engineering,” and the existential value of occasionally being scared shitless. Witty and ingenious throughout, Why We Drive is a rebellious and daring celebration of the irrepressible human spirit.

The Marvell family is on the move, driving from their Wisconsin farm to visit the children’s grandmother in Virginia. The night before their departure, Mr. Marvell talks to Roger, Heather, and the twins about the wonders of the night sky and explains the zodiac—a beautiful trail traveled by the sun in the daytime and by the moon and planets at night. The pathway's 12 sections, called the "signs" of the zodiac, contain clusters of stars. Long ago shepherds and sailors identified the clusters with characters from mythology, and so the heavens became filled with gods and heroes, hunters, ploughmen, and archers as well as birds, bears, farm animals, and monsters. Upon the family’s arrival in Virginia, Mr. Marvell sets up his telescope but he can't find the Crab—it has disappeared from the sky! Meanwhile, back in Wisconsin, a strange light emanates from the Marvells' house, illuminating every board, windowpane, shingle, brick, and stone. What could be causing it? A Newbery Honor book of 1947, this extraordinary tale by a noted American author is gloriously illustrated with woodcut-style scratchboard graphics.

Its Like This, Cat Emily Cheney Neville 1963 Parentology Dalton Conley 2014-03-18 An award-winning scientist offers his unorthodox approach to childrearing: “Parentology is brilliant, jaw-droppingly funny, and full of wisdom...bound to change your thinking about parenting and its conventions” (Amy Chua, author of Battle Hymn of the Tiger Mother). If you’re like many parents, you might ask family and friends for advice when faced with important choices about how to raise your kids. You might turn to parenting books or simply rely on timeworn religious or cultural traditions. But when Dalton Conley, a dual-doctorate scientist and full-blown nerd, needed childrearing advice,
he turned to scientific research to make the big decisions. In Parentology, Conley hilariously reports the results of those experiments, from bribing his kids to do math (since studies show conditional cash transfers improved educational and health outcomes for kids) to teaching them impulse control by giving them weird names (because evidence shows kids with unique names learn not to react when their peers tease them) to getting a vasectomy (because fewer kids in a family mean smarter kids). Conley encourages parents to draw on the latest data to rear children, if only because that level of engagement with kids will produce solid and happy ones. Ultimately these experiments are very loving, and the outcomes are redemptive—even when Conley’s sassy kids show him the limits of his profession. Parentology teaches you everything you need to know about the latest literature on parenting—with lessons that go down easy. You’ll be laughing and learning at the same time.

The Blue Orchard Jackson Taylor 2010-01-12 On the eve of the Great Depression, Verna Krone, the child of Irish immigrants, must leave the eighth grade and begin working as a maid to help support her family. Her employer takes inappropriate liberties, and as Verna matures, it seems as if each man she meets is worse than the last. Through sheer force of will and a few chance encounters, she manages to teach herself to read and becomes a nurse. But Verna’s new life falls to pieces when she is arrested for assisting a black doctor with “illegal surgeries.” As the media firestorm rages, Verna reflects on her life while awaiting trial. Based on the life of the author’s own grandmother and written after almost three hundred interviews with those involved in the real-life scandal, The Blue Orchard is as elegant and moving as it is exact and convincing. It is a dazzling portrayal of the changes America underwent in the first fifty years of the twentieth century. Readers will be swept into a time period that in many ways mirrors our own. Verna Krone’s story is ultimately a story of the indomitable nature of the human spirit—and a reminder that determination and self-education can defy the deforming pressures that keep women and other disenfranchised groups down.

"A sprawling, evocative, and groundbreaking autobiographical novel told in the unforgettable and hilarious voice of a young Iranian refugee. It is a powerfully layered novel that poses the questions: Who owns the truth? Who speaks it? Who believes it? "A patchwork story is the shame of the refugee," Nayeri writes early in the novel. In an Oklahoman middle school, Khosrou (whom everyone calls Daniel) stands in front of a skeptical audience of classmates, telling the tales of his family's history, stretching back years, decades, and centuries. At the core is Daniel's story of how they became refugees—starting with his mother's vocal embrace of Christianity in a country that made such a thing a capital offense, and continuing through their midnight flight from the secret police, bribing their way onto a plane-to-anywhere. Anywhere becomes the sad, cement refugee camps of Italy, and then finally asylum in the U.S. Implementing a distinct literary style and challenging western narrative structures, Nayeri deftly weaves through stories of the long and beautiful history of his family in Iran, adding a richness of ancient tales and Persian folklore. Like Scheherazade of One Thousand and One Nights in a hostile classroom, Daniel spins a tale to save his own life: to stake his claim to the truth. EVERYTHING SAD IS UNTRUE (a true story) is a tale of heartbreak and resilience and urges readers to speak their truth and be heard.

1999  
Dave Mitchell is fourteen and growing up in the midst of the variety and excitement of New York City. In this quiet, reflective, and humorous story of a boy's journey toward adulthood, Emily Neville captures the flavor of one kind of New York boyhood—the sights and sounds of Gramercy Park, Coney Island, the Fulton Fish Market, the Bronx Zoo, the stickball games played in city streets, the fascinating mixture of nationalities and eccentrics that give the huge metropolis so much of its flavor and excitement. But most of all the author tells a realistic tale of Dave's affection for a stray tomcat, his comradeship with a troubled nineteen-year-old boy, his first shy friendship with a girl, and his growing understanding of his father as a human being and not just a parent. Emil Weiss's lively drawings capture the mood and setting of the story to perfection. Book jacket.
