Every recipe serves two people and can be prepared in minutes. Versatile, simple & healthy.... there has never been a better time to start steaming. Includes over 60 recipes, cooking charts and tips. You may also enjoy other titles from the Skinny calorie counted series. Just search 'cooknation' on Amazon.

The Rogue's Wager Christi Caldwell 2016-10-25 London, 1821 Lord Robert Dennington, the Marquess of Westfield, has long reveled in the freedom afforded him as the ducal heir. He knows he must someday do right by the Somerset line, but he's in no hurry to give up his carefree existence. Helena Banbury is a bookkeeper in a gentleman's gambling club, adept at analyzing numbers and accounts but helpless for lack of influence. She's never belonged among the nobility on the gaming hell floors, but neither does she feel completely herself among the men who run the Hell and Sin Club, despite the fact that they are family. The once-illiterate girl from the streets wants more than the gilded walls her protective cage can offer. When Robert mistakenly enters her chambers one night, Helena is forced out of her predictable life and thrust into the glittering world of Society. Will the charms of the marquess prove more perilous than any danger she ever knew on the streets?

**Desk Encyclopedia of Plant and Fungal Virology** Marc H.V. van Regenmortel 2009-10-13 This volume consists of 85 chapters that highlight recent advances in our knowledge of the viruses that infect plants and fungi. It begins with general topics in plant virology including movement of viruses in plants, the transmission of plant viruses by vectors, and the development of virus-resistant transgenic plants. The second section presents an overview of the properties of a selection of 20 well-studied plant viruses, 23 plant virus genera and a few larger groups of plant viruses. The third section, which is abundantly illustrated, highlights the most economically important virus diseases of cereals, legumes, vegetable crops, fruit trees and ornamentals. The last section describes the major groups of viruses that infect fungi. The most comprehensive single-volume source providing an overview of virology issues related to plant and fungi Bridges the gap between basic undergraduate texts and specialized reviews Concise and general overviews of important topics within the

field will help in preparation of lectures, writing reports, or drafting grant applications

*Honda TRX400 Foreman 1995-2003* Penton Staff 2000-05-24 TRX400FW (1995-2003)

*For Better or For Worse? Collaborative Couples in the Sciences* Annette Lykknes 2012-06-05 In this volume, a distinguished set of international scholars examine the nature of collaboration between life partners in the sciences, with particular attention to the ways in which personal and professional dynamics can foster or inhibit scientific practice. Breaking from traditional gender analyses which focus on divisions of labor and the assignment of credit, the studies scrutinize collaboration as a variable process between partners living in the nineteenth and twentieth centuries who were married and divorced, heterosexual and homosexual, aristocratic and working-class and politically right and left. The contributors analyze cases shaped by their particular geographical locations, ranging from retreat settings like the English countryside and Woods Hole, Massachusetts, to university laboratories and urban centers in Berlin, Stockholm, Geneva and London. The volume demonstrates how the terms and meanings of collaboration, variably shaped by disciplinary imperatives, cultural mores, and the agency of the collaborators themselves, illuminate critical intellectual and institutional developments in the modern sciences.

*EnCase Computer Forensics -- The Official EnCE* Steve Bunting 2012-09-14 The official, Guidance Software-approved book on the newest EnCE exam! The EnCE exam tests that computer forensic analysts and examiners have thoroughly mastered computer investigation methodologies, as well as the use of Guidance Software's EnCase Forensic 7. The only official Guidance-endorsed study guide on the topic, this book prepares you for the exam with extensive coverage of all exam topics, real-world scenarios, hands-on exercises, up-to-date legal information, and sample evidence files, flashcards, and more. Guides readers through preparation for the newest EnCase Certified Examiner (EnCE) exam Prepares candidates for both Phase 1 and Phase 2 of the exam, as well as for practical use of the certification Covers identifying and searching hardware and files systems, handling evidence on the scene, and acquiring digital evidence using EnCase Forensic 7 Includes hands-on exercises, practice questions, and up-to-date legal information Sample evidence files, Sybex Test Engine, electronic flashcards, and more If you're preparing for the new EnCE exam, this is the study guide you need.

Force of Temptation Suzanne Wright 2016-12-13 Harley Vincent is resigned to life in the human world. Sure, being a margay shifter is half her nature, but life among humans gives her the freedom to roam and do as she pleases. That is, until anti-shifter extremists target her, putting her life in immediate danger. When an old acquaintance and onetime fling, Jesse Dalton, shows up to offer the protection of his pack, Harley hesitates. She may have feelings for Jesse that go beyond their one-night stand, but life among shifters means giving over her independence to the needs of pack. Plus Mercury Pack has its own threat to face: a rich half-shifter is determined to claim their territory at any cost. Jesse, who lost his true mate as a child, has wanted Harley since their night together, and he s not letting her go again. They may not be destined for each other, but he knows she belongs to him and with his pack. Even if he can convince her to join him now, can he

convince her to stay?"

The Hydraulic Troubleshooting Handbook Brendan Casey 2014 Explains the easiest way to conquer the troubleshooting process: the simple, 12-step procedure that will transform you into a reliable and effective troubleshooter, no matter what your level of experience. This is the "master secret" of knowing what to do and when to do it.

Birds of Belize H. Lee Jones 2010-03-01 "Fills a major gap in the bird identification literature . . . A must for birders planning a trip to this friendly patch of Central America." —The Curious Naturalist With nearly six hundred identified species of birds—and an average of five "new" species discovered annually—Belize is becoming a birding hotspot for amateur and professional birders from around the globe. Thousands of birders visit the country each year to enjoy Belize's amazing abundance and variety of both temperate and tropical birds in natural habitats that remain largely unspoiled. But until now, despite the growing need for an authoritative identification guide, birders have had to rely on regional field guides that offer only limited information on Belizean birds. *Birds of Belize* provides the first complete guide to the identification of all currently known species—574 in all. The birds are grouped by families, with an introduction to each family that highlights its uniquely identifying characteristics and behaviors. The species accounts include all the details necessary for field identification: scientific and common names, size, plumage features, thorough voice descriptions, habitat, distribution, and status in Belize. Full color, expertly drawn illustrations by noted bird artist Dana Gardner present male and female, juvenile and adult, and basic and alternate plumages to aid visual identification throughout the year, while 234 range maps show the birds' distribution and seasonality in Belize. A comprehensive bibliography completes the volume. "A first-class book that will enable users to identify any bird they encounter in Belize." —Victor Emanuel, President, Victor Emanuel Nature Tours

Spiritual Purification in Islam Gavin Picken 2011-03-21 Purification of the soul is a principle that is central to understanding Islamic spirituality but despite this, relatively little has been written explicitly in the Islamic tradition regarding this discrete method of spiritual purification. This book examines the work of a scholar of this discipline, al-Hārith al-Muhāsibī, who lived and worked during the classical Islamic period under the Abbāsids. Although al-Muhāsibī was well known for his skills in many disciplines, including the Qur'ān, Prophetic narration and scholastic theology, it is his mastery in the field of Islamic spirituality and moral psychology for which he is best remembered. Assessing the extent to which the political, social and economic factors played a part in his life and work, Gavin Picken provides a comprehensive overview of his work and its great significance in the development of Islamic spirituality. Reconstructing his life in chronological order and providing the most comprehensive appraisal of his works to date, it explores a facet of al-Muhāsibī's teaching which as yet has not been studied, namely his understanding, concept and methodology regarding the purification of the soul within the Islamic paradigm. As such, it will be of great interest not only to researchers and students of Sufism but also to scholars of comparative spirituality and mysticism.

**The Misplaced Battleship** Harry Harrison 2021-01-01 The present book 'The Misplaced Battleship' is a science fiction work by American author Harry Harrison. It was first published in the year 1960.

Developing Intelligent Agent Systems Lin Padgham 2005-06-24 Build your own intelligent agent system... Intelligent agent technology is a tool of modern computer science that can be used to engineer complex computer programmes that behave rationally in dynamic and changing environments. Applications range from small programmes that intelligently search the Web buying and selling goods via electronic commerce, to autonomous space probes. This powerful technology is not widely used, however, as developing intelligent agent software requires high levels of training and skill. The authors of this book have developed and tested a methodology and tools for developing intelligent agent systems. With this methodology (Prometheus) developers can start agent-oriented designs and implementations

easily from scratch saving valuable time and resources.

*Developing Intelligent Agent Systems* not only answers the questions "what are agents?" and "why are they useful?" but also the crucial question: "how do I design and build intelligent agent systems?" The book covers everything a practitioner needs to know to begin to effectively use this technology - including an introduction to the notion of agents, a description of the concepts involved, and a software engineering methodology. Read on for: a practical step-by-step introduction to designing and building intelligent agent systems. a full life-cycle methodology for developing intelligent agent systems covering specification, analysis, design and implementation of agents. PDT: Prometheus Design Tool - software support for the Prometheus design process. the example of an electronic bookstore to illustrate the design process throughout the book. Electronic resources including the Prometheus Design Tool (PDT), can be found at: <http://www.cs.rmit.edu.au/agents/prometheus> This book is aimed at industrial software developers, software engineers and at advanced undergraduate students. It assumes knowledge of basic software engineering but does not require knowledge of Artificial Intelligence or of mathematics. Familiarity with Java will help in reading the examples in chapter 10.

**Wave Flow of Liquid Films** S. V. Alekseenko 1994-01-01

The Business Communication Handbook Judith Dwyer 2009 The ability to apply written, oral and interpersonal communication skills are essential if you are to succeed in your chosen career. Successful people are able to apply and adjust these skills to suit the various situations they encounter in the workplace. The eighth edition of THE BUSINESS COMMUNICATION HANDBOOK builds on the previous editions to provide an understanding of communication principles that can then be applied in the workplace. This user-friendly text is divided into four parts: Workplace Communication, Workplace Relationships, Workplace Documents and Career Development. Each chapter includes learning objectives and a list of key terms at the beginning of each chapter, margin notes to highlight key ideas, a comprehensive glossary and end-of-chapter summaries that review the essential concepts presented in the chapter. Coverage of employability skills has also been incorporated into the new edition, with Ready For Work activities at the end of each section that enable students to reflect on their readiness for work and career advancement or promotion. A Companion Website at [pearsoned.com.au/dwyer](http://pearsoned.com.au/dwyer) provides further online resources for teachers and students and includes: True/False questions, Internet exercises, Good/Bad practice and research topic questions. This provides teachers with additional assessments and tasks, an exam revision tool and the opportunity to integrate technology into course delivery.

**Flash Burnout** L. K. Madigan 2009-10-19 Winner of the 2010 William C. Morris Award! Fifteen-year-old Blake has a girlfriend and a friend who's a girl. One of them loves him; the other one needs him. When he snapped a picture of a street person for his photography homework, Blake never dreamed that the woman in the photo was his friend Marissa's long-lost meth addicted mom. Blake's participation in the ensuing drama opens up a world of trouble, both for him and for Marissa. He spends the next few months trying to reconcile the conflicting roles of Boyfriend and Friend. His experiences range from the comic (surviving his dad's birth control talk) to the tragic (a harrowing after-hours visit to the morgue). In a tangle of life and death, love and loyalty, Blake will emerge with a more sharply defined snapshot of himself.

Biochemistry Trudy McKee 2013-07-24 Biochemistry: The Molecular Basis of Life is the ideal text for students who do not specialize in biochemistry but who require a strong grasp of biochemical principles. The goal of this edition has been to enrich the coverage of chemistry while better highlighting the biological context. Once concepts and problem-solving skills have been mastered, students are prepared to tackle the complexities of science, modern life, and their chosen professions. Key features A review of basic principles Chemical and biological principles in lanace Real-world relevance The most robust problem-solving program available Simple, clear illustrations Currency New to this edition 258 additional end-of-chapter revision questions New chemistry primer New chapter-opening vignettes New

'Biochemistry in Perspective' boxes Expanded coverage throughout In-chapter 'key concept' lists

**A Shade of Vampire 35** Bella Forrest 2016-11-02 A KING SHALL BE CROWNED The race is on for the crown of Hellswan Kingdom, and Hazel and Ruby have been forced to take opposite sides to increase their likelihood of escape. **Flight Mechanics Modeling and Analysis** Jitendra R. Raol 2008-08-20 The design, development, analysis, and evaluation of new aircraft technologies such as fly by wire, unmanned aerial vehicles, and micro air vehicles, necessitate a better understanding of flight mechanics on the part of the aircraft-systems analyst. A text that provides unified coverage of aircraft flight mechanics and systems concept will go a lon

**Estimator's Electrical Man-Hour Manual** John S. Page 1999-05-24 This manual's latest edition continues to be the best source available for making accurate, reliable man-hour estimates for electrical installation. This new edition is revised and expanded to include installation of electrical instrumentation, which is used in monitoring various process systems.

Insider Secrets to Hydraulics Brendan Casey 2015-01-01  
*The Motorcycle Safety Foundation's Guide to Motorcycling Excellence* Motorcycle Safety Foundation 2019-08-13 This is the book for the motorcyclist who wants to do it right! The Motorcycle Safety Foundation's Guide to Motorcycling Excellence is the most complete and authoritative guide to motorcycle safe-riding techniques and strategies. More than one million students have completed courses developed by the Motorcycle Safety Foundation, and this book is the culmination of what this leading rider-training organization has learned about teaching students of all ages and experience levels. It is the perfect refresher for anyone who has taken an MSF class and it will be an eye-opener for those who have not yet taken a formal training course. In a clear, engaging style with detailed diagrams and extensive full-color photographs and illustrations, the book covers rider attitude, proper gear, basic and advanced street skills, and performance, as well as skill maintenance and troubleshooting. Topics include how to stop quickly when necessary; avoiding traffic hazards; applying evasive maneuvers; countersteering for better control; traveling safely and skillfully in a group; identifying and fixing mechanical problems; riding smoothly at high and low speeds; maintaining momentum in off-highway riding; and much, much more. The Motorcycle Safety Foundation's Guide to Motorcycling Excellence is a remarkable source of riding wisdom and the definitive reference for the sport.

Category Management in Purchasing Jonathan O'Brien 2015-03-10 Category Management in Purchasing is a comprehensive guide to strategic category management, providing a step-by-step guide to its implementation and use. This book provides the necessary tools, techniques and applications that will enable the reader to implement this cost saving purchasing method. The 3rd Edition of Category Management in Purchasing has been rigorously updated to reflect latest thinking in the field. Jonathan O'Brien shows how a strategic approach needs to work effectively together with other approaches, such as Supplier Relationship Management. He has added important sections on governance, included more supplier and supply chain tools, and introduced a pragmatic route for smaller businesses or those who need step-by-step advice. The book provides case studies of real companies, including: IKEA, The Body Shop, NHS, Heinz, Cardiff Council, and GlaxoSmithKline.

Best ever recipes Slimming World 2014-04-30 Food Optimising is the name given by Slimming World to their highly successful weight-loss technique that enables slimmers to lose weight without ever having to go hungry. It is the most slimmer-friendly eating system there is and is based on a deep understanding of the challenges faced by overweight people - no foods are banned, there is no calorie counting and there are hundreds of 'free foods' that can be eaten in unlimited amounts. Published to coincide with the 40th anniversary of Slimming World, Best Ever Recipes draws on Slimming World's 40 years of unrivalled experience in helping slimmers achieve their target weight. Packed with

nutritional, lifestyle and diet information, as well as more than 120 new, healthy yet delicious recipes, it is the definitive guide to successful - and enjoyable - weight loss.

**Essays in Phenomenology** Maurice Natanson 2013-12-19 Fifteen years ago, Dorion Cairns concluded an article on phenomenology with a cautious appraisal of its influence in America. "Thus far," he wrote, "it continues to be an exotic." The situation today has changed: translations of the writings of Husserl, Heidegger, Marcel, Sartre, and Merleau-Ponty have appeared, and commentaries on these and related thinkers are not uncommon. Moreover, discussion of phenomenological problems is increasingly becoming part of the American (if not the British) philosophical scene. Phenomenology is in danger of domestication! Signs of its accommodation include a willingness to pay tribute to Husserl's Logical Investigations by those who find relatively little to interest them in his later work, a location of what are taken to be common themes and underlying convergences of emphasis in Continental phenomenology and Anglo-American philosophy of the more nearly Wittgensteinian and Austinian varieties, and a growing impatience (shared by some phenomenologists) with expositions, explications, and interpretations of Husserl's work at the expense of original applications of phenomenology. Most bluntly put, the attitude is: Don't talk about it; do it! It would seem that we have arrived at a point where introductions to phenomenology are of doubtful value, if not superfluous. The present collection of essays is based on different assumptions and points to an alternative conception of the role of both methodology and originality in phenomenological work

**Student Solutions Manual for Linear Algebra with Applications** Otto Bretscher 2013-05-14 This manual contains completely worked-out solutions for all the odd-numbered exercises in the text.

**The Life of Sir Walter Raleigh: Letters** Edward Edwards 1868  
*Avoiding Mr. Right* C J Ellisson 2013-12-13 In order to take control, you often have to let it go... Carla Johnson thinks issuing orders to a lover will keep her heart safe and leave her in charge of her own destiny. Afraid for Carla's future, her best friend Heather implores her to change her self-centered ways, handing her a list of love life mistakes to steer clear of: Casual Sex Friends with Benefits Avoidance of Intimacy Carla ignores the list--unwilling to face she might have a commitment problem. Until she invites a co-worker to her place one night. She instantly regrets the hum-drum sexual encounter and discourages the accountant from pursuing her. Andy Shea refuses to become another lover the feisty blonde dumps. It'll take a patient man with a strong hand to unlock Carla's sexual awareness and win her heart. He's up for the challenge to convince her he's the one--and eager to prove this number cruncher won't make a boring bedmate.

**Slimming World 30-Minute Meals** Slimming World 2014-04-30 When you're feeling hungry or in a real hurry, it is so easy to opt for the quickest option. But fast food doesn't have to be junk food. 30-Minute Meals helps you to provide nutritious, wholesome food for all the family, not just those who are slimming, without getting stuck in the kitchen for hours on end. This book is full to bursting with more than 120 recipes based on Slimming World's acclaimed Food Optimising programme. Highlights among the soups and starters are hot and sour seafood soup, chive and mushroom quiches, or pink peppercorn and smoke salmon pâté. For filling snacks, try the skillet 'pizzas' or Tex-Mex tacos, or for a truly tempting salad choose between tiger prawns and asparagus or grilled calamari and rocket. Meat and fish recipes include roasted citrus chicken and pork and mango parcels, or try oven-baked sea bass with bacon and cherry tomatoes. There are some wonderfully tempting vegetable dishes, such as baked spinach gnocchi or basil and chilli linguini, while the dessert menu includes amaretti stuffed nectarines and cinnamon poached pears. Anyone interested in easy-to-prepare, full-flavoured and healthy food will find this book useful, whether they are slimming or not!

Elizabeth's Legacy (Royal Institute of Magic) Victor Kloss 2014-08-27 Like most normal people, Ben hadn't the faintest idea there was an Institute of Magic... Two years after his parents' sudden disappearance, Ben Greenwood stumbles upon a cryptic

letter that could shed some light on their whereabouts. But before he can track them down, he'll need to find the mysterious organization that sent the letter: The Royal Institute of Magic. To succeed, Ben will have to navigate a land filled with fantastic creatures and Spellshooters, where magic can be bought and sold, to unravel an ancient family secret that could hold the key to defeating an evil the Institute has been fighting for the last five hundred years. *Elizabeth's Legacy* is the first book in the Royal Institute of Magic series.

**Good Food: Recipes for Kids** Good Food Guides 2011-08-31 Preparing fresh and healthy dishes and then getting your child to eat them can seem far from an easy task for busy parents. With this inspirational collection of recipes taken from Britain's top-selling BBC Good Food Magazine, the Good Food team prove you don't have to devote hours to a hot stove to give your children home-cooked meals, and fast food doesn't have to mean deep-fried or mass produced. Full of quick, easy and nutritional recipes using practical ingredients, a nutritional breakdown so you know exactly what you're giving your child and full-colour photos of each dish, this compact cookbook is a must for parents.

*Principles and Practice of American Politics: Classic and Contemporary Readings, 5th Edition* Samuel Kernell 2012-07-17 This collection examines the strategic behavior of key players in American politics from the Founding Fathers to the Super PACs, by showing that political actors, though motivated by their own interests, are governed by the Constitution, the law, and institutional rules, as well as influenced by the strategies of others.

*Beginning Statistics 3e Textbook* Hawkes Learning 2018  
**Lifelong Learning** Jim Smith 1999 This book provides the first comprehensive picture of lifelong learning and the radical changes needed if it is to become the cultural norm. Clearly written and readily accessible, the book identifies the shifts in attitude and behaviour which are needed to establish a lifelong learning culture. Looking ahead over the next quarter of a century, Jim Smith and Andrea Spurling show how government and learning providers must fundamentally reassess their use of time, space and finance. But, more than that, they also offer a practical, comprehensive and robust strategy for lifelong learning. Through trenchant analysis based on research commissioned by The Lifelong Learning Foundation, this book shows ways of confronting difficult choices and realizing the aim of comprehensive lifelong learning.

*When a Girl Loves an Earl* Elisa Braden 2016-08-30 What a girl wants... Miss Viola Darling always gets what she wants. Always. And what she wants more than anything is to marry James Kilbrenner, the Earl of Tannenbrook. She's fallen hard for the

giant, taciturn, surly brute, and she positively will have no other. The problem? He's not interested. Not even a little. But Viola cannot afford to lose. And she has her heart set on James. If only he will bend to a bit of persuasion. Is an earl like no other... James Kilbrenner knows how determined the entirely-too-beautiful Miss Darling can be—the daft woman cornered him at a perfectly respectable dinner and mangled his cravat before he could escape. He has no desire to marry, less desire to be pursued, and will certainly not kiss her kissable lips until they are both breathless, no matter how tempted he may be. And only the right one will do... Thrown in her path by a meddling marchioness, James finds himself under sensual siege from a tiny, flirtatious sprite who puts both his heart and his vow to remain unwed at risk. And when scandal looms, he learns the hard way that a man can resist only so long before the indomitable Miss Darling gets her way.

*Deadlock* Sara Paretsky 2011-02-09 When Chicago Black Hawks hockey legend Boom Boom Warshawski slips off a wharf and drowns in Lake Michigan, his private-eye cousin questions the accidental death report and rumors of suicide. Armed with a bottle of Black Label and a Smith & Wesson, V.I. follows a trail of violence and corruption to the center of the Windy City's powerful shipping industry. Dodging elaborate attempts on her life with characteristic grit and humor, the one-of-a-kind detective wends her way through a maze of grain elevators and thousand-ton freighters, ruthless businessmen and gorgeous ballerinas, to ferret out Boom Boom's killers before they phase her out of the picture—permanently. Praise for *Deadlock* "V.I. Warshawski is one of the best . . . smart, tough, sexy."—Daily News (New York) "Sara Paretsky makes excellent use of local backgrounds in a carefully plotted tale of murder and great misdeeds in the world of Great Lakes cargo shipping."—Chicago Tribune "Hard-boiled detective fiction . . . a swift-paced and engrossing read."—The Philadelphia Inquirer "Slithers with suspense!"—Chicago Sun-Times

*The K-Factor* Harry Harrison 2018-03-16 This is a classic science fiction short story by Harry Harrison. The K-Factor is an equation used to assess the probability of war. A young man is charged with using the K-Factor and the field of Sociatics to avert war on another planet. However, there is a traitor in his midst who has the power to cause a catastrophe. Will he find the traitor? Find out in this classic sci-fi tale. This work is part of our Vintage Sci-Fi Classics Series, a series in which we are republishing some of the best stories in the genre by some of its most acclaimed authors, such as Isaac Asimov, Marion Zimmer Bradley, and Robert Sheckley. Each publication is complete with a short introduction to the history of science fiction.
