The Lazy Giant  Ivan Jones 2008-01-01 Tells the story of the Lazy Giant, who makes the children who live in his castle work all day at such tasks as brushing his hair and teeth, fixing his meals, and cleaning the castle.

Wild Animals 2009
My Big Brother JJ  Odette Elliott 2009 J.J. must babysit his little sister for a week while her mother is at work. The siblings have fun together doing different things each day, and on the last day they decide to paint a mural on the garden shed. Just when they’re finishing, little sister has an accident and paint spills everywhere. When Mom arrives she is horrified by the mess, that is until she notices the mural.

Children’s Drawings Georges Henri Luquet 2001 Interest in children’s drawings is contemporary with the birth of modern psychology but as yet there is no psychological theory that successfully accounts for the nature of children’s drawing. The two main theories, visual realism and intellectual realism, fall short. The work of Georges-Henri Luquet is important because it goes beyond both theories. Luquet’s work, though important and of interest to developmental psychologists, remains untranslated to date and so is often inaccurately cited. This translation of Le Dessin Enfantin makes Luquet’s ideas available to a wider readership for the first time.

The Emotion Thesaurus Angela Ackerman 2012 Bella Goes to Sea Benedict Blathwayt 1996 Happy in her new home with William the fisherman, Bella the goose learns to fly. One day she decides to follow William in his boat and flies far out to sea. Then William gets shipwrecked and has to depend on Bella to save him. Croc and Bird Alexei Deacon 2013 When two abandoned eggs hatch two very different creatures emerge. Can a bird and a crocodile grow up as brothers?

Pinocchio, the Tale of a Puppet Carlo Collodi 2011-02 Pinocchio, The Tale of a Puppet follows the adventures of a talking wooden puppet whose nose grew longer whenever he told a lie and who wanted more than anything else to become a real boy. As carpenter Master Antonio begins to carve a block of pinewood into a leg for his table the log shouts out, “Don’t strike me too hard!” Frightened by the talking log, Master Cherry does not know what to do until his neighbor Geppetto drops by looking for a piece of wood to build a marionette. Antonio gives the block to Geppetto. And thus begins the life of Pinocchio, the puppet that turns into a boy. Pinocchio, The Tale of a Puppet is a novel for children by Carlo Collodi is about the mischievous adventures of Pinocchio, an animated marionette, and his poor father and woodcarver Geppetto. It is considered a classic of children’s literature and has spawned many derivative works of art. But this is not the story we’ve seen in film but the original version full of harrowing adventures faced by Pinocchio. It includes 40 illustrations.

Together at Christmas Emma Chichester Clark 2008-10-10 It’s Christmas Eve and both Melrose and Croc are alone in the big city. What are the chances that they might meet to share a wonderful Christmas together and begin a lasting friendship?

Mary Anning Sally M. Walker 2000-01-01 Describes the life of Mary Anning, who discovered many of the best and most complete fossils in nineteenth-century England, yet received little credit for her work.

Katie, the Windmill Cat Gretchen Woelfle 2006-08-08 When a dike breaks during a violent storm, flooding a little Dutch town, Nico’s baby is saved by his heroic cat.
Teaching English Creatively Teresa Cremin 2015-04-30 What does it mean to teach English creatively to primary school children? Teaching English Creatively encourages and enables teachers to adopt a more creative approach to the teaching of English in the primary school. Fully updated to reflect the changing UK curricula, the second edition of this popular text explores research-informed practices and offers new ideas to develop imaginatively engaged readers, writers, speakers and listeners. Underpinned by theory and research, and illustrated throughout with examples of children’s work, it examines the core elements of creative practice and how to explore powerful literary, non-fiction, visual and digital texts creatively. Key themes addressed include: Developing creativity in and through talk and drama Creatively engaging readers and writers Teaching grammar and comprehension imaginatively and in context Profiling meaning and purpose, autonomy, collaboration and play Planning, reviewing and celebrating literacy learning Ensuring the creative involvement of the teacher Inspiring and accessible, Teaching English Creatively puts contemporary and cutting-edge practice at the forefront and includes a wealth of innovative ideas to enrich English teaching. Written by an experienced author with extensive experience of initial teacher education and English teaching in the primary school, it’s an invaluable resource for any teacher who wishes to embed creative approaches to teaching in their classroom.

How I Spent My Summer Vacation Mark Teague 2013-08-28 This wildly funny twist on the “How I spent my summer vacation” school-essay ritual details one child’s imaginary adventures over the summer and is perfect for back-to-school reading! Most kids go to camp over the summer, or to Grandma’s house, or maybe they’re stuck at home. Not Wallace Blear. He was supposed to visit his Aunt Fern. Instead, Wallace insists, he was carried off by cowboys and taught the ways of the West—from riding buckin’ broncos to roping cattle. Lucky for Aunt Fern, he showed up at her house just in time to divert a stampede from her barbecue party! Perfect for back-to-school read-alouds, here’s a western fantasy with sparkling illustrations and enough action to knock kids’ boots off!

Primary Science for Trainee Teachers Judith Roden 2014-09-23 With chapter sequencing following the new Curriculum, this book supports trainee Primary school teachers to make use of the opportunities presented in the new National Curriculum for effective and engaging Science teaching. Covering all of the areas of the new National Curriculum for primary science and offering insight into effective teaching, it helps you connect what you need to teach to how it can be taught. This comprehensive guide to teaching Primary Science will help you secure your subject knowledge, understand how children learn about science and know how to plan and teach effective and inspiring science lessons. Exploring opportunities in the new curriculum for creative and imaginative teaching, it shows you how to capitalize on opportunities to teach Science in a way that sparks children’s interest. Includes the full National Curriculum Programme of Study for Science, key stages 1 and 2 as a useful reference for trainee teachers. Other books in this series include: Primary Mathematics for Trainee Teachers and Primary English for Trainee Teachers.

The Giving Tree  Shel Silverstein 2014-02-18 As The Giving Tree turns fifty, this timeless classic is available for the first time ever in ebook format. This digital edition allows young readers and lifelong fans to continue the legacy and love of a classic that will now reach an even wider audience. “Once there was a tree...and she loved a little boy.” So begins a story of unforgettable perception, beautifully written and illustrated by the gifted and versatile Shel Silverstein. This moving parable for all ages offers a touching interpretation of the gift of giving and a serene acceptance of another’s capacity to love in return. Every day the boy would come to the tree to eat her apples, swing from her branches, or slide down her trunk...and the tree was happy. But as the boy grew older he began to want more from the tree, and the tree gave and gave and gave. This is a tender story, touched with sadness, aglow with consolation. Shel Silverstein’s incomparable career as a bestselling children’s book author and illustrator began with Lafcadio, the Lion Who Shot Back. He is also the creator of picture books including A Giraffe and a Half, Who Wants a Cheap Rhinoceros?, The Missing Piece, The Missing Piece Meets the Big O, and the perennial favorite The Giving Tree, and of classic poetry collections such as Where the Sidewalk Ends, A Light in the Attic, Falling Up, Every Thing On It, Don’t Bump the Glump!, and Runny Babbit. And don’t miss the other Shel Silverstein ebooks, Where the Sidewalk Ends and A Light in the Attic!

Teaching Primary Science  Peter Loxley 2013-10-15
‘Thought-provoking and entices the reader to take a discerning look at science.’ Claire Garven, MA Senior Lecturer at the University of the West of England, Bristol, UK. An approach to planning and teaching primary science that gives children permission to question their own preconceptions. This enables teachers to encourage children to actively think and discuss what they see, and give reasons for their developing scientific ideas. Strongly recommended for teachers who want their children to learn to think scientifically.’ Jane Gibson, Senior Lecturer and Coordinator of primary science in ITE at the University of St Mark and St John (Marjon), UK. This second edition brings science subject knowledge and pedagogy together to support, inform and inspire those training to teach primary science. Written in a clear and accessible way, the book provides comprehensive coverage of science themes. Ideas for teaching and examples from practice provide a basis for inspiring children to explore science and look at the world in new and intriguing ways. Hallmark features Ideas for practice exemplify how you can help children to use scientific knowledge and concepts to satisfy their curiosity about natural phenomena. Something to think about scenarios help to extend and develop your own understanding of key ideas. The companion website includes links to suggested reading and Teachers’ TV clips for your own development and for use in the classroom. New to this edition A new chapter called Views of Science Learning encourages the teacher to take a central role in helping children develop scientific attitudes, skills and conceptual understanding. Learning Outside the Classroom is a new chapter that provides ideas and guidance that helps to develop children’s scientific skills and knowledge, while also promoting positive attitudes to science. New Global Dimensions sections offer starting points for discussion and research into how scientific ideas can be positively applied and can be used to evaluate the impact of human activity on the natural world. Talk Skills and Science Discussion sections enable you to develop children’s scientific knowledge and verbal reasoning skills.
